RIVALS CONTEST.

The Boer War Causing Reaction Against Conservatives—Will Be Sure Substantial Gains.

[BY THE NEW ASSOCIATED PRESS—A.M.]

LONDON, Aug. 28.—The poll for the Andover division of Hampshire, the London correspondent of the Times, justified the efforts of the Liberals to contest a seat which the Conservatives have occupied without a break for sixteen years. They succeed in reducing the Unionist majority to 222, and were well rewarded for their vigorous canvass. The Liberals are not extracting sunbeams from cucumbers when they assert that the contest proves that every seat will be worth fighting for the next general election. A reaction in favor of the Liberal party will naturally set in when the Boer war is brought to an end, and the country is not forced to vote while soldiers are fighting. Liberals may fritter away their chances in constitutional warfare, but they can hardly fail to gain seats and to reduce Unionist majorities when the full pressure of increased war taxation and bad trade is felt.

MUST SHOW THEIR COLORS.

NEW YORK, Aug. 28.—In Parguay the women and children show their active political sympathies by wearing the colors of their parties. "If American manufacturers wish to sell their print cloths to the people of Parguay they must furnish goods with either a red or blue base," said John N. Ruffin, United States Consul at Asuncion, Paraguay, in an interview last night. Ruffin is arranging to return to his post in about two weeks. He has been the Consul at Asuncion for five years, and has spent many more years in South America.

MRS. MUIR FILES WILL CONTEST.

WASHINGTON, Aug. 28.—Mrs. Edna McPherson Muir, daughter of the late United States Senator of New Jersey, today filed a contest of the will of her mother in the Probate Court of this city. She alleges undue influence on the part of the beneficiaries under the will.

LABOR DISPUTES

NON-UNION MEN IN GOOD DEMAND.

Tinplate Company Will Pay the Best Wages for Them—Star Mills Force Increased.

[BY THE NEW ASSOCIATED PRESS—P.M.]

PITTSBURGH (Pa.) Aug. 28.—The steel corporation continues to make gains in this district, and today added enough men to the force at the Star plant to insure the working of two mills, double turn, night and day, from now on. The management asserts that the entire plant will be in full operation before a week ends. The strikers say this assertion cannot be made good.

In pursuance of its announced plan to run all of its plants absolutely non-union, the American Tin Plate Company today commenced advertising for non-union men. All applicants are offered the best wages and permanent employment, but in every case the application must be personally presented and the applicant declare himself free from all union control.

When asked today what he thought of the tin-plate company's avowed intention of breaking away from the union entirely, President Shaffer of the Amalgamated Association said: "Where will they get men to run their plants? If we thought the men could be secured, the threat might frighten us. Until we are assured that they are forthcoming, we will keep our nerve."

The latest official declaration from steel sources is that the strike can now be settled only by the men going back to the mills. The position which the officials take, it is said, is that the strike is over, so far as their dealings with the strikers as a body is concerned.

Notwithstanding the well-defined position taken by the steel corporation as to a settlement, another arbitration scheme was launched this evening by Simon Burns, president of the Window Glass Workers' Association. Burns proposes an arbitration committee selected from among such men as Archbishop Ireland, Bishop Potter, Seth Low and others of like prominence, who, after having the entire matter explained to them by both sides to the controversy, shall have absolute authority to decide upon terms of settlement, their decision to be final and accepted by both parties. Burns says he has President Shaffer's sanction for the move, and if the corporation will agree to the plan the strike will be declared off at once. None of the steel officials would discuss the matter.

Shaffer declared tonight that the strike, in spite of the claims of the other side to the contrary, is proceeding satisfactorily and that his association is making such inroads upon the corporation's business that it will be compelled sooner or later to come to terms. His men, he says, are firm all along the line, and are determined to stand for their rights to the end. He says the few mills that have been started are doing little effective work. The fact that the corporation is adding to its force daily does not worry the president. He believes them to be either unskilled or poor workmen, who will be a drawback rather than a help to their employers.

SHAFFER'S PROPOSITION.

PROVISIONAL SCALE.

[BY THE NEW ASSOCIATED PRESS—A.M.]

PITTSBURGH, Aug. 28.—The peace proposition sent out by President Shaffer to the members of the executive board of the Amalgamated Association for their approval previous to presentation to the United States Steel Corporation by the representatives of the National Civic Federation lends color to the peace rumors, and the provisions of the plan were being discussed by the strikers at the Lindsay & McCutcheon Works today.

The proposition provides for a provisional scale for this plant leaving recognition of the union open. The men stated that they were prepared to return to work tomorrow under these conditions. They stated that all they would require will be that the Amalgamated scale be paid, and that union men be allowed perfect liberty and no discrimination.

Notwithstanding the reports that all preparations had been made, the tinplate mill at Demmler did not resume this morning. The report that 200 machinists and helpers are back at the works of the National Tube Company is denied by the strikers. Wheeling dispatches today say that nothing is known of the alleged conference of labor leaders said to have been held there recently to devise a plan to settle the steel strike, and the story is believed to be without foundation.

President Shaffer at noon again denied the persistent reports of early settlement of the strike. "There is nothing in the peace talk," said he. "I have denied these rumors often enough to make the people believe it."

Reverting to the Wheeling story, he said: "I do not know what unconcerned parties are doing, but it will have no effect on us."

FIVE CONFERENCES.

"A MAN" EXPECTS SETTLEMENT.

[BY THE NEW ASSOCIATED PRESS—A.M.]

NEW YORK, Aug. 28.—A special to the Tribune from Wheeling, W. Va., says that a man connected with the Federation of Labor and an official in one of the strongest unions federated with that body, said that there had been five conferences between representatives of the federation and the steel corporation since the close of the mine-workers' conference at Indianapolis which asked Mr. Gompers to call representatives of the federated bodies to meet here.

That meeting of labor presidents was held within a few days after the coal conference, and steps were taken to secure a meeting with the steel officials. The first conference between the steel people and the Federation's representatives was held in Indianapolis. Another conference was held in Cleveland, another in New York and another in Pittsburgh. Finally, he says, a plan of settlement was reached which was satisfactory to the steel people, the Federation's representatives and the Amalgamated Association. This proposition, he says, is now being voted on by the lodges of the Amalgamated Association. It is a compromise, and gives the Amalgamated Association a slight advantage over what the steel people last offered, the union getting a showing in mills that have been unionized since the strike began.

This information was also given by a member of the Mountain City Lodge of the Amalgamated Association in this district. He said his lodge voted to accept the proposition last night, and it was expected that the strike would be settled within ten days.

GLASS WORKERS DISSATISFIED.

[BY THE NEW ASSOCIATED PRESS—A.M.]

PITTSBURGH, Aug. 28.—The Wage Committee, representing the Flint Glass Workers of America and the manufacturers of flint glass, are in conference here today. The glass workers have asked an increase of 5 per cent. over last year's scale. The chances of trouble growing out of the conference are remote, as it is expected that an amicable agreement will be reached.

RANKIN STRIKERS GO TO WORK.

[BY THE NEW ASSOCIATED PRESS—A.M.]

PITTSBURGH, Aug. 28.—There was a break in the strike at the McClintock-Marshall Company's works at Rankin today, 150 men of the 700 who quit yesterday, returning to work. A number of new men were also taken on. The company granted the riveters an increase of 5 per cent. and the laborers were advanced 12½ cents per day. The works were in partial operation today. The trouble has no connection with the steel workers' strike.

CARD INSPECTION.

MINE WORKERS DISCUSS IT.

[BY THE NEW ASSOCIATED PRESS—A.M.]

HAZLETON (Pa.) Aug. 28.—Consideration of the card inspection consumed the entire morning session of the United Mine Workers' convention, and it is likely to be the only matter to receive attention for the remainder of the day.

President Mitchell refused, when the convention adjourned at noon, to say whether any coal companies except the Delaware and Hudson and the Lehigh and Wilkesbarre had been reported by delegates today as opposing the custom.

The convention adjourned at 3 o'clock without coming to any definite conclusion on the question. The Committee on Resolutions will report tomorrow.

AGREEMENT WITH MEN.

BEAT STANDARD OIL DIVIDEND.

[BY THE NEW ASSOCIATED PRESS—A.M.]

NEW YORK, Aug. 28.—President John Mitchell of the United Mine Workers of America has issued a statement in which he says:

"The agreement reached between the men and the operators in 1900 amounted to an increase of $25,000,000 annually, for 200,000 men, secured at an expenditure of $300,000, which is a bigger dividend than the Standard Oil Company or the Morgan Banking Company ever paid.

"At the April convention, with an expenditure of $5000, concessions were granted amounting to an increase of $7,000,000 annually."

TEXTILE UNION'S STRIKE.

COMPANY TO EJECT TENANTS.

[BY THE NEW ASSOCIATED PRESS—P.M.]

CHARLESTON (S. C.) Aug. 28.—Textile Union, No. 211, at its meeting tonight declared a strike in the Olympia, Granby, Richland and Capital City mills, until the authorities rescind their action forcing operatives to abjure the unions. The union's strength will be tested tomorrow, when the mills open for work. Conservative estimates place the number of strikers at 900 or 1000.

The mill authorities today began the swearing-out of writs to eject the striking tenants from the dwellings which are owned by the mills and leased to the operatives for two weeks at a time.

SHIRT WAIST MAKERS.

THEY DISLIKE PICKETS.

[BY THE NEW ASSOCIATED PRESS—A.M.]

NEW YORK, Aug. 28.—Secretary Davidson of the Shirt Waist Makers' Union says that 12,000 of the 60,000 shirt waist makers in this city had already decided on a movement against the wholesale arrest of pickets, which has been going on since the beginning of the shirt waist makers' strike. It was said that a committee will be sent to Commissioner Murphy to make a complaint.

STRIKE IN PRINT PLANT.

[BY THE NEW ASSOCIATED PRESS—A.M.]

CHICAGO, Aug. 28.—All departments of the W. B. Conkey Company printing plant at Hammond, Ind., except the composing-room, were closed today. Over one thousand employés of the company are now out on strike. Strike headquarters have been established, and today, in open defiance of Judge Baker's injunction, men and women were doing picket duty and working to keep away non-union workmen. No violence as yet has been attempted, but no attempt has been made to force the injunction against the pickets.

[IN SAN FRANCISCO.]

AGREEMENT REACHED TO SERVE AS BASIS.

[BY THE NEW ASSOCIATED PRESS—P.M.]

SAN FRANCISCO, Aug. 28.—As a result of frequent conferences between people interested in settling the strike and leaders of both sides, a meeting was held this afternoon between a number of employers and men on strike. None of the leaders of either side were present, but it was understood that the meeting had the full sanction of all parties concerned. The parties had a most amicable talk, at which an agreement was reached along lines which, it was thought, would settle the strike. This agreement will be presented to the Executive Committee of the Employers' Association and to the Executive Committee of the City Front Federation, and if it be ratified, the whole question will be settled at a further meeting to be held by the same parties. The terms of the agreement have not been discussed, but it is understood that they are of such a nature that there will be no difficulty on either side in accepting them.

It was stated today that the agreement covers all phases of the strike situation, and while both sides conceded something, neither, it was thought, would suffer humiliation if a settlement should be reached on the basis outlined.

Business was reported to be in better condition today than at any time since the strike began, but the officials of the City Front Federation contend that much of it is in the nature of a "bluff," and that the situation, so far as the strikers are concerned, is in good shape. It was stated that the men were firm, and that there was sufficient money in the treasury to carry on the fight for some time yet.

It was reported at the Mail Dock that the bonus of $1 a day above regular wages had been withdrawn, as there are now more men applying than there are places to be filled.

RIOTING.

Along Harrison street from Sixth to Seventh street, rioting was in progress for an hour this afternoon. Many shots were fired and stones and other missiles were thrown. The trouble began in front of Rosenbaum's warehouse on Harrison street near Eighth. The driver of one of Farnsworth & Ruggles' drays was unloading some dried fruit, when a crowd going home from a baseball game between the longshoremen and teamsters at Recreation Park appeared. A stone was thrown at the driver, and the trouble began. In a few minutes the street was crowded. Some one cut the harness and opened the sacks of fruit.

Mounted Patrolman G. F. Barry hurried to the scene, and succeeded in partially dispersing the crowd. When he went to send in a call for help, the crowd made another onslaught and dragged George Griffin, a special policeman, from the wagon. During the assault on Griffin, the driver ran across the street and entered a residence, whither the strikers followed him. At this point Barry returned and saved the driver from a severe beating.

During this trouble the crowds moved toward Sixth street and began to pelt non-nion drivers with stones. Two men ran out and unfastened the lines from the leaders of a four-horse team. Percy Ashcroft, guard on a Morton wagon, was fired upon while driving up Sixth street. The driver whipped up the team, and in the rush toward Market street the dray struck a milk wagon, overturning the entire supply on the sidewalk. Ashcroft drew his pistol and is said to have fired several shots. On his arrival at Market street he was arrested for exhibiting a deadly weapon. Though supposed to be a special policeman, he admitted after his arrest that he had not been sworn in, and had neither a star nor a permit to carry a revolver.

In the mean time, the riot call had been sent in, and Chief Sullivan and Capt. Wittman rushed to the scene. All the available policemen were summoned, but as fast as the mob was dispersed, it would congregate in another place.

At Sixth and Howard streets stone-throwing was renewed, and David Barry, a prize fighter, was hit by a rock intended for a non-union driver. Several of Barry's teeth were knocked out and his face was cut. For two hours the streets were jammed with union men and their sympathizers. Several times women and little boys ran out and attempted to free the horses from non-union wagons. The usual daily assaults on non-union men were renorted during the day.

Wood Mansee of Los Angeles, who claims to be a union sailor, was treated at the Harbor Hospital for a contusion of the left eye and an abrasion of the face. Mansee says he arrived on a fishing vessel today, and he went up town in the evening. Returning to the vessel, he was attacked near Lombard street wharf and beaten by men who thought he was a non-union sailor.

The working force at the Union Iron Works was increased by the return of fifteen old employés and twenty machinists from the East were added to the non-union force at the Risdon Iron Works.

POWER OF POLICE LIMITED.

[BY THE NEW ASSOCIATED PRESS—A.M.]

SAN FRANCISCO, Aug. 28.—Police Judge Cabaniss today fined Police Officer Knight $40 for beating James Madison, a striking water-front employé. Madison was in a crowd of ten on the water front and was clubbed by Knight, who claimed it was necessary to use force to disperse the crowd. In his decision Judge Cabaniss said:

"The contention put forth here that an officer is vested with what has been termed by his counsel 'judicial power,' or 'discretion'—'judicial discretion'—I cannot indorse. I think that a police officer is essentially a ministerial officer, and as such is vested by the law with ministerial powers and with ministerial powers only. The very theory on which our government rests (and it runs throughout the various subdivisions of the Federal government) is that this government—whether you consider it federally, with reference to State government or local government—is a governmeit of coördinate power—the executive, legislative and the judicial; and that applies, as I have already intimated, just as much to the subdivision of a local government or a municipal government, commonly so termed, as to any other."

Madison is a marine engineer, and caused the arrest of Officer Knight on a battery charge, claiming that he had been brutally clubbed by the "minion," Monday, August 12. At that time the police were contending with some unruly men on the water front, but Madison's witnesses testified that he had not been a disturber, and that when ordered to move on he had complied with all possible speed. He did not move fast enough, and Officer Knight handled him roughly.

WILL OF DOWAGER EMPRESS.

BERLIN, Aug. 28.—The Lokal Anzeiger's Homburg correspondent says today that Dowager Empress Frederick's will gives to each of her children, including the Emperor, a round million marks. The estate is larger than had been expected, and shows that the Dowager Empress enlarged the same through skillful management and reinvesting her income. The Tageblatt today prints an emphatic denial of the report that the Dowager Empress was married to Baron Von Seckendorf, Grand Chamberlain of Her Majesty's court.

COLORADO IS FIRST.

St. Bernard Holds Second Place.

Knights in Spectacular Drill Contest.

Grand Encampment Opens at the Girls' High School.

Hot Fight Over Dependent-Membership Question—Per Capita Tax Raised.

[BY THE NEW ASSOCIATED PRESS—P.M.]

LOUISVILLE (Ky.) Aug. 28.—Colorado Commandary, No. 1, of Denver, before an admiring throng of 18,000 people, and under the critical eyes of a board of judges composed of three regular army officers and a representative of the Knights Templars today captured first prize in the competition for drill teams of the commanderies of the Knights. St. Bernard, No. 35, of Chicago, the favorite with the majority of spectators, captured second place, while Golden Gate, No. 16, of San Francisco, and Hanselman, No. 6, of Cincinnati came in for third and fourth prizes, respectively. California Commandery, No. 1, being the only mounted command, had no difficulty in capturing the trophy for the best appearance and drill on horseback.

The drill was the feature of the day. Interest was intensified by the fact that it was the first one since 1883, when Louisville carried off the honors. The contest took place on Churchill Downs, the home of the Louisville Jockey Club.

THE DRILL.

[BY THE NEW ASSOCIATED PRESS—A.M.]

LOUISVILLE (Ky.) Aug. 28.—The spectacular drill attracted a crush of Knights Templars and visitors to Churchill Downs. The contesting commanderies were: Columbia Commandery, No. 1, Washington, D. C.; Colorado Commandery, No. 1, Denver; Hanselman Commandery, No. 6, Cincinnati; Allegheny Commandery, No. 28, Pittsburgh; St. Bernard Commandery, No. 1, Chicago; Calvary Commandery, No. 3, Parkersburg, W. Va.; Golden Gate Commandery, No. 16, San Francisco; California Commandery, No. 1 (mounted,) San Francisco.

The trophies, which are of silver, are: First prize, thirty-four pieces, valued at $3000; second prize, twenty-five pieces, valued at $2000; third prize, centerpiece, valued at $1300; fourth prize, two pieces (mounted,) valued at $900; fifth prize, loving cup, valued at $630.

The Churchill Downs grand stand, holding 5000 people, was filled long before the drills began. Under a canopy in the field sat the sponsors, a dark-eyed delegation of Kentucky beauties, who led the members of the contesting commanderies, after their work was finished, to immense bowls containing cooling drinks.

Brass bands were numerous, but music was allowed only during the intermissions between drills, as the tactics, under which the drills were conducted, allow of nothing to mark time.

The Columbia knights were good in foot work, but rather weak in handling their swords, while the Denver men excelled in the latter. To the crowd, the Allegheny commandery appeared to have made the best showing. Their foot work showed the effects of hard practice. At noon there was a luncheon and rest, during which Detroit Commandery, No. 1, gave an exhibition drill.

While the knights were drilling the meeting of the Grand Encampment got under way at the Girls' High School. When Grand Master Lloyd called the meeting to order there were 120 knights present to transact business.

ENCAMPMENT WORK.

[BY THE NEW ASSOCIATED PRESS—P.M.]

LOUISVILLE, Aug. 28.—What is known as the dependent membership question precipitated a hot fight at the meeting of the convention. It ended in the encampment sustaining the ruling of Grand Master Lloyd. Briefly, he holds that to be in good standing, a Knight Templar must maintain his standing in both chapter and lodge.

The Jurisprudence Committee also brought in a report sustaining the grand master in his position that a grand master cannot create a Knight Templar at sight, after the ancient fashion of kings, who knighted soldiers on the field of battle. This question has been a mooted one, as there has always been an element favoring the granting of this privilege to the grand commander who would thus be able to honor men in the way universities and colleges confer degrees upon distinguished persons.

The encampment decided to put the assessment of sir knights back to 5 cents per capita a year. At the Pittsburgh conclave the rate was reduced to 3 cents, as the encampment had more money than it knew what to do with. Grand Recorder Mayo said tonight that there was still plenty of money on hand, and the adoption of the old rate had no particular significance.

Grand Master Lloyd called the meeting at 9 o'clock, when various reports were submitted and referred to the various committees. This took all the forenoon. The committees made only partial reports on the recorder's and treasurer's reports, but accepted the grand master's after a few minu-

portant changes. The report of Grand Master Lloyd contained the following:

"The order is in a most satisfactory and healthy condition, and steadily growing. The present term, which began July 1, 1899, commenced with 114,540 members and closed with 125,108. The order is in a much more healthy condition than it was before the promulgation of the decision that voluntarily remaining a non-affiliate in lodge or chapter for six months would affect membership in a commandery, for now every member of the order is sustaining it, root and branch.

"Since our last session, a formal treaty of peace has been entered into between the United States and Spain. By ninety days of actual warfare, over ten millions of people, occupying more than two hundred and sixty thousand square miles of the earth's surface, were freed from oppression. Where it was dangerous to be a Mason, our order may now securely spread its humanising and elevating influences. The schoolhouse and the lodge can labor together to brush aside ignorance and superstitition, and teach the downtrodden people the blessings of civil and religious liberty. We should, indeed, feel proud—as we do—that a Templar was the guiding spirit in bringing about this happy change to so many human beings.

"The sphere of our usefulness is gradually enlarging us. Our labors are but commencing. We must press onward until liberty and enlightenment shall illumine the world; until every land and every people shall have heard and rejoiced at the fulfillment of the proclamation made by the angels at the coming of Him whose followers we are: 'On earth, peace and good-will toward men.'"

The report of the Grand Treasurer, H. W. Lyons, showed receipts of $11,-069, and net cash resources of $47,256.

The report of the Grand Recorder, William H. Mayo, contained these figures: Net gain in membership in 1899, 2444; in 1900, 2303; in 1901, 4304, for the year ending July 1. There are at present 1050 commanderies, with a membership of 125,108. The States having over two thousand are as follows: California, 3556; Connecticut, 2696; Illinois, 9687; Indiana, 3767; Iowa, 4378; Kansas, 3361; Kentucky, 2295; Maine, 2570; Massachusetts and Rhode Island, 13,112; Michigan, 5856; Minnesota, 2739; Missouri, 4604; New Hampshire, 2234; New York, 12,163; Ohio, 8943; Pennsylvania, 13,788; Texas, 2270; Wisconsin, 3149.

DIABOLICAL MURDER IN MISSOURI.

MURDERER SURE TO BE LYNCHED IF ONCE CAPTURED.

The Whole Country in Arms—The Fiend Surrounded—Negroes Hunt Their Holes—A Dark Chapter of Crime.

[BY THE NEW ASSOCIATED PRESS—A.M.]

KANSAS CITY, Aug. 28.—A special to the Star from Warrensburg, Mo., says one of the most dastardly crimes ever committed in the borders of Johnson county was perpetrated last night at the little hamlet of Columbus, off the railroad sixteen miles north of here. Miss Mary Henderson, aged 40, was murdered in cold blood by Will Francis, a twenty-two-year-old negro, after he had assaulted her. The crime was committed at the farmhouse of Chap Hiatt. Miss Henderson's brother-in-law, a prominent citizen and once a member of the State Populist Committee. Francis, who worked on Hiatt's farm, fled, but is believed to have been surrounded near the woods near Holden. The whole country is up in arms, and it is believed the negro will be burned at the stake.

Miss Henderson was a member of one of the best families in the country and made her home with her brother-in-law, Mr. and Mrs. Hiatt had gone away in the afternoon, leaving Miss Henderson alone in the house, except for Francis, who has been trusty for ten years. On their return at about 10 o'clock in the evening they came upon the body of the woman in the yard. A bullet had pierced the skull just above the left ear; black marks were upon the throat and signs of a desperate struggle were apparent. The alarm was given immediately, and the Sheriff at Warrensburg notified. A posse of determined men left for Columbus a few minutes afterward. Francis had fled before the deed was discovered, and thereby proclaimed his guilt. Surrounding counties were notified, and this morning a message came from Independence saying that a negro answering the description was being held there. A deputy was sent to Independence to identify him. One negro at Sedalia, who answered the description, came near being lynched, but escaped by intervention of the officers. All of the negroes of the country are badly worked up, and are keeping close to their homes in fear of the whites, who are wrought up to a high pitch of excitement. Francis shot a horse which was standing in the yard, presumably to prevent it being used to follow him.

Information comes from Holden to the effect that Francis has been surrounded in a dense wood near there. That he will be burned at the stake upon capture there is not the slightest doubt.

A special from Odessa, in the next county north from Johnson, says that it is believed Francis is near there.

Miss Henderson, it appears, lived long enough to tell the Hiatt family on their return of the assault, and to make it plain that Francis was the assailant. The whole country around Odessa is up in arms, aiding in the search for Francis.

SHEEP OWNER'S HORRIBLE DEATH.

RED LODGE (Mont.) Aug. 28.—Farquhar G. Gillies, a wealthy sheep man, was dragged to death by a frightened horse on the range near his ranch. He was leading the horse by a rope, having a slip knot fastened to his arm. The horse became frightened, and started off at break-neck speed, the rope becoming tangled, so that Gillies could not loosen it. He was dragged 500 yards over the rocky ground, and when finally rescued, was terribly cut and bruised. He never regained consciousness. He owned about ten thousand sheep, and a large area of land.

HALF-BAKED MINERS.

BELLEVILLE (Ill.) Aug. 28.—For three hours five coal miners huddled in a worked-out room in the abandoned Boswell mine on the bluffs near French village. They were detained by a fire in the mouth of the shaft, and were saved from suffocation by the presence of mind of their women relatives who turned a pond into the pit of the mine, thus quenching the fire. When rescued the men were more dead than alive, but after being taken to the top, recovered soon.

SUGAR COMPANY FAILS.

BENTON HARBOR (Mich.) Aug. 28.—The failure of the Wolverton Sugar Company was announced tonight, and suits were begun for $107,000 on notes outstanding and for $125,000 on bonds held by the Chicago Trust Company. During the last two years the operators have failed to secure enough beets in the local fields to run the factory. The factory cost $250,000.

RAILROAD RECORD

NEW JOLT FOR SAN DIEGO.

Santa Fe Talking of Leaving That Port.

Finds San Francisco a Superior Locality.

Directors are Considering Possible Use of Pacific Mail Steamers.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, Aug. 28.—[Exclusive Dispatch.] It is probable that after February 1 next the Pacific Coast port of the Santa Fé Company will be changed from San Diego to San Francisco. During the past two years the Santa Fé has been working with a large trans-Pacific steamship company, interchanging oriental traffic at San Diego. The contract with the steamship company expires February 1.

"It is quite probable that we shall change our interchange traffic port in the Oriental business from San Diego to San Francisco," said President Ripley of the Santa Fé. Our lines now having entrance to San Francisco, it would be but natural for business to seek the larger place. There is more business from San Francisco; the facilities are superior, and that port is 200 miles nearer Chicago than is San Diego."

USE PACIFIC MAIL'S VESSELS.

[BY THE NEW ASSOCIATED PRESS—P.M.]

NEW YORK, Aug. 28.—The directors of the Atchison Railway and the Pacific Mail Steamship Company have under consideration a proposal to utilize the steamships of the latter company as a connection to the Oriental for the rapidly-increasing traffic of the Atchison. Vice-President Morton of the Atchison, who has charge of the negotiations on behalf of the railroad, is in this city, but declined to give any particulars of the conditons of the proposed arrangements with the Pacific Mail Company or the likelihood of its being put in force.

It is understood, says the Post, that there is every prospect of an acceptable arrangement being concluded which will give the Atchison the facilities it needs for developing its commerce with Asiatic countries, and which its officers regard as seriously hampered under present contracts for steamships for California, particularly with the new line in California completed and in operation.

Negotiations were a long time pending with the Hamburg-American Company to put on new vessels on the Pacific, but these have not been renewed since they were broken off some months ago.

TRAFFIC MANAGER SCHUMACHER

[BY THE NEW ASSOCIATED PRESS—A.M.]

SAN FRANCISCO, Aug. 28.—T. M. Schumacher, the recently-appointed traffic manager of the Oregon Short Line, left last night for Salt Lake to assume the duties of his position.

HAYS HAS NOT RESIGNED.

[BY THE NEW ASSOCIATED PRESS—A.M.]

ST. LOUIS, Aug. 28.—The Post-Dispatch today says: A telegram from Charles M. Hays, president of the Southern Pacific Railway, to a St. Louis friend, announces that he has not yet resigned his position as president of the road, and that at present he has no idea of doing so.

RESIGNED AFTER THE SPREAD.

[BY THE NEW ASSOCIATED PRESS—P.M.]

PHILADELPHIA, Aug. 28.—General Manager Frank Patterson of the Pittsburgh, Johnstown, Ebensburg and Eastern Railroad has resigned. In resigning, he said he declined to take the responsibility for running trains. An accident occurred on the road last week, resulting from spreading rails, and this is said to be the cause of Patterson's resignation.

BANGOR AND AROOSTOCK.

PROPOSED MAINE EXTENSION.

[BY THE NEW ASSOCIATED PRESS—A.M.]

NEW YORK, Aug. 28.—The proposed extension of the Bangor and Aroostock Railroad from Ashland, Me., to Fort Kent on the St. Johns River, a distance of about fifty miles, is expected to be of vast benefit to the lumber interests of Maine. The new railroad will run through the Fish River country, a special from Bangor to the Tribune says, and it is expected that the road will be the means of developing many sawmill villages.

It is estimated that not less than 1,500,000,000 feet of large spruce stand within easy distance of the Fish River waters. This extension will be the first step in a vast plan for the development of Maine's northern forest resources, the accomplishment of which will effect a revolution in the lumber industry of the State.

HEAVY INCORPORATION.

[BY THE NEW ASSOCIATED PRESS—A.M.]

LINCOLN (Neb.) Aug. 28.—J. B. Redfield of Chicago, assistant secretary of the Chicago and Northwestern Railroad, has filed articles of incorporation with the Nebraska Secretary of State. The capital stock is $63,000,000. Reference is made to the purchase of the old Chicago, St. Paul and Fond du Lac Company, but the articles are conditioned on the purchase or lease of the Sioux City and Pacific road. A copy of the old articles filed is signed by Samuel J. Tilden as president and by O. D. Ashley. The fee paid for filing the articles was $6385. The purpose of the incorporation at Lincoln, Neb., is not known. W. A. Gardner, general manager of the road, was under the impression that the step was only a preliminary one to an old project affecting the Sioux City and Pacific road.

RAILROAD MEN STRIKE.

[BY THE NEW ASSOCIATED PRESS—A.M.]

ALTOONA (Pa.) Aug. 28.—The employés on the Pittsburgh, Johnston, Ebensburg and Eastern Railway have all gone on strike, and traffic on the road is at a standstill. Alleged failure on the part of the company to pay the employés their salaries is the reason given for the tie-up.

AUTOMATIC STOKER.

DEVICE TO DISPLACE FIREMEN.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, Aug. 28.—[Exclusive Dispatch.] If experiments that are about to be made by the Chicago and Alton and the Chicago and Eastern Illinois roads are successful, the status of locomotive firemen may be greatly changed. These two lines are now equipping one engine each with an automatic stoker, or firing machine. The device practically takes the place of the fireman in shoveling coal into the engine fire boxes, and distributing it in the same.

The automatic firing machine is the invention of a practical railroad engineer. It consists of a funnel-shaped trough, into which coal is shoveled. In the funnel are screws that gradually force coal into the fire box and distribute it evenly over the fire. The funnel may be easily enlarged, so that coal will go into it from the tank of the engine. By its use, it is said the work of the fireman in this line may be entirely dispensed with.

Railroad men are divided as to the result of this device in eventually displacing firemen from the engines. Many maintain that two men will always be required on an engine.

ESPEE'S OREGON NOMINEES.

[BY THE NEW ASSOCIATED PRESS—P.M.]

PORTLAND (Ore.) Aug. 28.—The Oregonian tomorrow will say that circulars will be issued tomorrow or within a few days from the general offices of the Oregon Railroad and Navigation Company and the Southern Pacific Company announcing the following appointments:

B. D. Miller, formerly assistant general freight agent of the Oregon Railway and Navigation Company, to be the general freight and passenger agent of the Southern Pacific (Oregon lines;) Wilburn E. Coman, formerly general agent of the O. R. & N. at Salt Lake, to be assistant general freight agent of the same company at Portland. C. H. Markham, the present general freight and passenger agent of the Southern Pacific (Oregon lines,) goes to San Francisco as assistant freight traffic manager of that company.

STUBBS MAKES TRANSFERS.

[BY THE NEW ASSOCIATED PRESS—P.M.]

SAN FRANCISCO, Aug. 28.—In pursuance of the policy of consolidating traffic officers of the Union Pacific and Southern Pacific, Traffic Director Stubbs announced the following changes:

E. H. Prentice, division freight agent and passenger agent in charge of the western division north and west of San José, Tracy, Lathrop and Stockton, including the Amador and Lodi branches, has been promoted to the charge of the line west of Ogden to and including Colfax, Cal. His headquarters will be at Reno, Nev. G. T. Forsyth will be given the place left vacant by the transfer of Prentice. Forsyth will have his headquarters at Oakland.

C. M. Buckhalter will be given charge of the Tucson division, with headquarters at Tucson, Ariz. The agency at Sacramento will be given to C. J. Jones, who will have charge of all the territory north of Sacramento and south of Colfax, including the Placerville branch.

THE FRENCH FLAG HAULED DOWN.

NOT TO GO UP UNTIL CONSTANS RETURNS.

Other Legations Complain of Turkey's Acts—Sultan's Mood Reported to Be Warlike—Orders Cannon from Germany.

[BY THE NEW ASSOCIATED PRESS—A.M.]

CONSTANTINOPLE, Aug. 28.—[By Atlantic Cable.] The French flag was hauled down from over the embassy of France after the departure of the Ambassador, M. Constans, and it will not be hoisted again until diplomatic relations are restored. The staff of the embassy remains here, but there is no chargé d'affaires. The French consuls in Turkey have been directed to continue to protect French interests.

Besides the immediate causes of the disagreement, it is pointed out that constant difficulties were placed in the way of French commercial interests in Turkey which contributed to M. Constans's resolution. All the embassies complain of vexatious interference with trade.

SULTAN'S MOOD WARLIKE.

[BY THE NEW ASSOCIATED PRESS—A.M.]

VIENNA, Aug. 28.—The Tageblatt today publishes mail correspondence from Constantinople which says the Sultan will go to war rather than yield to unreasonable demands; that he is studying plans for defense, and that he has ordered thirty-five guns from Germany.

M. CONSTANS INTERVIEWED.

[BY THE NEW ASSOCIATED PRESS—P.M.]

LONDON, Aug. 29.—The Daily Mail publishes a dispatch from its Vienna correspondent, who boarded the Orient express and interviewed M. Constans as to the Franco-Turkish diplomatic situation.

"The French Ambassador declared," says the correspondent, "that even at the last hour, the Sultan tried to prevaricate. He asserted that the whole matter was in the hands of the French government.

"Any other than an inexorable attitude," continued M. Constans, "would be most injurious for future negotiations with the Porte. If Turkey could obtain the slightest success in this case she would yield to the temptation to try the same game with other powers, who might not display the same patience as France has displayed."

TREASURER SUSPENDED.

Mississippi Cash Found Short—Treasurer Violated Law by Depositing in Banks.

[BY THE NEW ASSOCIATED PRESS—A.M.]

JACKSON (Miss.) Aug. 28.—Gov. Longino signed a document today suspending State Treasurer J. R. Stowers and appointing Hon. G. W. Carlisle temporary treasurer. Mr. Stowers, in his statement given out last Friday, said that the $107,000 missing and unaccounted for when the Governor counted his cash on August 15, was deposited in banks by his cashier, Mr. Raiford, under his (the Treasurer's) direction, which is forbidden by law.

All the banks of Jackson having denied that they had any of this money on deposit, the Governor last night wrote Mr. Stowers for a complete statement in writing, as to where the deposits were made and all things connected with the transaction. The Governor required an answer by 9 o'clock this morning. At 11:15 today the Governor received a reply from the Treasurer, the contents of which have not yet been made public.

DETECTIVES ON THE GRIDIRON.

CHICAGO, Aug. 28.—Capt. Luke Z. Colleran, Chief of Detectives, was called to the witness stand today by Civil Service Commissioner Elm. Colleran admitted that it was the business of Joyce as lieutenant of detectives to find out whether Detectives Cramer and Tracy really did leave the State to bring back Larkins from Cleveland, as claimed in an affidavit for expense money from the State. Yesterday Joyce, on the stand, stated that at the time he signed the expense account he had no knowledge that Detective Gallagher brought the prisoner, or that Tracy or Cramer had performed the duties they professed to have executed in the affidavit.

WASHINGTON

IMPOSING LOT OF WITNESSES.

List Throws Light on Probable Procedure.

Court of Inquiry Will Be Very Exhaustive.

Rear-Admiral Sampson to Head the List—Law Firm's Manifesto.

[BY THE NEW ASSOCIATED PRESS—A.M.]

WASHINGTON, Aug. 28.—The list of witnesses prepared by Capt. Lemly, judge-advocate of the Schley court of inquiry, and transmitted to Admiral Schley yesterday, was made public by Capt. Lemly today. It does not purport to be a complete list, but includes the principal witnesses who will be called by the judge-advocate. The witnesses whom Admiral Schley has asked to be summoned are not included in the list. The list is as follows:

Rear-Admirals William T. Sampson, Robley D. Evans, Francis J. Higginson, Charles S. Cotton, Henry C. Taylor.

Capts. French E. Chadwick, Caspar F. Goodrich, Charles D. Sigsbee, William C. Wise, Francis A. Cooke, John H. McCalla, Theodore F. Jewell, William M. Folger, Robert M. Berry, John L. Hannum, retired.

Commanders William P. Potter, Richard Wainright, Joseph G. Eaton, Newton E. Mason, Seaton Schroeder, Giles B. Barber, James M. Miller, Lewis C. Heilner, Alexander B. Bates.

Lieutenant-Commanders Sidney A. Stanton, Nathaniel R. Usher, Albert W. Grant, Albion C. Hodgson, William H. H. Southerland, William H. Schuetz, Templin M. Potts, Alexander Sharp, Jr.

Lieuts. Charles C. Marsh, Spencer S. Wood, Victor Blue, James G. Doyle, Charles Webster, John Hood, Charles H. Harlow, Charles W. Dyson, Kenneth McAlpine.

Capt. William C. Dawson, U.S.M.C.

Lieutenant, junior grade, Ernest L. Bennett.

Ensign Henry G. Austin.

Acting Boatswain Dennis J. O'Connell.

Chief Quartermaster Nielson Anderson and others.

The list of court witnesses to be called by the judge advocate throws considerable light upon the lines of testimony which he will seek to adduce before the court. Admiral Sampson, as commander-in-chief of the fleet, of course, heads the list. Then follow the captains of all the ships engaged in the Santiago campaign with the exception of Capt. Clarke of the Oregon and Capt. Phillip of the Texas, the latter having died since the war. Evans was in command of the Iowa, Higginson of the Massachusetts, Cotton of the Harvard, Taylor of the Indiana, Chadwick of the New York, Goodrich of the Newark and the scout St. Louis; Sigsbee of the St. Paul, Cooke of the Brooklyn, McCalla of the Marblehead, Jewell of the scout Minneapolis, Folger of the New Orleans, and Barry of the Castine.

Hannum (retired) was chief engineer of the Brooklyn. Commander Potter was the executive officer of the New York, Wainwright was in command of the Gloucester, Eaton of the Resolute; Mason, executive officer of the Brooklyn; Schroeder, executive officer of the Massachusetts; Barber, executive officer of the Texas; miller, commander of the Merrimac; Hillner, navigator of the Texas, and Bates, chief engineer of the Texas. Lieut. Staunton was Sampson's chief of staff aboard the New York; Usher was commander of the Ericsson; Grant was aboard the Massachusetts; Hodgson was navigating officer of the Brooklyn; Southerland was in command of the Dolphin; Schuetz was aboard the Indiana; Potts aboard the Massachusetts, and Sharp was in command of the Vixen.

Capt. Dawson was commander of the marines aboard the Indiana. Lieut. Marsh was on Sampson's staff; Wood was commander of the torpedo boat Dupont; Blue was aboard the Vixen; Doyle and Webster were on the Brooklyn; Hood was in command of the Hawk; Harlow was executive officer of the Vixen; Dyson was engineer of the Texas, and McAlpine assistant engineer of the Brooklyn. Lieut. Bennett was on Sampson's staff; Ensign Austin was aboard the New York, and Boatswain O'Connell and Quartermaster Anderson were on the Brooklyn.

Edgar May, a clerk in the office of the Judge-Advocate-General, has been detailed to assist Judge-Advocate-General Lemly in the preparation and handling of papers before the court. Although not an assistant to Judge-Advocate-General Lemly in a technical sense, he will actually act in that capacity so far as the handling of the official papers required by the Judge-Advocate in the formal presentation of his case.

It is regarded as extremely probable that an assistant Attorney-General will be assigned to assist Judge-Advocate Lemly in looking after the interests of the Navy Department before the court, but so far no selection has been made. Capt. Lemly has expressed his willingness to conduct the case without assistance, but the officials of the Navy Department have practically concluded that he should have the aid and cooperation of an officer of the Department of Justice, learned in the intricacies of legal practice.

It is stated here on authority that Wilson, Raynor and Parker constitute all the legal aid to be employed by Admiral Schley in the approaching court of inquiry.

SCHLEY'S WITNESSES.

[BY THE NEW ASSOCIATED PRESS—P.M.]

WASHINGTON, Aug. 28.—Capt. James Parker, assistant counsel for Admiral Schley in the coming court of inquiry proceedings, today made public the list of witnesses originally asked to be summoned on behalf of the admiral. They make a total of thirty-seven persons in all, to which, however, will be added about six or seven more names, mostly from the navy, whose identity counsel for Schley do not care to disclose just now. The list, as made public, gives the rank of officers as shown by the Naval Register, July 1, 1898, the period of the battle of Santiago. It is as follows:

Rear-Admirals—J. C. Watson and S. Barker.

Captains—E. C. Clarke and E. A. Cook.

Commander—N. E. Mason.

Lieutenant-Commanders — A. C. Hodgson, Alexander Sharp, Jr., James H. Sears, Thomas D. Griffin, W. B. Rush.

Lieutenants—C. H. Harlow, Edward Simpson.

Lieutenant, junior grade—Charles Webster.

Ensign—Edward McCauley.

Captain, United States Marine Corps—P. C. Murphy.

Second Lieutenant of Marines—Thomas S. Borden.

Medical Director—Paul Fitzsimmons.

Past Assistant Surgeon—Charles M. Devalin.

Paymaster—i. G. Hobbs.

Past Assistant Engineers—Thomas F. Caster and John B. Patten.

Naval cadets—John Halligan, Jr.; R. M. Marbie, Jr.; J. H. Hand, Jr.; William Cronan, U. S. McCay, A. C. Abel.

Boatswain—William L. Hall.

Gunner—F. L. A. Applegate.

Carpenter—George H. Warford.

B. W. Wells, the admiral's secretary; William B. Wells, J. P. J. Ryan, E. T. Pitzgerald, George B. Rice, formerly in the Engineer Corps, and still connected with the Naval Academy, and Chaplain Ham.

The greater number of these persons served with Schley on the Brooklyn. The exceptions were Admiral Watson, Rear-Admiral Barker, who commanded the Newark; Capt. Clark of the Oregon, Lieutenant-Commander Alexander Sharp, Jr., of the Vixen, and Lieut. Harlow of the Vixen. Several of the witnesses summoned by the admiral also are in the list furnished by Judge-Advocate-General Lemly of those who probably will be called by the Navy Department. They include Capt. Cook, Commander Mason, Lieutenant-Commanders Hodgson and Sharp and Lieuts. Charles Webster, formerly a lieutenant in the junior grade.

Some of the naval cadets mentioned in Admiral Schley's paper as witnesses are now serving in the Asiatic station, and it may be decided not to call them unless developments in the case, as it progresses, make this course necessary.

MYSTERIOUS RETAINER.

[BY THE NEW ASSOCIATED PRESS—A.M.]

NEW YORK, Aug. 28.—This statement was given out today at the law offices of Clayton & Campbell of this city:

"We have been retained by certain naval officers to represent their interests in connection with the Schley court of inquiry, and to appear before that court, or take any other steps that may be necessary for the protection of our clients.

"We are not authorized to make any further public statement, as our clients feel that a proper respect for the court forbids public discussion of the matter by them until the court has assembled."

It was reported that Clayton had been retained to represent Rear-Admiral Sampson before the court of inquiry.

PORTO RICO MERCHANDISE.

[BY THE NEW ASSOCIATED PRESS—A.M.]

WASHINGTON, Aug. 28.—Commissioner of Internal Revenue Yerkes in an amendment to a recent circular, relative to articles of merchandise brought from Porto Rico, states that such articles as are subject to an internal revenue tax when brought to the United States for consumption may be reshipped to a foreign port without the payment of the tax.

Due notice, however, should be filed by the consignees with the collector of customs before the articles are placed on the foreign-bound vessel giving the name of the vessel and the port to which bound.

WASHINGTON NOTES.

Oakland Tidal Canal.

WASHINGTON, Aug. 28.—[Exclusive Dispatch.] Secretary of War Root today approved the contract for constructing a tidal canal in Oakland Harbor, Cal. This contract Representative Burton of Ohio had held up for a while, but Mr. Root concluded that the work is necessary for the commerce of Oakland and San Francisco.

OBITUARY.

Dr. Thomas Marco.

NEW YORK, Aug. 28.—Dr. Thomas Marco, professor emeritus of surgery at Columbia University, is dead at his summer home at East Hampton, L. I. Dr. Marco was born in Philadelphia. He was graduated from Princeton in 1836 and from the College of Physicians and Surgeons in 1841. He first became professor of anatomy in a medical college at Castleton, Vt., and from 1852 to 1854 he was professor of pathological anantomy in New York University. From 1860 to 1870, he was adjunct professor in New York University, and from 1870 to 1879 full professor in that subject. In 1879 he became professor of the principles of surgery at the College of Physicians and Surgeons. Dr. Marco wrote several medical works and valuable papers.

Mrs. Zina D. H. Young.

SALT LAKE CITY (Utah) Aug. 28.—Mrs. Zina D. H. Young, widow of the late President Brigham Young of the Mormon Church, died today, aged 80. Mrs. Young was stricken with paralysis a few days ago, while visiting her daughter near Great Falls, Mont. Mrs. Young was born at Watertown, N. Y., in 1821, and was one of the pioneers in the Mormon movement, following the small band across the continent to the Valley of the Salt Lake. She was married to Josh Smith at Nauvoo, Ill., and after his death became the wife of President Brigham Young. She had for years been prominent in church work. There are now but four surviving widows of the famous Mormon leader.

Lloyd Booth.

YOUNGSTOWN (O.) Aug. 28.—Lloyd Booth, a pioneer iron manufacturer and president of the Lloyd Booth plant of the Union Engineering and Foundry Company of this city, died today.

A New Orleans dispatch says fire in Monroe gutted the Monroe Mercantile Company's dry-goods house. The company carried a stock worth $50,000; insurance, $35,000. A number of adjoining buildings were damaged.

BLOWN UP OR ROASTED.

City of Trenton Explodes Her Boilers.

Seven Killed and a Score or More Injured.

"Of Course" Nobody Was to Blame—Boat Took Fire and Ran Aground.

[BY THE NEW ASSOCIATED PRESS—P.M.]

PHILADELPHIA, Aug. 28.—While the Wilmington Steamboat Company's steamboat, City of Trenton, was on her way from this city to Trenton, N. J., this afternoon, her port boiler exploded, killing seven persons and injuring over a score of others. Four passengers are missing, but as many sustained slight injuries it is thought the missing may be among those who did not find it necessary to go to the hospital.

The dead:

J. D. CHEW, assistant engineer.

MISS ELIZABETH GREEN, Philadelphia.

Two firemen, names unknown.

One deck hand, name unknown.

Two passengers, names unknown.

Missing:

MRS. JOHN MATTHEWS, Philadelphia.

MISS MATILDA CROSS, Philadelphia.

Two children, who were seen to jump overboard.

Injured:

THERESA RHEIN, Philadelphia, fatally.

LOUISA PANSCHOCK, Philadelphia, fatally.

A large number of residents of Philadelphia, Camden and towns near by were less seriously hurt.

After the explosion the boat took fire and ran aground. Tonight she lies a wrecked and blackened hulk in the marshes opposite Torresdale, sixteen miles above this city. Her hold is filled with water, and it is feared more of her passengers and crew may be found in the bottom of the boat when the water is pumped out.

The City of Trenton makes daily trips between Philadelphia and Trenton. She left the company's wharf at 1:45 o'clock this afternoon.

At a point near Torresdale, the steam pipe connecting with the port boiler burst with a loud report. Before any of the passengers or employés had an opportunity of seeking places of safety another explosion occurred, and this time the port boiler was rent in twain. Scalding steam and water poured into the cabin and sections of the woodwork of the boat were torn away by the force of the explosion. Those of the passengers who were not scarred by the scalding steam and boiling water were struck by the flying portions of the splintered cabin. Legs and arms were broken and faces and bodies were parboiled. The water was only four feet deep, and many of the passengers waded ashore.

All of the seriously injured were hastily conveyed to the hospital at Hollesburg, three miles below Torresdale.

Chief Engineer Murray, who was on watch when the accident happened, reported to the officials in this city tonight that the boiler which exploded carried only 150 pounds of steam. Murphy along with an oiler named Bryson had just left the engine-room when the explosion occurred, and both are positive that the boiler did not carry the limit of steam allowed by law. Murphy was slightly injured, and Bryson escaped without a scratch. The assistant engineer, Chew, and a fireman, who were off watch and were on deck, were killed.

The steamer was launched last March, and was 152 feet long.

LATER:—Late tonight two additional bodies were recovered from the wreck of the steamer, and were brought to the morgue in this city.

FIGHT OVER SEATTLE ESTATE.

EASTON (Pa.) Aug. 28.—A legal battle has begun here for the possession of the $150,000 estate of John Gould, near Seattle, Wash. R. W. Ruffen, a Seattle lawyer, has instituted habeas corpus proceedings to compel Hon. Howard Hartsell, a former Mayor of Easton and executor of the estate, to produce Edward C. Bruce, a grandchild of Gould, and an heir. It is claimed by Mr. Ruffen that Hartsell, who is now in Seattle, has young Bruce confined in Easton, and that an effort is being made to deprive him of his rightful share of the Gould estate. John Gould went west from Easton during the gold craze of '49 and struck it rich.

COAST RECORD

USED MENTAL ARITHMETIC.

Loose Methods in San Francisco Mint.

Items Carried in the Book-keeper's Mind.

Men Burned in Mines—Regimental Inspection—Savings Bank Deposits.

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO, Aug. 28.—[Exclusive Dispatch.] The investigation of mint methods in the preliminary examination of Walter N. Dimmick before United States Commissioner Heacock has developed the fact that the books are in a horrible tangle. Superintendent Leach, during the cross-examination yesterday, showed that the mint has been conducted in a singularly free-and-easy fashion. He admitted that transactions with the Selby company, covering several hundred dollars, were not entered on the books for many days after they actually occurred, and then the date was "fixed" from memory. The only record kept was a skeleton memorandum on the fly-leaf of the cash book.

He admitted that bills of one month were frequently carried over to pay-day of next month, and that no record of transactions was kept. Dimmick entered such items on the books as he saw fit and omitted others.

BURNING COAL MINES.

THREE MEN PERISH.

[BY DIRECT WIRE TO THE TIMES.]

TACOMA, Aug. 28.—[Exclusive Dispatch.] Three men have perished in the burning Cumberland coal mines, one of the largest British Columbia collieries, situated on the west coast of Vancouver Island. They are John Nicol, an electrician, and two Chinamen, who were in the lower workings of the mine when the fire started two weeks ago, supposedly by a gas explosion. No trace of them has been found, making it certain that they were killed during the early stages of the fire.

A dispatch from Nanaimo says that 3000 gallons of water per minute are being poured into the mine with the object of flooding it. Even at this rate, it will take at least a month to fill the works and extinguish the flames, which are rapidly consuming the oily shales and destroying the coal pillars. It will be two years more before the mine can be placed in operation after the fire is out. Huge pumps must be placed in operation to pump out, following which extensive repairs will be necessary in the lower workings.

CONGRESSMAN HULL ON PHILIPPINES.

TRANSPORT HANCOCK ARRIVES AT SAN FRANCISCO.

Good Progress Being Made, but the Work to Be Done Immense—Richness of the Islands Faintly Guessed by Us.

[BY THE NEW ASSOCIATED PRESS—P.M.]

SAN FRANCISCO, Aug. 28.—The United States transport Hancock arrived here today, twenty-two days from Manila. She brought 1200 soldiers, sixty-two cabin passengers. One death occurred during the voyage.

The Hancock's most distinguished passenger was Congressman J. A. T. Hull of Iowa, wife and daughter. Congressman Hull is chairman of the House Committee on Military Affairs, and has for nearly ten years been one of the most prominent men in Washington. It was under his direction that the bill for the enlistment of volunteers was drafted two years ago, and last year it was largely through his efforts that the regular army was reorganized and enlarged.

When Congress adjourned last summer Congressman Hull went to the Philippines to make a study of the military conditions of the islands. He gave nearly three months to his investigations, and now returns one of the best informed men upon Philippine affairs in Congress. Congressman Hull will remain here several days.

The Hancock brought nearly one thousand men and officers of the Fourth Cavalry. The Fourth has been in Manila since the war broke out, and has been sent home for a much-needed rest. Two troops of the Fourth, for which there was not room on the Hancock, are coming on the Grant. It is understood that the Fourth will be sent to some eastern post for garrison duty.

Fred Manscott, a private in Troop of the Fourth Cavalry, died on the voyage to this port. He was buried at sea.

CONGRESSMAN HULL'S VIEWS.

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO, Aug. 28.—[Exclusive Dispatch.] Congressman Hull of Iowa, who returned from an extended tour of the Philippines on the transport Hancock today, in an interview last night gave a comprehensive statement of the situation in the islands.

"We are making good progress out there," he said, "but the problem is a big one, and the American people are expecting too much. We are trying to civilize people who have no idea of what government means, and it is a slow process. There is no such thing as organized resistance there now, but rubber bands are numerous, and so completely have they terrorized the people that they are paying tribute to them. The average Filipino has no idea of self-defense, and pays to support these ladrones simply because he has been threatened with death if he does not. Most of the inhabitants are peaceable and desire simply to be let alone.

"At present they are absolutely unfit for self-government. They have no conception of what government means. The rule of the Spaniards consisted simply of tax-collecting, and this is all the Filipino knows about law. His idea of liberty is license to inflict on his enemy such punishment as he pleases. It would be most unwise to withdraw any considerable number of troops at present. While I was in the islands, Gen. Chaffee proposed that soldiers be withdrawn from some districts where civil government had been organized, but the people protested. If troops were withdrawn, the civil governments would fall, as they are only maintained by the presence of soldiers. Bandits would soon have things their own way if there were no troops to keep them in check and restore the courage of the people. We have to teach the people to take care of themselves, and that will take time.

"I visited twenty-two provinces, and am convinced that we only faintly guess at the richness of the Philippines. We are badly handicapped by the Spooner law, which, in my opinion, was most unwise legislation. If miners and prospectors were permitted to enter the country, you would soon see rapid improvement in the condition of the people. Mindanao is full of gold. While there I saw a nugget as big as my first which came from the mines of that island. 'Yellowstone' Kelly, Gen. Miles's old scout, is out there, and he told me that the island is full of placer gold, but they have not yet found any quartz. These men are simply waiting for a change in the law which will permit them to take advantage of their discoveries.

"If Congress will pass a law permitting development of the islands, I believe they will soon prove a source of great wealth. A company of Denver men are waiting to build a railroad through the Island of Negros, which will open up more rich sugar land than the Hawaiian Islands contain. They can do nothing under the present law. The army is doing a great work out there, but its mission is not yet ended. I found the troops in good condition, and for the most part contented."

SINKING OF THE DAUNTLESS.

INVESTIGATION BY INSPECTORS.

[BY THE NEW ASSOCIATED PRESS—P.M.]

SAN FRANCISCO, Aug. 28.—Capt. Bolles and Bulger, United States local inspectors of steam vessels, began this afternoon an investigation into the sinking of the river steamer Dauntless last Saturday by the Mary Garratt.

Louis Erickson, bow watchman of the Dauntless, testified that he saw the Garratt coming when the steamers were about three-quarters of a mile apart. He saw all her lights and she was coming head on. The Garratt did not change her course, and the Garratt struck her amidships and she went down. Erickson on cross-examination admitted that he had not notified the captain of the approach of the Garratt.

Pilot Rideout testified that the Dauntless blew one blast of her whistle, and he gave one blast as answer. He then gave three blasts, and the Dauntless answered with four. He then rang the bell to slow down, stop and reverse.

SAVINGS BANK DEPOSITS.

LARGE INCREASE SHOWN.

[BY THE NEW ASSOCIATED PRESS—A.M.]

SAN FRANCISCO, Aug. 28.—From August, 1900, to August 17, 1901, the net increase in deposits at the nine savings banks of this city, amounted to no less than $7,457,541.79. This is shown on the statement issued today by the State Bank Commission, giving the financial condition of the nine savings banks at the close of business on August 17, last.

February 11, 1900, the amount reported by the bank commissions as due depositors by the banks, was $120,480,921.70. This year the deposits are quoted at $127,938,469.49, showing the substantial gain of $7,457,541.79. The loans on real estate for the year 1901 aggregate $62,942,235.67, against $62,422,480.17 in 1900, a gain of $516,753.52 for the year ended August 17 last. A heavy increase of investments in stocks and bonds is reported for the year, the total figuring up $59,402,394.50, against $52,037,994 in 1900, a gain for the year 1901 of $6,654,489.90.

REGIMENTAL INSPECTION.

THE SIXTH NATIONAL GUARD.

[BY THE NEW ASSOCIATED PRESS—A.M.]

STOCKTON, Aug. 28.—The results of the annual inspection at Santa Cruz in June of the nine companies composing the Sixth Regiment, N.G.C., have just been received by Col. Johnson, at the brigade headquarters in Stockton. Co. A of Stockton heads the list with an average of 90.86 per cent.; Co. D of Modesto being next, with an average of 88.23.

The averages are as follows: Cos. A of Stockton, 90.86; B of Stockton, 83; C of Fresno, 82 2-8; D of Modesto, 88 2-3; E of Visalia, 85.04; F of Fresno, 85 7-9; G of Bakersfield, very good (no figures given); H of Merced, 79¼; I of Hanford, 84½. Field, staff, band and non-commissioned staff were given as good.

BIG PRUNE SUIT.

PLAINTIFFS CHARGE CONSPIRACY

[BY THE NEW ASSOCIATED PRESS—P.M.]

SAN FRANCISCO, Aug. 28.—A suit over 24,000,000 pounds of prunes which the California Cured Fruit Association agreed to sell and the California Packers Company to buy, was begun today in the Superior Court by A. G. Freeman, the J. K. Ormsby Company and Miller & Hotchkiss, stockholders in the California Packers' Company. They allege that W. M. Griffin, Charles B. Bills, Albert E. Castle and R. D. Hersey, who constitute a majority of the Board of Directors of the Packers Company, had neglected to enforce the contract on the company's behalf, and that the prunes were being secured by concerns in which these directors were interested. A conspiracy on their part was charged.

BRIEF COAST DISPATCHES.

Counterfeiter Coon Caught.

BAKER CITY (Or.) Aug. 28.—The most important haul of counterfeiting apparatus ever made in Eastern Oregon was the capture on Snake River, Tuesday afternoon, by a deputy United States marshal of Portland and a special agent of the secret service of the Treasury Department of a complete outfit for making counterfeit money. E. R. Coon was captured while in the act of repairing his tools. An accomplice, a young man named Bud Butts, was also taken. Coon is a jeweler by trade, and has served two years in the penitentiary for passing counterfeit money in Wasco county, Ore. He has made a confession.

Cable Laid to Juneau.

SEATTLE (Wash.) Aug. 28.—The laying of the government marine cable from Skagway to Juneau was completed August 23 and is now in operation. When the missing link of the line in course of construction from Vancouver to Ashcroft is completed, there will be direct communication with Skagway or Juneau from Seattle. This is expected to be achieved in a few days. The cable is primarily for the use of the signal corps, but by act of Congress is open for commercial messages at 7 cents per word.

Sam Sharp Pleads Guilty.

STOCKTON, Aug. 28.—Sam Sharp, who pleaded guilty to the charge of assault to murder James Wa— a stableman, was this morning sentenced to eight years in San Quentin. Sharp fired four shots at the stableman because of a dispute about wages. Way was wounded in the groin, but recovered. Mrs. Sharp sobbed bitterly when judgment was pronounced.

Shot for a Bear.

PORTERVILLE, Aug. 28.—William Abercrombie of Tulare was shot and killed by a friend, Walter Ray, in the mountains at Simmerman's camp, thirty-five miles east of here. The families of both parties were on a pleasure trip and the two men were out early hunting. Ray saw Abercrombie in the brush, and taking him for a bear, fired and shot him dead.

Raisin Company Enjoined.

FRESNO, Aug. 28.—Judge Schloss of the Superior Court of San Francisco has issued an order temporarily restraining the Pacific Coast Seeded Raisin Company from disposing of the raisins seized during the recent raids, and they must appear before him next Friday to show cause why the injunction should be dissolved.

Love Letters and Suicide.

SAN FRANCISCO, Aug. 28.—Grace Weft, a young woman who recently arrived here from China, committed suicide in a French restaurant tonight by taking cyanide of potassium, after reading a number of love letters, which she left scattered on the floor.

Mastodon Skeleton.

SANTA ROSA, Aug. 28.—The skeleton of a monster mastodon has been unearthed by workmen employed at the Mott coal mine, near Petaluma. Bones have not yet been entirely uncovered and are petrified. Many petrified fish have been discovered in the same locality.

Court-martial of Capt. Bruce.

FRESNO, Aug. 28.—The date of the court-martial of Capt. William Bruce of Stockton, formerly of Co. B, N.G.C., has been set for October 1 in Stockton. Bruce, it will be remembered, was found short in his company accounts, and was placed under military arrest. Bruce was formerly City Assessor in Stockton. The order for his court-martial was issued today by Gen. Muller of the Third Brigade, and the detail for the court consists of officers of the Second Infantry, in order that the court may be absolutely impartial. The personnel of the court is as follows: Col. H. I. Seymour, Maj. Marion Pirkey, Maj. W. W. Greer, Maj. P. F. Simonds, Capt. Joseph A. Blair, quartermaster; Capt. Lon Bond, Co. A.; Capt. George H. Voss, Co. D., all of the Second Infantry, and Maj. W. D. Crichton, Third Brigade staff, judge advocate.

Islander Damage Suits.

SEATTLE (Wash.) Aug. 28.—Nearly two score of cases against the Canadian Pacific Navigation Company in connection with the wreck of the steamer Islander have been instituted for damages, loss of life, property and injury to health. The cases will be presented in the United States Court, which is presumed to have jurisdiction. The cases involve only those who were citizens or natives of the United States.

Drowned at a Spit.

SEATTLE (Wash.) Aug. 28.—Two men, strangers at Teller City, whose names were Twohy and Tobin, according to the Nome News of August 17, were drowned at a spit near Teller, August 10.

SAN DIEGO.

CONVICTED AT LAST.

SAN DIEGO, Aug. 28.—[From The Times' Resident Correspondent.] The second of a series of Chinese lottery cases in which Ah Kim was the defendant, went to the jury in Justice Anderson's court at 11 o'clock this morning. The morning session was devoted to the argument of the case by Attorneys Jeraud Ingle for the city and H. S. Utley for the defense. The judge's final instructions to the jury were brief and concise. In a few minutes a verdict of conviction was returned, the decision being reached on the second ballot. This sustains the police, and is a reversal of the sentiment of the jury in the previous case, which after being locked up all night, reported its inability to agree. The case will be appealed. There are two more Chinamen awaiting trial on the same charge. The police affirm that this is but the beginning of a purification policy to be vigorously carried out in the immediate future.

SAN DIEGO BREVITIES.

The case of Jeanette Watts vs. L. W. Watts in the matter of alimony came up today before Judge Conklin behind closed doors. It is understood that both parties desire divorce, but cannot agree as to alimony.

Robert H. Thompson, a native of Ohio and 66 years of age, died this morning at his residence, No. 1133 India street. He was an old soldier, and had been a resident here for the past ten years. He was a member of McClanahan Post, G.A.R., and served in the Civil War in the Nineteenth Ohio Light Artillery. He owned quite a lot of local property. His brother, who resides in the East, has been notified, and the funeral arrangements will be made when he is heard from. Deceased leaves no family.

The San Diego Camera Club last night held a house warming to dedicate its new quarters in the Brooklyn building.

A meeting of the Yuma Railway Citizens' Finance Committee was held this afternoon and a total subscription amount of over $37,000 was reported. Col. Ferguson, manager of the enterprise, was present and made an address, in which he attempted to enthuse the committeemen. The Executive Committee in charge of the actual construction of the road will begin work on the survey immediately.

Large shipments of lemons have been sent from this county to Honolulu and Alaska during the past few weeks.

CORONADO BEACH.

BREVITIES AND PERSONALS.

HOTEL DEL CORONADO, Aug. 28.—[From The Times' Resident Correspondent.] Mr. and Mrs. U. F. Newlin entertained a few friends last evening at cards, after which refreshments were served. The following guests were invited: Mr. and Mrs. Goodman of Cincinnati; Miss Healy, Mrs. Healy, Dr. and Mrs. Kneedler.

The Misses Estelle and Ray Cohen of Los Angeles gave a boating party to some of their friends yesterday and a sail around the bay occupied the afternoon. The party consisted of Miss Johnson, Miss Eva Johnson, Master Parley Johnson and Miss and Master Surr.

J. J. Underhill and family of Los Angeles are at Tent City, where they will remain for the rest of the season.

Lincoln Carr of Los Angeles, who has been visiting Mr. and Mrs. J. J. Hanford, left yesterday for his home to return soon with his bride.

Nearly every evening one of the girls' rowing clubs visits Tent City. Last evening the Columbia Club paid the Casino a visit, and a merry time was spent. Beside the chaperon, Mrs. H. S. Utley, and Mr. Johnson, who accompanied the young ladies, there were: Miss Jessie Haigh, captain, the Misses Harris, Beubogh, Alice Manning and Adelaide Harris.

The following guests from Los Angeles are registered at Tent City: E. F. Dunning and wife, Mrs. J. E. Rebard, S. C. Bartholomew, Mrs. Jennie C. Thorp, W. Thorp, Jennie Dunning, Catherine Snell, George M. Berry.

Miss A. Clough of Los Angeles is registered at the hotel.

L. A. Barnard of Los Angeles is sojourning at the hotel.

Convention Criticises the Governor's Action.

Governor Defends Acts of Clemency.

Nomination of Supreme Judge and Three University Regents.

[BY THE NEW ASSOCIATED PRESS—P.M.]

LINCOLN (Neb.) Aug. 28.—The Republican State convention today nominated this ticket:

Justice of Supreme Court, Samuel Sedgwick of York county; Regents of University, Carl J. Ernest of Lancaster, H. L. Gould of Keith.

The action of Gov. Savage in paroling from the penitentiary former State Treasurer Joseph D. Bartley, furnished, as was expected, the only real excitement of the convention. An effort to dispose of the vexed question of an indorsement or disapproval of the Governor's action outside the convention signally failed.

Supporters of the Governor did succeed in having all resolutions referred to the Committee on Platform without debate, but the committee itself reported in turn against the parole and, while not impugning the motives of the Governor, demanded the return of the ex-treasurer to the penitentiary, and was sustained by the convention.

The platform says: "The right of every man to enjoy the fruit of his labor should be insured by every known safeguard. Its invasion either by the blacklist or by the boycott is contrary to the spirit of American institutions. We recognize the right of wage workers to organize for mutual protection and the promotion of mutual interests, and we demand for them most ample protection against coercion in any form. But we draw the line at violence and lawlessness, which must be suppressed, and for the maintenance of law and order and the preservation of the liberties guaranteed to all. We favor the encouragement of irrigation under State and national legislation."

The final chapter in the release of former State Treasurer Bartley came late this evening, when Gov. Savage, following the action of the State convention, canceled the parole of the ex-Treasurer, surrendered him to the Sheriff of the county and ordered his return to prison. Sheriff Branson arrested Bartley at his home tonight and took him to the penitentiary. The Governor said he had intended from the beginning to send Bartley to prison at the end of fifty days' parole, if he did not comply with the conditions of his release, which he thus far had failed to do. He simply hastened the action, he said, because public sentiment seemed to demand it.

INJURIES PROVE FATAL.

Walter Burns, Who Was Run Over by an Electric Car, Dies at the Receiving Hospital.

Walter Burns died last night at the Receiving Hospital as the result of injuries received Monday afternoon by being run over by an electric car at Eleventh and Hill streets. At the time of the accident it was thought his injuries were not dangerous, but a later examination showed that it was necessary to amputate his left leg above the knee. The operation was performed at the hospital, but the boy never rallied from the shock.

The deceased was 13 years of age, the son of a prominent attorney at El Paso, Tex., and with his mother, grandmother, sisters and two brothers had been spending the summer in this city. His father is expected to reach Los Angeles today, having been summoned Tuesday by wire.

VANDERBILT'S GOLD.

NEW YORK, Aug. 28.—[Exclusive Dispatch.] "I want $300,000 from Vanderbilt and I want it in bonds. It is due me, and I will not leave the house until I get it." This strange demand startled the servants in the Vanderbilt house on Fifth avenue this afternoon. It was made by a well-dressed woman who had been ushered into the reception-room.

"Is Mr. Vanderbilt in?" the woman inquired.

"He is not," the servant replied; "all members of the family are out of town, and there is nobody at home but the servants."

"Well, I must see some member of the family," said the visitor, and then she made the demand already quoted. A policeman was called.

"Come with me," the officer said to her, "and we will go to the bank together and draw the money. Do you want it in large denominations?"

He prevailed upon her to get into a cab and she was driven to the station. Later the woman was committed to Bellevue Hospital. She said she was Catherine Malone, 23 years old, and lived at Riverdale, N. Y.

KILLING THE BANANAS.

KINGSTON (Jamaica) Aug. 28.—The fruit situation on the north side of the island is becoming serious. All the growers decline to sell at the reduced prices. Force is to be used to prevent the minority taking bananas to shipping centers. Thousands of bunches have been destroyed by machetes along the roadways. Extra police precautions have been taken, and several people arrested on charges of rioting. Great excitement prevails in the fruit district.

FORESTRY AND IRRIGATION.

Important Meeting at Colorado's Capital.

Western Topics Treated Of in Able Papers.

Southern California, Arizona and Nevada Represented by the Writers.

[BY THE NEW ASSOCIATED PRESS—A.M.]

DENVER, Aug. 28.—At today's sessions of the American Forestry Association, a number of papers were read and discussed. "The Hydrography of Colorado" was the subject of a paper by A. L. Fellows of Denver. He said that the work of the division had demonstrated that the flow of the streams of the arid region, taking the year through, would furnish more than enough water for practical use.

A paper by F. H. Newell, hydrographer of the Geological Survey, explained the benefits to the water supply of the forest reserves. He said:

"Full development of the resources of the United States, especially in the arid West, rests upon a complete utilization of the water for irrigation, power and municipal as well as domestic supply. The conservation of the waters and the protection from pollution, both natural and artificial, rests largely upon the proper treatment of the forests at the headwaters of the streams. There can be no question as to the beneficial influence of these forests, although the extent of this influence may be and still is open to investigation and discussion. The forests, with the accumulation of vegetation upon the ground, serve to break the force of the rain and regulate the run-off; excessive soil lerosion is to a large extent prevented, and the waters drained from the forests are as a rule free from suspended mineral matter.

"The government has set about the protection of the forests upon the headwaters streams of the West, and Congress has under consideration legislation tending to promote the construction of large reservoirs within or adjacent to the forest reserves. There are to be found upon the headwaters of the streams many valleys whose outlets can be closed by a dam of moderate height, holding back the water from melting snow or from occasional streams. These natural reservoir sites are being surveyed and their capacity and cost ascertained. The amount of water available by storage is also being measured, and facts recorded so as to make it possible to know definitely the benefits to be derived from the construction of these hydraulic works.

"One of the sources of anxiety and uncertainty in regard to these reservoirs is the matter of silt or sediment. The flood waters roll along sand, gravel and even boulders, depositing them wherever the current is checked. These floods, entering the artificial reservoirs, are brought to a halt and quickly lay down their load, forming a coating or layer of mud in the reservoir tending to diminish the storage capacity. If the water comes from forest slopes, where the soil is protected and held by roots, the amount of sediment may be negligible; but if, on the other hand, these forests are cut away, the under brush and humus burned, the driving storms soon attack and move the loose earth and disintegrated rock, starting it on its journey down the slopes to be finally caught in the reservoir below. Thus, it happens that it is of first importance for the prolonged life of the reservoir that every care should be taken to perpetuate the forest cover upon the catchment area wherever this can assist in holding the soil."

Prof. R. H. Forbes of Tucson, Ariz., read a paper on "The Open Range and the Irrigation Farmer," in which he related some of the bad effects upon the cattle and agricultural industries of overstocking the ranges and suggested remedial legislation.

RECLAMATION.

A paper on "The Reclamation of the Arid Region" was read by R. L. Fulton of Reno, Nev. In the course of his remarks, Fulton said that too many people imagine that the reclamation of the arid portions of the Union would add to the burdens of the agricultural class in the older States by increasing production, without a proportionate addition to consumption. This he held to be a fallacy. The reclamation of the arid States, Fulton said, would create the largest markets for the products of the factory and the forest, the shop and the warehouse, of New England and the Middle States that could be developed in the world. If foreign trade is worth working for, surely domestic trade is twice or thrice as valuable, for by it we keep at home the benefits that accrue, both in buying and in selling, in making and in using.

FORESTS AND DESERTS.

S. J. Holsinger of Phoenix, Ariz., discussed the subject, "The Boundary Line Between the Forest and the Desert." He explained the relation of forests to the deserts of the Southwest, particularly the dwarfed forest growth, including the shrubbery of cañons, foothills and streams, as a conservator of moisture, a barrier to erosion, nature's safeguard for natural reservoirs, which feed springs and retain normal conditions of moisture in valleys, and as an element to a system of artificial water storage for the reclamation of arid lands. The general question of the preservation and reproduction of the forests is gaining a prominent place in public interest, but the functions of the brush land—the scrub oak, cedar, mesquite and chaparral—are not so generally realized. These are as important in their field, as the forests which yield commercial timber. The forest cover of the high mountains conserves moisture and resists erosion; the shrubbery of the foothills and valleys fastens the silt and débris which escape the grasp of the spruce and the pine.

IRRIGATION AND FORESTS.

The paper by George H. Maxwell of Chicago was entitled "Irrigation and the Forests." Maxwell sounded a note of warning, condemning as "fatally, criminally and wickedly blind" the indifference with which we were watching the gradual destruction of our forests. In picturing graphically the results of deforestation in the East, he said: "Famine stalks through India because of deforestation; floods devastate China for the same reason. Look at Northern Africa, at Persia, at Mesopotamia, at Transcaspia, and heed their warning; once fertile and fruitful, now arid, uninhabitable wastes; they stand as a warning that we should heed. Will we do so, or will we go on wasting millions, while we watch our forest areas gradually destroyed?"

Maxwell made a strong plea for the appropriation of adequate moneys to establish a thoroughly competent patrol for the protection of the forests against fires. Concluding his remarks, he said: "I was asked to speak of irrigation and the forests. I have done so, although I have not mentioned the word 'irrigation.' The forests are the source of all irrigation. We cannot irrigate without water. We cannot have water without forests. If we do not preserve them, we will have no irrigation."

LUKENS ON WATERSHEDS.

T. P. Lukens of Pasadena, Cal., read an interesting paper on "The Reforestation of the Watersheds." He held that the depletion of forests causes extremes of flood and drought is shown by the present condition in Southern California, as contrasted with the same area prior to the inroads of unrestricted sheep and cattle grazing, wasteful methods of lumbering and destructive fires. Originally the mountains and valleys were well-forested and the streams flowed continuously. The effect of these abuses is seen in the decreased flow of streams and the rapid deterioration of the originally productive soil. The remedies proposed are the absolute prohibition of grazing, except within fenced areas, the employment of rangers to guard against fires and to enforce the grazing regulations and the inauguration of improved methods of lumbering under trained foresters.

KNIGHT ON UNDERFLOW.

"The Underflow of Water in Southern California," was the subject of a paper by William H. Knight of Los Angeles. He distinguished the underflow from subterranean streams which lie hundreds of feet below the surface, and are reached only by penetrating through thick layers of impervious rock and have their sources far distant. He described the underflow as following the courses of streams which in the rainless season are insignificant or apparently dry. Their beds consist of accumulated deposits of sand from ten to sixty feet in depth. Underneath this sand and lying on the hard, impervious rock, is a stratum of gravel and sometimes small boulders, through which the water that has percolated from the stream above finds adequate channel for a steady movement of the under current.

The examples of the cities of Los Angeles, San Diego and Riverside in obtaining their water supply were cited as illustrating the value of this underflow in furnishing an abundant and constant supply of pure water. The possibility was pointed out that many streams in the arid region between the Mississippi and the Pacific, apparently worthless on the surface, contain beneath the bleaching sands sufficient water to develop large areas of agricultural lands and to supply abundantly the towns and cities which would consequently grow up in the now desert valleys.

This evening an illustrated lecture on "The Government and the Forest Reserves" was given by Gifford Pinchot, forester of the United States Department of Agriculture.

LODGING-HOUSE BURNED.

Explosion of Lamp Causes Destructive Fire on Sixth Street Early This Morning.

Fire in the Everett lodging-house on West Sixth street at 1 o'clock this morning caused a loss of several thousand dollars. The fire was caused by the explosion of a lamp, and it destroyed two stores and a number of rooms.

Harry Memory, son of Edwin Memory, proprietor of a piano store at No. 610 West Sixth street, returned to his home after the theater last evening. He sleeps in the storeroom of his father. After lighting an oil lamp, he accidentally turned it over, and set fire to the place.

Young Emory endeavored to extinguish the flames by throwing a blanket from his bed over them, but failed, and ran to the street and gave the alarm. His hands were burned while he was trying to put out the flames. A passing pedestrian turned in an alarm, and the department soon responded.

There were twelve roomers in the Everett House, above the stores, and they rushed to the street, attired in only night clothing, without saving their possessions. Although the two-story frame building was not destroyed by the fire, most of the contents were ruined by water. Mr. Memory had twelve pianos in his store at No. 610, and in the store adjoining there was stock valued at several hundred dollars.

Mrs. E. S. Donovan, proprietor of the adjoining delicacy store at No. 608, has insurance aggregating $400, while the insurance carried by Memory amounts to $800.

Hale's Good Goods 107-109 North Spring Street.

A Towel For 4c.

Strong cotton huck towels, size 16x32—absorbent and serviceable.

Some Striking New Portieres, $2 per Pair

It will be hard to keep from buying them. They're so good for the money.

Are You Anxious to Have a Cosy Room?

What else makes a room so pretty and homelike as well chosen portieres. The point is, these cost so little and do so much. Any family can afford $2.00 for portieres, and these are worthy of the most princely house.

Come a full 3 yards long, 38 inches wide. They're made of a handsome tapestry with striking brocaded effects. The fringe is knotted and braided with 4 inch tassels.

Your whole room responds to their soft, artistic colors. $2.00 couldn't be more wisely spent.

On sale today, and while they last.

You Should Capture a Couch Cover, $2.40.

It's bringing luxury right down to the poorest home, these couch covers at $2.40. Spread one over a worn-out couch and you have a bright cheery new furnishing, nothing more effective.

They're of heavy welt tapestry, 50 inches by 3 yards, with a loop fringe all around.

On sale today and while they last.

35c Window Shade 27c.

A cheap window shade usually measures 6 feet in length, these are 7 feet. A cheap shade is skimpy in other ways, these are not. They're made of strong LINON opaque, mounted on reliable rollers, self adjusting. They're nowhere sold for less than 35c. Today we mark them, complete with all brackets—27 cents.

It's like trading in New York AT HALE'S.

Brass Extension Rods, complete with all brackets, on sale today..... 3c

Linen Towels, 16x32, with woven colored borders, fast selvedges 7½c

IT IS NOT DUE TO ADVERTISING

Entirely that has brought us our very large practice, but is largely a result of the high degree of excellence attained in our work. We do exactly as we advertise. There is no need of paying high prices for the best dental work. Our modern methods enable us to do the very best dental work of all kinds without pain, at prices within the reach of all. All our work is guaranteed to be the very best. None better can be had anywhere, no matter how much you pay.

It is with pleasure that I state that I have had several teeth filled by Dr. Schiffman, and that he removed the nerve and filled the root of one of my teeth and put on a porcelain crown which cannot be distinguished from a natural tooth, all of which was done without pain.

JUDSON R. RUSH,
Of Davis & Rush, Attorneys, 3 Rogers Block

I have had porcelain crown work and some filling done, and also had ten teeth and roots extracted by Dr. Schiffman, and take great pleasure in recommending his method to anyone wishing dental work done without pain.

MRS. G. T. W. SCHRAMM,
Mother of Paloma Schramm, corner Aurelia and Wadsworth.

I have had teeth extracted by Dr. Schiffman without pain and recommend him to my friends.

N. B. APPLE,
Ballif Police Court, Clip.

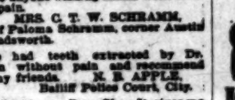
To Dr. Schiffman—Dear Sir: It gives me pleasure to state that you extracted four teeth for me without the slightest pain, that the gums healed quickly, that the set of flexible plate teeth you fitted me with gave perfect satisfaction from the first, and after twenty-two month's wear are as serviceable, just as good as new.

Yours truly, W. GASKINS,
1012 Temple Street.

I couldn't believe it was out till I saw it. "It didn't hurt a bit." GEO. L. MILLS,
Mgr. Syndicate Loan Co.

Had lower back molar taken out today by Dr. Schiffman with absolutely no pain.

E. L. JOHNSON, Cashier "Record."



No Boys or Students To experiment on. Best of service and dental practice on the Coast. Lady attendants. Consultation and examination free. Open evenings till 8, and Sunday forenoons.

It will be well worth your time to see our display of up-to-date Dental Work on exhibition in show case at foot of stairs at our entrance.

SCHIFFMAN DENTAL CO., 107 N. Spring Street.

Dr. Hutchason's Patent Suction Plate

Is worth its weight in gold.

Testimonial: After trying to wear three or four artificial sets of teeth without success, I am now wearing DR. HUTCHASON'S PATENT SUCTION with the greatest comfort and success and I recommend

ACTUAL WAR IN VENEZUELA.

President Castro to Be Overthrown.

Two Thousand Rebels Across the Border.

Ecuador to Aid Venezuela—Colombia Has Suffered Severely.

[BY THE NEW ASSOCIATED PRESS—A.M.]

NEW YORK, Aug. 28.—A revolutionary force of 2000 men has pushed its way over the border from Colombia into Venezuela, says the Colon correspondent of the Herald. This force, the correspondent hears, is to aid in the overthrow of President Castro. When, it is said, his downfall is accomplished, a similar plan will be followed in Nicaragua.

Trouble is imminent on both the eastern and the southern boundaries of Colombia. Troops have been rushed in both directions and the frontiers of Venezuela and of Ecuador are lined with armed men ready to advance at a moment's notice.

No secret is made of the threatening attitude of the Colombian authorities. They assert that the revolution here has been enabled to continue only by the aid of the Liberal governments of the neighboring republics, and that to insure peace at home it has become necessary to inaugurate a war of foreign conquest.

It is assumed here that Ecuador would join with Venezuela in any movement against Colombia—these two liberal governments standing united against the conservative element in control here and making counter-charges of interference with their affairs and of fostering revolutions.

There seems little doubt that the charges on both sides are well founded. The Liberals of one republic have lent a helping hand to their struggling brethren in adjacent territory, and the Conservatives have retaliated in kind.

Colombia has, however, been the chief sufferer, as her revolution has already lasted nearly two years. It is estimated that from 25,000 to 40,000 lives have already been sacrificed, and the end is not yet, as the smouldering embers of revolt are coming into flame in a dozen sections simultaneously, and the Liberals do not hesitate to announce that they are preparing to deal a final blow.

The Conservatives retaliate by declaring that they have vanquished every army that has been collected, and that there only remain a few bushwhackers, who carry on a spasmodic guerrilla warfare with a corporal's guard, fleeing from larger bodies, robbing exposed stores and ranches and pillaging wayfarers.

UNCLE SAM NEUTRAL.

[BY THE NEW ASSOCIATED PRESS—A.M.]

WASHINGTON, Aug. 28.—No official advices have been received respecting the insurrection in parts of Colombia and Venezuela since the brief report of the arrival at Colon of the gunboat Machias, but the officials are not disturbed by this absence of reports.

It may be stated, in view of the report that our government intends to intervene, that the government will adhere strictly to its well-established rule of non-intervention. Nothing but an interruption of isthmian traffic, which the United States is pledged to keep open, or a threatened injury to American interests could induce the government to interfere.

Fortunately, the asphalt controversy is not now an active factor, which would promise to sharpen the issue between the United States government, and thus complicate the differences arising out of the insurrectionary disturbances.

WAR ON THE ISTHMUS OF A HIDEOUS KIND.

PANAMA ONE VAST BARRACKS AND PEOPLE FRANTIC.

Entire Republic a Seething Caldron of Unrest—Conflict of Liberals Versus Conservatives—Greatest Carnage of the Entire War Soon Anticipated.

[BY DIRECT WIRE TO THE TIMES.]

PANAMA (Colombia) Aug. 28.—[Exclusive Dispatch.] Plots and counterplots fill the air. There is war here of the most hideous kind and strife that tears the country asunder, in which brother is pitted against brother, friend against friend and neighbor against neighbor. Fertile fields have been devastated. Once thriving towns have been decimated in population, and villages have been wiped out of existence. Bands of armed men occupy every highway, and traffic is practically at a standstill, while frantic women mourn their dead and hungry babes clamor for food.

The entire republic is a seething caldron of unrest. So critical is the situation that even the officials of the government, who wish to reëstablish public confidence, admit that a crisis must be reached within a few days, as matters cannot long continue as they are. Great battles must soon be fought, and upon the results will depend not alone the supremacy of the clashing parties in Colombia, but also, perhaps, the integrity of the territory of the three neighboring republics, Venezuela, Ecuador and Nicaragua.

Feeling runs high along the borders, and a general war may be precipitated at any moment by any trivial incident. The revolution has resolved itself, after lasting nearly two years, into an international struggle between the Liberals and Conservatives of four sister republics, allied in their history, contiguous in territory, kindred by climate, by race and by tongue.

The Liberals actually hold the reins of power in Venezuela, in Ecuador and in Nicaragua, though the Conservative element is strong in the three republics. The Conservatives have controlled Colombia since 1885, though they are admittedly outnumbered by the Liberals, who are trying to wrest the government from their hands. Local officials declare that there are not less than three Liberals to every Conservative in Colombia. In Panama there are few Conservatives, outside of officeholders and the military.

"Even the stones here are Liberal," is the way one of the leading merchants puts it.

The representative of a great foreign nation in Colombia expresses the opinion that if enough arms could be landed by the Liberals, the government would be overthrown within twenty-four hours. There is a government telegraph here, but the service is wretched, wires often down and telegrams at times do not reach their destination for a month. Nor is it possible to obtain news quickly from the northern parts of Colombia. The towns on the Caribbean Sea are connected with Colon by occasional steamers, but there is no cable or telegraph between the isthmus and Cartagena.

Operations have recently been more active between Panama and Colon. Trains have been boarded at stations, and government officials have been led away as prisoners. Large bodies of men have been engaged in fortifying passes, and several Chinese merchants along the line, fearing that they would be caught between two armies, have closed their stores and shipped their stocks to larger cities on the seacoast. Fully five hundred Liberals are encamped within little more than a stone's throw from the town.

Scarcely a night passes that Liberal sympathizers do not sneak out of town to join the forces in the hills. Those who are caught complain that they are grossly maltreated. They say they receive from ten to thirty lashes with a whip before they are cast into jail, and once behind bars and under lock and key there is no telling when they will be set free, as they may have no preliminary examination for months or possibly years.

Even the prospect of whip and prison does not deter men from trying to go through the lines, as there are many here with no restraining ties who find it impossible to earn enough in town to keep body and soul together. On every hand one sees evidences of war. Crippled youths stand on the street corners and stare while squads of soldiers pass on their way to the front. The blasts of bugles ring throughout the city and officers dash by upon mettlesome little horses, with a peculiar, swinging gait.

Panama has become a vast barracks, and it is interesting to note that practically none of the soldiers quartered here were born within the department. All come from other sections of the republic. Most of them are tiny in physique and dark of skin; some of a decided Indian cast; others are of African extraction; many are mere boys, 10 and 12 years of age, and small for their age, finding great difficulty in carrying the big, heavy guns with which they are equipped.

While both sides are predicting an immediate conflict, the government is making preparations to withstand attack everywhere, and is not taking the aggressive. The revolutionists are waiting not only for arms and ammunition, but also for a leader. The question in the minds of business men here is, when will the bomb under the city explode? In 1885 Colon was burned. Is Panama to suffer a like fate in 1901?

Desperate efforts are being made to get guns and ammunition into the country, and it is believed that an important landing will be made within a few days, and that a general clash will follow. Everybody would welcome a decisive battle, which would bring about absolute surrender of the defeated side.

"You will not have long to wait," say the Liberals, "we are now ready to strike a final blow."

"We will wade through blood right here on the isthmus," say army officers. "We expect the greatest carnage of the entire war, but we will win again, just as we have always won, and we shall crush the rebellion."

"The greatest carnage of the war." The expression has awful significance to those who have followed the course of this revolution. The official returns show that 5000 men lost their lives in one battle at Palo Negro last year, while popular accounts send the death list up 1000 more. In the bloody field of Palo Negro, Gen. Pimson, the Conservative leader, crushed the Liberal forces headed by Gen. Uribe-Uribe. The fighting lasted for fifteen days, and no truce was taken, even for the burial of the dead. Barricades were formed of putrefying bodies, and in attacking the trenches behind the barbed-wire tangles, those who fell first were thrown upon sharp spikes and served as bridges in the rush of their companions-in-arms. And worse is yet to come, according to the prophets.

The last fight in the city of Panama was held little more than a year ago, when trenches were dug near the bridge, on the main street, opposite the railroad station, and about one-third of those engaged were left on the field. So desperate was the onslaught of Liberal troops at that time that it seemed that they must be victorious, but they were finally driven out of their position and routed.

Little was heard of the revolution on the Isthmus for nearly a year. Vague reports of fighting kept coming from the interior, and there was a constant movement of troops back and forth, but war was being waged so far away that news was scanty and unsatisfactory. There is practically no communication between the Isthmus and Bogota, captal of the republic. The trip to Bogota from here involves travel by boat, by rail and then over the mountains on mule back and requires from fourteen to sixteen days.

ARMS SHIPPED.

[BY THE NEW ASSOCIATED PRESS—P.M.]

NEW YORK, Aug. 28.—Special agents of the United States government are constantly watching for the shipment of arms from this port, designed to fall into the hands of warring factions in Colombia, and the information concerning the shipments of arms and other war materials from here to Central American ports is sent to Washington in the form of weekly reports. It is said that a report sent today to one of the bureau chiefs in Washington contained the information that during the week ending August 27 several amounts of arms and explosives were shipped from New York to Mexican, Central and South American ports.

Shot Himself in Noma.

SEATTLE (Wash.) Aug. 28.—The body of Nate Walters, who committed suicide in Nome, was brought down on the steamer Senator today. He shot himself in a fit of despondency. Walters was well known in Seattle, having represented Lilienthal of San Francisco here for many years, buying hops. His body is at a local morgue awaiting advices from his parents, who reside in San Francisco and are said to be wealthy.

AUTOMOBILERS MUST SLOW UP.

PROVIDENCE (R. I.) Aug. 28.—Judge Wilbur, in the Appellate Division of the Supreme Court, today granted an indefinite extension of the injunction issued last week, against the racing of automobiles on Ocean avenue. The races which had been planned for Friday next over Ocean avenue, will be held on that date on the one-mile track at Aqueduct Park, four miles from the city.

Kinloch Park Results.

ST. LOUIS, Aug. 28.—Six furlongs: Little Lois won, Ermac second, Countess Clara third; time 1:13.

Seven furlongs, selling: Likeness won, Papa Harry second, Siren Song third; time 1:30.

Five and one-half furlongs: Ravensbury won, April second, Mary Grant third; time 1:08½.

Mile and seventy yards, selling: Monos won, Nettie Regent second, Tony Lepping third; time 1:47.

Mile and one-sixteenth, purse: El Caney won, Albert F. Dewey second, Golden Scepter third; time 1:49.

SPORTING RECORD

LOOLOOS IN SACRAMENTO.

If Losers They Will Be in a Hole.

Ewing Gets Hickey on Oakland Team.

Harris to Make a Pitcher Out of Krug—Carter and Gardner.

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO, Aug. 28.—[Exclusive Dispatch.] Manager Ewing of the Oakland baseball team has signed Ed Hickey, third baseman of Indianapolis, and the latter is already en route to California. He will probably make his California début next week.

The Los Angeles team will play an important series of games at Sacramento, beginning tomorrow. Should the Sacramento team win the first of the series tomorrow, they will be on even terms for first place in the race for the pennant with their opponents from the South.

Manager Harris of the local team has decided to make a pitcher out of Krug in order to relieve Whalen and Iberg. Krug is said to have lots of speed, and with little practice apparently will hold his own.

CARTER AND GARDNER.

READY FOR THEIR MILL.

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO, Aug. 28.—[Exclusive Dispatch.] Considerable interest is being manifested in the approaching fight between "Kid" Carter and George Gardner in this city, Friday night next. Both men are down to weight, 165 pounds, and eager for the mill. While the betting so far has been very light, Carter is a favorite with the talent at 10 to 8.

So far as the big fighters are concerned, there is little of interest to chronicle at this writing. Ruhlin and his henchmen have gone to Blanken's place on the San Bruno road, and have established headquarters there. Jeffries is said to be hard at work at Harben Springs in Lake county, but nothing has been heard from his camp for the past few days.

ROGER WILLIAMS STAKE.

GOES TO DOLLY BIDWELL.

[BY THE NEW ASSOCIATED PRESS—P.M.]

PROVIDENCE (R. I.) Aug. 28.—At the grand circuit meeting at Narragansett Park today interest was manifested principally in the Roger Williams $10,000 stake for 2:14 trotters, which went in straight heats to Dolly Bidwell. Neva Simmons had been looked to to furnish excitement, but the best she could do was third money. Summary:

The 2:11 pace, purse $1000: Don Riley won the third, fourth and fifth heats in 2:11¼, 2:12¾, 2:13¾. Reuben S. won the first and second heats in 2:09½, 2:10¼.

The 2:14 trot, Roger Williams stakes, purse $10,000, best three in five: Dolly Bidwell won three straight heats in 2:12, 2:09½, 2:09¾. Miss Whitney, Neva Simmons, Consuela S., Charley Mc., Velo, Belle Currey, Susie J., Gracie Onward, Lady Thisbee, Whitewood, Alberta D., Helen Gray, Janice, Birdeye and James S. Hevlin also started.

The 2:20 trot, purse $2000: Eleata won three straight heats in 2:15½, 2:09¾, 2:11¼. Country J., El Milagro, Algoneta, Nanita and Nutbearer also started.

The 2:10 class, trotting, purse $1500: Dolly Dillon won in three straight heats in 2:09¼, 2:07, 2:08. Toggles, Chain Shot, Sister Alice, Little Dick, Will Ask and Cornelia Dell also started.

TENNIS SEMI-FINALS.

RESULT WAS A SURPRISE.

[BY THE NEW ASSOCIATED PRESS—P.M.]

SAN RAFAEL, Aug. 28.—The first mixed doubles tournament for the Coast championship closed today. The present champions of the Coast in singles—Miss Miriam Hall and George Whitney—were the winners. Miss May Sutton and W. B. Collier were the runners-up. In the final match play was rather close, but the outcome was evident from the start. The score in favor of Miss Hall and Whitney was 6-2, 4-6, 6-2.

Contrary to expectations by far the best match of the day was in the semi-finals, when George Whitney and Miss Hall were opposed to Grant Smith and Miss Florence Sutton.

Miss Sutton put up the best tennis ever played by a woman on the Coast. Smith suffered from a cramp in the last two sets, and to this is due their defeat.

The score in favor of Whitney and Miss Hall was 5-4, 6-4, 6-2.

The other match of the semi-finals was a great surprise to followers of the game. Miss Violet Sutton and Drummond McGavin were expected to beat Miss May Sutton and W. B. Collier, but the latter won easily in straight sets.

FEATURES OF THE FAIR AT WOODLAND TRACK.

ROAD RACE FOR SACRAMENTO DRIVING CLUB ENTRIES.

Two-twelve Trot Arouses Great Enthusiasm — Minnie Wilkes Races Against Her Own Record—Long Delays at the Post—Eastern Events.

[BY THE NEW ASSOCIATED PRESS—P.M.]

WOODLAND, Aug. 28.—The feature of the fair today was a "bronco-busting" exhibition. There was a big attendance from Sacramento at today's races. A road race for entries from the Sacramento Driving Club was the drawing card. The 2:12 trot aroused great enthusiasm. R. T. McGreely's mare, Minnie Wilkes, in a race against her own record, lowered her time to 2:23½. In the running races there were long delays at the post. Summaries:

Trotting, 2:12 class, purse $500:

Anzella	2	1	1	1
Iora	1	2	2	2
Jack W.	3			dis.

Time 2:11¼, 2:10½, 2:11, 2:11½.

Jack W. was distanced on account of throwing a shoe.

Road race, members Sacramento Driving Club:

Regina F.	1	1	1
Pansy	2	4	2
Monroe B.	5	3	2
Baby Button	3	2	5
Reo	4	5	3

Time, 2:21, 2:19, 2:18½.

Running, six furlongs, purse $125: David S. won, Limber Jim second, McFarlane third; time 1:14.

Running, half-mile dash, purse $125: Corn Cake won, Zem Zem second, Fine Shot third; time 0:48½. Peg Along, Galene, Mountain Dew, Blue Bell, Country Girl and Metford also ran.

Delmar Park Results.

ST. LOUIS, Aug. 28.—Six furlongs, selling: Fickle Saint won, Hengist second, Emily Oliver third; time 1:15¾.

Mile, selling: Burnett's Walk Away won, Joe Dougty second, Charles D. third; time 1:43¾.

Six furlongs: Wakieta won, Bunnells second, Taby Tosa third; time 1:15¼.

Six furlongs: Judge Pettus won, Miss May Day second, Van Hoorebeke third; time 1:14.

Six furlongs and a half, selling: Elbe won, Kitty second. Marguerite Hageman third; time 1:21½.

Mile, selling: Prosper La Gald won, John Morton second, Eleven Bells third; time 1:42½.

Racing at Butte.

BUTTE (Mont.) Aug. 28.—Six furlongs: Searchlight won, Hattie Perkins second, Baby Ruth third; time 1:15.

Three and one-half furlongs: Sand De Lee won, Clear Sky second, Cousin Sue third; time 0:42⅘.

Six furlongs: Favorite won, Bill Bohmanson second, Sweet Voice third; time 1:15¼.

Seven furlongs: Free Pass won, Alaria second, Donator third; time 1:28⅘.

Five furlongs: Sea Queen won, Patsy Dolan second, Decapo third; time 1:01.

Six furlongs: Alary's Garter won, Mr. Robinson second, Ice third; time 1:15¼.

MRS. CARRIE NATION.

Makes Calls in New York—Police Commissioner Murphy Lampooned in His Den.

[BY THE NEW ASSOCIATED PRESS—P.M.]

NEW YORK, Aug. 28.—Mrs. Carrie Nation arrived in this city today. She had an interview with Police Commissioner Murphy, during which he told her that she would be arrested if she violated the law in this city. Mrs. Nation also called at John L. Sullivan's saloon to see the ex-pugilist in reference to a statement he was alleged to have made to the effect that he would "throw her in the sewer." Sullivan sent word that he was ill, but made an appointment to meet her next Monday. She then went to see Archbishop Corrigan, but he was out of town.

When Mrs. Nation entered police headquarters she was shown at once to Commissioner Murphy's room. In opening her interview with the commissioner she said she had called upon him for an account of his stewardship, and asked if he did not think New York was an awful wicked place. The commissioner replied in the negative, and Mrs. Nation repeated the question as an assertion, whereupon Mr. Murphy requested her to stop, saying he would not discuss the matter with her. She continued, however, to ply the commissioner with questions concerning drinking places, all of which he refused to answer. Mrs. Nation said she had come here to do the city some good.

"You don't know what you're talking about," said Commissioner Murphy. "Go back to Kansas and stay there. If you want to do something, why don't you do it for your husband?"

"I have no husband now," said Mrs. Nation. "I suppose you know all about that matter."

"Oh, yes," said Commissioner Murphy, "I congratulate Mr. Nation. He ought to be a happy man now."

"Why don't you want to discuss Sunday saloons?" asked Mrs. Nation, and the commissioner replied angrily:

"Because I don't want to. I won't sit here and be lectured."

"What! Do you mean to say that you won't discuss good morals in New York? Don't you want to talk about the closing up of these hell-holes and murder shops? Do you think I am crazy?"

"Yes, I do," responded Commissioner Murphy.

Mrs. Nation then addressed Mr. Murphy as "father," which term the commissioner warmly resented. But the Kansas reformer persisted.

"Father, don't you think a little 'hatchetation' would be good for New York?" she asked.

"If you violate the laws, I will have you locked up," responded Mr. Murphy.

Commissioner Murphy finally terminated the interview by beckoning to his secretary, who escorted Mrs. Nation from the room. Before leaving town Mrs. Nation said she would return Sunday and visit the tenderloin and "see everything that was open."

LONDON, Aug. 28.—The engagement is officially announced of Helen, daughter of former Gov. Levi P. Morton of New York, to Count Boson de Perigord, second son of the Duc de Talleyrand.

MURDER OF BRITISH PRISONERS BY BOERS.

KITCHENER SENDS WORD HE HAS SWORN EVIDENCE.

Lieutenant and Two Privates Shot Down After Surrendering at Graspan—War Office Gives Notice That Members of Commandos Guilty Will Suffer if Taken.

[BY THE NEW ASSOCIATED PRESS—A.M.]

LONDON, Aug. 28.—[By Atlantic Cable.] A dispatch from Lord Kitchener dated Pretoria, August 25, says: "Sworn evidence has been brought to my notice by Gen. Elliott, that, on June 6 Lieut. Mair of the New South Wales Artillery and Privates Harvey and Blunt were shot down after surrendering at Graspan, near Reitz. I have forwarded to Steyn and Botha copies of these statements."

The War Office has telegraphed to Lord Kitchener, as follows: "We understand you have not yet received satisfactory assurances respecting the murder of our wounded at Vlakfontein. In view of the occurrences referred to in your telegram of August 25, we are of the opinion that you should notify by proclamation that the members of any commando by which such an outrage is committed who may be captured and after trial proved to have been present on such occasion, will be held guilty, whether they actually committed the deed or not; that the leader of the commando will be sentenced to death, and that the other members will be punished with death or less, according to the degree of complicity."

THE TIMES' DAILY STORY

THE WOOING OF MISS PRISCILLA.

BY CARRIE HUNT LATTA.

[Published under special arrangement with the S. S. McClure Co., New York.]

AS SHE drew near to a small house, which was built well back from the road, Miss Priscilla glanced at it with pretended indifference. Then she looked closer, stopped, and looked again.

"How shet up Sam'l Clayton's house do look! Mebby he's gone away. Mebby he's went West; he said he would ef I didn't marry him. But, law me! That was years an' years ago, an ef he'd ben goin' he'd a went long ago, Mebby he's sick. An' all by hisself! I wouldn't live on a by-road fer a finer farm 'n this o' Sam'l's."

She took a few steps further, then stopped. There was a determined look on her face.

"Hit ain't proper fer a lone wummin t' go t' th' house of a lone man, but I ain't goin' t' stop fer that, ner nothin' else, when they's a prospec' o' Sam'l Clayton bein' sick with nobody t' complain to."

She walked briskly up the lane which led to the little house. The blinds were drawn and the front door was closed. The barnyard gate hung open and the chickens wandered about the dooryard disconsolately, while out in the shed the cow lowed piteously.

"No tellin' when that cow's ben milked, er how long she' ben shet up without feed 'n' water. Somethin's happened. I hope, oh, I do hope, it tin't nothin' awful. Sam'l 'bout th' only friend I've got here'bouts, an' ef he was to' dieses."

She had to wipe the tears from her eyes before she knocked.

There was no answer. Her breath came fast. She knocked again.

"What 'j' want?" The voice was decidedly cross.

Miss Priscilla opened the door cautiously, keeping her face turned away.

"Sam'l Clayton, is they anything the matter?"

"Nothin'," he answered grimly, "'cepting I'm flat o' my back an' ain't able t' git up."

The door flew open and Miss Priscilla entered.

"I know I ain't doin' th' proper thing, Sam'l, so don't be castin' up nothin', but—My goodness, Sam'l, you're 'a yaller 'a gold."

"That's cortortin', Percilly."

"You've got yaller janders, I recken. I don't blame you none fer not wantin' t' got up. When I had 'em I couldn't turn over in bed."

"I do want t' git up, but I can't, Percilly."

"Don't you be cross, Sam'l; they ain't no call fer it. I'm sorry fer you, awful sorry, an', though hit ain't th' thing, I'm goin' to stay here an' red things up some. Then I'll git word to your brother Robert. Air you thirsty, Sam'l?"

He nodded.

"An' hungry?"

He put out his tongue at her and made a dry face.

"No, I reckon you ain't hungry, but you're weak fer somethin' t' eat, an' you'll git it right soon."

She went into the kitchen, and Samuel heard her muttering and talking to herself. She put her head in at the door.

"Is that glass there on th' table th' only one you've got, Sam'l?"

"I'm th' only one t' use a glass, Percilly, an' I never have cump'ny."

"What's it got in it, anyhow?"

"Ginger tea, Percilly."

Miss Priscilla picked the glass up and smelled of the contents.

"Phfew! Sakes alive. I s'pose you fixed it."

Miss Priscilla disappeared, taking the glass with her. She soon returned with a glass of sparkling cold water.

Miss Priscilla straightened the sheet, put clean cases on the pillows, opened the windows and put the room in order. Samuel's face brightened as he watched her.

"Got anything 'bout th' house t' eat, Sam'l?" she asked presently.

"Things as spile easy is hangin' in th' well, an' th' rest o' th' things is in th' cellar, Percilly."

Miss Priscilla fed the chickens, milked the cow and turned her into the pasture. When she returned she put the milk away, then entered the room again, bringing a cup of hot broth.

"Hit ain't cooked 'nough, Sam'l, but it won't do fer you to go any longer with a impty stummick. Eat some."

She propped him up in bed and he did as he was bidden.

"That's th' first good broth I've et sence mother died."

"I don't doubt thet, Sam'l. You're the poorest 'xcuse fer a housekeeper I ever seen. Th' whole house is awful. I ain't 'sprised you're sick. I'd be dead!"

"It ain't my fault as I'm my own housekeeper, Percilly Blake," he answered, significantly.

She flushed red.

"Well, I see plain as I'll hev to go an' leave you by yourself an' not wait fer your brother t' come. Don't make matters unproperer than they air a'reddy."

"My, but you air b'hind th' times. Brother moved t' Ioway five weeks ago comin' Thursday."

"They's other naybers, Sam'l," she snapped.

All the rest of the day she watched for a passing vehicle, that she might hail its occupant and send for some one to look after Samuel. Toward evening she grew uneasy. She had refused to talk to Samuel for some time, as he would talk of personal matters, but now she turned to him anxiously.

"Sam'l, I can't bear t' leave you by yourself agin t'night."

"I guess I won't die of you're anxious t' go, Percilly."

"I ain't anxious t' go, an' you know it."

"Then stay, an' let folks talk of they want to."

"I can't 'ford to do thet, Sam'l."

Then there was another long silence. Miss Priscilla looked down the road anxiously, finally going down to the gate to see if she could get a glimpse of any one.

"He might git worse in th' night," she murmured to herself. "I never was so put to in all my life."

Samuel looked into her eyes as she came in.

"See anybody?" he asked.

She shook her head.

"Percilly, wy, say, do you 'member what I asked you once?"

She made no reply and looked steadily down the road.

"Well," he went on, "them's still my fellin's."

She shaded her eyes as if to see better and did not answer.

"Wy, Percilly, say, ef I'm not dead by mornin', won't you hook up old Kit t' th' buggy an' drive over fer th' preacher an' fetch him over an' hev 'im marry you an' me?"

Miss Priscilla sprang to her feet. Her face was crimson with anger.

"Sam'l Clayton, ain't you 'shamed t' insult me in your own house? Do you think thet's what I come over here for? Shame on you!"

And, covering her face, she burst into tears.

"Fer th' Lord's sake, 'Cilly, now don't do thet. I wouldn't a made you cry fer this farm. Course you didn't come here fer that. I've ben wantin' to say this, howsumever, ever sence thet time so long ago. But you wouldn't ever let me tell. I'm lovin' you all this time, 'Cilly, you jest can't know how I am."

Miss Priscilla wiped her eyes and looked at him.

"Thet broth made you a better, didn't hit, Sam'l?"

"A heap better," he answered, tingly.

"Well, you're wel 'nough to look yourself, ain't you?"

"Th' excitement of your 'd upset me, I'm shore."

"Anyhow, I'm goin', Sam'l."

"You ain't give me no answer, question, 'Cilly. A 'Yes,' strong, 'd cure me."

"I'm goin' home an' do an' feed th' chickens, an' do fortable night las' night."

"You poore man," she "Well, as I was sayin', I'll an' do th' chores, an' when I'll change my dress. I think up old Belle—I ain't 'st to send Bob Coldron over t' you while I'm away. I'll be come, too; they'll do fer know."

"Do you mean you're goin' me, Percilly?" he asked, eagerly.

"I reckon I do," she answered, gering her sunbonnet.

"'Cilly, they's one thing you'd give me 'fore you go thin' t' keep up my strength git back."

He looked at her wistfully.

"More beef tea, Sam'l?" But there was a twinkle in his wain won. Flying Torch second, selas third; time 1:

THE PUBLIC SERVICE.

SUMMARY OF THE DAY.

The session of the Fire Commission yesterday morning was enlivened by a letter from Manager Hook of the Traction company, accusing Fire Chief Strohm of issuing department badges to persons not entitled to free transportation.

Prof. Mariatt of the United States Agricultural Department has offended the County Horticultural Commissioners by writing in the "year book," that the white fly is in Southern California.

Conant & Johnson have applied for a franchise for a railroad to Santa Monica.

Col. John Bradbury has been sued for $89 by his shoe dealer.

In the Police Court yesterday Fredora Budd was before Justice Austin charged with the larceny of a diamond ring from a gay drummer.

Two small boys were sentenced for stealing Senator Smith's pigeons.

AT THE CITY HALL

TRACTION MANAGER FIRES A HOT BROADSIDE.

FIRE CHIEF STROHM CHARGED WITH ISSUING FREE PASSES.

Department Badges are Used by Persons Who do not Fight Fires and the Ire of the Street Railway Company is Aroused—Park Illumination.

At the meeting of the Fire Commission yesterday morning little business was transacted. Some of the commissioners thought that the session had been postponed until today on account of the water-bond election, and it was some time before a quorum could be secured. For that same reason, Chief Strohm was not on hand with the usual weekly reports.

After some skirmishing, the Mayor and Commissioners Kuhrts and Frankenfield met, with Robert Burns, of the department, acting as secretary.

A red-hot letter from Manager W. S. Hook of the Los Angeles Traction Company, charging Chief Strohm with issuing fire-department badges to friends, in lieu of free transportation, caused a little flurry, but as the Chief was not present to explain the cause for the accusation, the board merely ordered him to call in any such badges that might be outstanding.

A disagreement between the Chief and Manager Hook occurred some time ago, when the latter asserted that some who have no right to free transportation were being "dead-headed" on fire-department badges. At that time, it is asserted, the Chief promised to call in all outstanding badges that were held by those outside of the department.

This was not done, according to the statement of Manager Hook, and last week the fire board received a communication from the Traction Company, stating that in future fire-department employés will not be accorded free transportation, unless in full uniform, upon which the badge is conspicuously displayed.

In reply to this, the Chief addressed a letter to the company, calling attention to the provision of the franchise which makes it incumbent upon the road to carry all firemen free, while on duty. As firemen are on duty for twenty-four hours, and are only required to wear their uniforms during the day time, the Chief holds that the company is required to give them free transportation, whether in uniform or not. In answer to this letter, Manager Hook replied as follows:

Thomas Strohm, Chief of the Los Angeles Fire Department—Dear sir: Referring to your letter of the 22d inst., I would say that we are entirely within our rights, under our franchises, in requiring firemen to be in uniform and wear their badges conspicuously displayed, in order to obtain free transportation.

That there may be no misunderstanding in regard to the meaning of the order I have just issued, I wish to recall to your mind the interview I had with you some time since. In that interview I told you that you were issuing fire-department badges for free transportation to parties who were not firemen, and that, if you did not discontinue doing so, I would issue an order similar to that just posted. You promised to recall the badges irregularly issued, and then the matter was dropped.

You have, however, resumed the issuance of badges to parties who are not firemen, and as I do not intend that you shall reward your friends at our expense, by giving them free transportation on our lines, the order I have made regarding the fire-department badges will stand until I am sure that you have reformed.

Yours truly,

W. S. HOOK,
Manager Traction Company.

When seen yesterday afternoon Chief Strohm did not deny that in a few instances the fire-department badges have been used for free transportation by parties not regularly connected with the department.

"They were not my special friends by any means," declared the Chief, "and the badges were not given to them in reward for any political service that they have done for me. The present Building Superintendent, who is a city officer, an ex-Building Inspector and one other person, who is not in any way connected with the department, have held badges. These three badges are the only ones that have been used by those not connected with the department.

"The ten men who were temporarily laid off by the Fire Commission and the firemen who are away on leave of absence have used their badges, but all but the three instances cited the badges have been held by men who have some relation to the department."

"Were many of these badges extant before you became Chief?" was asked.

"Yes," answered Chief Strohm, "quite a number of badges were held by men outside the department before I took office. In fact, all but one or two of the badges now in controversy were issued by my predecessor."

The Chief further stated that all the badges to which the Traction Company takes exception were called in by Clerk Morse on Tuesday. A complete record is kept at the office of the department, and those who receive badges are required to put up a deposit of $2.50.

"I shall inform the Traction Company at once that all the badges have been taken up except those worn by regularly-paid employés of the department," was the Chief's final statement.

In view of this fact it is probable that the company will rescind this last order.

SIXTH WARD APPROBATION.

Residents of the Sixth Ward are jubilant at the discomfiture of the Equitable Gas Company, which sought to establish a gas plant at the corner of Sixteenth and Naomi street.

Last Monday the Council passed an ordinance defining the limits of the district within which gas plants can be established. By this ordinance the maintenance of gas plants and tanks is confined to a narrow strip west of the river bed between San Fernando street and the south boundary line of the city. As noted in yesterday's Times, the Mayor has signed the ordinance, and thus effectually shut the new gas company out of the Sixteenth-street location. The company will lose $100 which was paid for the option on five acres of land in the Dalton tract, but the property owners in the vicinity believe that they will be greatly benefited by the expulsion of the plant.

At a meeting of the Sixth Ward Improvement Association Tuesday evening the following resolutions were adopted:

"Resolved, that it is the sense of this meeting that the location of the gas works at Sixteenth and Naomi streets would do great damage to surrounding property in this portion of the Sixth Ward.

"We, therefore, extend our thanks to Mayor M. P. Snyder, Councilman A. A. Allen, and the honorable City Council for its timely passing of the ordinance defining the limits where gas works can be built without detriment to residence property. Accordingly, we ask the Fire Commission not to grant the request of the Equitable Gas Company."

The resolutions were signed, W. T. Goodhue, George R. Weeks and Alex Weiss, as a Committee of Resolution and by E. H. Morgan, president and F. W. Stein, secretary of the association.

Yesterday the resolutions were presented to the Fire Commission by a committee composed of the following: R. W. Elder, Robert Shuttleworth, W. P. Dalton, G. W. Tubbs, W. T. Goodhue, George R. Weeks, Alex Weiss, J. B. McDonald, James T. McDonald, and Thomas Weiss.

The visiting delegation was informed that the Council by passing the ordinance had effectually precluded any action on the application by the Fire Commission and the Sixth Warders withdrew.

T. M. Joseph has made application to establish a blacksmith shop on a plot of ground belonging to Bishop Montgomery, Roman Catholic bishop of the diocese of Monterey and Los Angeles, just north of his present location at No. 236 South Los Angeles street.

PARK PAGEANT.

HOLLENBECK BANDSTAND.

With red fire and a grand illumination of the lake the Hollenbeck Park bandstand will be dedicated this evening. The residents of Boyle Heights have spared no pains to make the celebration a grand success. City Treasurer W. H. Workman, who is chairman of the Committee on Arrangements, has made provision for a crowd of 10,000, and he says he expects fully that number to be present.

There will be scenes from fairyland and gondolas on the lake, according to Mr. Workman, and also an elaborate illumination with red fire. "Circus" lemonade will be on tap beneath the shade of the spreading trees, and all will be given a good time. The show will begin about 8 o'clock.

From between the classic columns of the "Temple of Love" bandstand will come swelling strains of music from one of the city's best bands. The structure is modeled after the celebrated building just outside the walls of Rome, and is described as one of the best local types of high art in architecture.

Dr. Dickson, better known as "Petronius," who is the "arbiter elegantium" of the Board of Park Commissioners, will make a speech. That this will be a classical speech fully in keeping with the surroundings, can be guaranteed, although it is not now known whether it will be delivered in Latin from beneath the folds of a toga or not.

Mayor Snyder and President Powers of the Council are also on the programme to deliver speeches.

AT THE COURT HOUSE

GOVERNMENT OFFICIAL DOES US WRONG.

STATES THE WHITE FLY IS AMONG US.

Horticultural Commissioners Take Exception to a Statement Written by Prof. Mariatt—Application for a New Santa Monica Railroad—John Bradbury's Shoes.

Prof. C. L. Mariatt, first assistant in the division of entomology, Department of Agriculture, is in bad favor with the Los Angeles Horticultural Commissioners.

In an article written by him and published by the Agricultural Department's year book just issued the following appears in a foot note:

"Recent press reports (February, 1901,) indicate that the white fly has been found in various citrus districts about Los Angeles. If this is true this insect in favorable sections may prove in the future a serious pest in Southern California, but in the main it will probably not be able to withstand the dry climate and will probably never be as troublesome in California as it is in Florida and Louisiana."

This did not make a hit with the Horticultural Commissioners, who happen to be particularly proud of having kept this pest out.

Commissioner Robinson at once wrote to Prof. Mariatt asking him to give his authority for the statement. Yesterday, a reply came to the letter, stating that Prof. Mariatt was not in Washington and would probably be away two months or even longer.

It is feared that this statement if circulated will tend to seriously injure the citrus-fruit industries of Southern California. The white fly is one of the worst of fruit pests. Once having gained a foothold its progress is almost impossible to check.

As a matter of fact all of the boards of supervisors of the seven Southern counties have adopted stringent regulations to head off infected nursery stock from Louisiana and Florida. In some counties the importation of stock from the infected States is absolutely forbidden. In Los Angeles county certain restrictions are put upon such importation.

The new rules of the Horticultural Commissioners which go into effect September 1, are as follows:

First—All shipments of nursery stock plants, etc., must be accompanied by a certificate attached to the package signed by an inspector or a commissioner, certifying that the shipments are apparently free from infection, whether they be to points within this county or to points in other counties.

Second—Railroads and other freight offices and all common carriers must not accept nursery stock, plants, etc., for shipment unless a tag certificate is attached thereto, attesting that the consignment is apparently free from insect or other infection, and signed by the authority of the County Horticultural Commission.

Third—All nurserymen, free dealers and florists in the county are hereby prohibited from purchasing or receiving for sale, on commission or otherwise, any kind or character of nursery or florist stock, unless same is accompanied by a tag certificate or general certificate of cleanliness of stock issued by order of the County Horticultural Commission in accordance with the preceding rules.

Fourth—No certificate of disinfection or cleanliness of nursery stock shall be issued by any commissioner or inspector unless such stock is apparent, on thorough inspection by such commissioner or inspector, to be free and clean from insect pests of every kind and character.

Fifth—That this commission deems it necessary that all insects that are now deemed pests shall be destroyed before taking out of the nursery, and that the owner be notified to eradicate such pests before such trees leave the nursery and that each nursery be inspected at least once a year.

BRADBURY'S SHOES.

THEY CAME HIGH.

Col. John Bradbury has been welcomed home by his shoe dealer.

In the Township Court, P. F. McNulty & Co. brought action against him to recover $89 alleged to be due for shoes, the following being the items named on the bill:

Oct. 26, 1898, one pair shoes	$12
May 4, 1899, one pair all patent leather	15
May 4, 1899, one pair double sole	15
May 4, 1899, one pair all enamel	15
Sept. 2, 1899, one pair tan, low	13
Sept. 20, 1899, one pair trees	1
April 7, 1897, one pair patent-leather button	13
April 7, 1897, one pair all patent leather	14
April 7, 1897, one pair patent leather, low	13
April 7, 1897, credit by one pair patent leather returned	13

NEW RAILROAD.

TO SANTA MONICA.

G. G. Johnson of the real-estate firm of Conant & Johnson, petitioned the Supervisors yesterday for a franchise for "a single or double-track railroad" to Santa Monica. It is not stated whether it is to be steam or electric.

The route begins at the intersection of Adams street with the west boundary line of the city, and goes to the intersection of Adams with Washington street, thence by private way to a point on Ballona road No. 2; thence along the Compton and Santa Monica road; on the Ballona and South Santa Monica road to the intersection with Rose avenue, and so to the ocean front.

BONDHOLDERS KICK.

SUIT AGAINST TRUSTEES.

Bondholders of the Los Angeles Iron and Steel Company are beautifully mixed up in a lawsuit. Part of the bondholders charge the trustees of the property with gross mismanagement, and in a suit filed yesterday have demanded an accounting.

May 1, 1894, the Iron and Steel Company issued $30,000 bonds, of which Henry L. Pinney, Minnie Boyle, Lucy E. Dayton and C. W. Damerel, the plaintiffs in this action, took up a part.

The interest on the bonds was not paid, and a suit was brought by the Citizens' Bank in behalf of the bondholders, to foreclose on the company's plant.

At the Sheriff's sale which followed, J. J. Fay and John M. C. Marble, defendants in this action, bid in the property at $36,475. It is averred that they were only ostensible purchasers, and that no money actually passed. They were trustees for the other bondholders.

The complaint alleges that they were paid $8000 for the expenses of the litigation.

Plaintiffs claim that Fay and Marble neglected the property, letting the machines rust and decay, and the smokestacks topple over. Although once having had an offer of $12,000 for the property, it is claimed that they refused to sell the property and still refuse to sell. The property in the meanwhile is said to be fast going to rack and ruin.

The court is asked to declare that Marble and Fay are indebted to their trust in the sum of $20,000; it is also prayed that the property be ordered sold straightway.

COURTHOUSE BRIEFS.

BREVITIES MISCELLANEOUS.

LAWYER SUES. H. H. Appel has filed suit against A. Rodrigues and Adele Rodriguez on a note of $1000. G. F. Beckham has sued Estipula Atencio and Francisco M. Atencio on a note for $30.

FOR LETTERS. May L. Topliff has petitioned the Superior Court for letters of administration in the estate of Orril M. Topliff, the estate being valued at $4000.

MOVED HERE. The Oceanic Quicksilver Company, which has removed from San Francisco to Los Angeles, has filed a certified copy of its articles of incorporation. The capital stock is $100,000, of which $50 has been subscribed. The directors are Max Herzog, Charles E. Fredericks, Joseph E. Bien, L. Jacobi, John O'Malley.

MIND RESTORED. George Unterkircher, who was at one time in the insane asylum, was restored to legal capacity by Judge Shaw yesterday.

TO BOWL. George Baum, John A. Hinman and Bert Yarger have filed a certificate of partnership for the Los Angeles Bowling and Amusement Company.

RAILROAD NOTES.

The Salt Lake route train to East San Pedro, which has been leaving Los Angeles at 7:35 p.m. daily, and the beach at 9:30, will hereafter be taken off, excepting on Sundays.

The Chamber of Commerce directors, at a meeting last night, discussed matters pertaining to the meeting of the Traveling Passenger Agents' Association, soon to meet in this city.

Judge C. N. Sterry of the Santa Fé was out for a ride yesterday. He is rapidly convalescing.

G. S. Stuart, traveling passenger agent of the Baltimore and Ohio Southwestern, is here from San Francisco.

KOCH WILL TEST HIS THEORY.

PARIS, Aug. 28.—Dr. Koch has announced that he will inoculate Dr. Granault with bovine tuberculosis to test the theory that human and bovine tuberculosis have nothing to do with each other, and that man cannot catch the disease from cattle.

To Those in Need.

Of a piano, $6 down and $6 monthly, without interest, ought to prove a tempting proposition. Fitzgerald's, 113 South Spring.

THE INFERIOR COURTS

JAUNTY SALESMAN TRAPPED BY SIREN.

FREDORA BUDD BLOOMING IN POLICE COURT.

Sequel to an Easy Friendsh. and Fancy Drinks in the Imperial Cafe—Admired the Diamond and Forgot to Bring it Back.

Fredora Budd was before Justice Austin's Police Court yesterday afternoon, to answer to a charge of grand larceny brought by Mark E. Conboy.

Fredora is the most innocent-looking maiden imaginable, and Mark is as jaunty a traveling salesman as you would wish to see. He returned on Thursday from a trip to Arizona, and with his friend, a Mr. McVey, went into the Imperial Café for lunch. There they fell in with the innocent Fredora, sailing under the name of "Miss Jackson," and another woman. There followed, according to the testimony of Mr. Conboy, numerous drinks of creme de cocoa and just plain beer, until the party seemed fairly well acquainted.

"That's a handsome diamond," quoth Fredora, eyeing the ring on Mr. Conboy's third finger.

He held out his hand and the girl playfully, as he thought, removed the ring and placed it on her own finger. Another creme de cocoa followed and the matter was forgotten.

Fifteen minutes later Fredora excused herself, giving the very frank reason that she must seek a toilet. She forgot to return to the little circle in the café gallery, and Conboy suddenly realized that with Fredora his ring had also gone.

Detective Talamantes testified to having found the ring, along with two others, secreted under the carpet in the room occupied by the girl at 513½ South Spring street. The detective also testified that the girl told him at headquarters that she had taken the ring, though she at first denied it because she didn't know what she was saying. At the close of the cross-examination of Talamantes the case was adjourned until today at 2 o'clock.

SENATOR SMITH'S PIGEONS.

"Wait," said little Melvin Hughes to the bailiff in Judge Austin's court yesterday, when the officer nodded to him to come along. The boy had just been sentenced to "seven days or $14," for having had a hand in the stealing of Senator Fred Smith's pigeons.

"Wait," he said a second time, and turning to his father, E. O. Hughes, who sat talking, he asked what he had tried to ask several times before: "Do you want to say anything to me before I go?"

The boy's lip quivered and his countenance lengthened, but his question did not even win the recognition of his father, who went on talking, and the boy walked off with the bailiff.

"Dick" Rasch ad Melvin Hughes, the former 16 and the latter 14 years of age, were arrested with two bags full of pigeons in their possession, early on Monday morning last, which had been stolen from Senator Fred Smith's mill property, at the corner of Third and San Pedro streets, on Saturday night. The boys soon tangled themselves up in trying to explain how they got the pigeons and were handed over to the police. The Rasch boy confessed that he and the Hughes boy had stolen them, but the latter maintained that he had nothing to do with the theft, but was to have the proceeds of ten pigeons from the sale of the total of forty-eight, for helping carry them to a commission house.

Justice Austin evened the matter up by giving Hughes the alternative of serving seven days in the city prison or paying $14 into the exchequer, while Rasch got the double dose of fifteen days or $30.

Rasch testified that he had a father and mother, but that he had not been at home in a long time. His father called to see him on Tuesday, but did not bother to attend the trial.

PLOW MANUFACTURERS' PRICES.

CHICAGO, Aug. 28.—Plow manufacturers of the United States, a large number of whom have been in conference at the Auditorium, have decided upon an advance of 10 per cent. in the price of plows and all plow repairs during the coming year. The present strike of the steel workers is given as one cause. In addition, the manufacturers claim that the cost of production in every way is much greater at present than it was a year ago. Besides, it is claimed higher wages are being paid to the men employed in the works. The increase in price will go into effect when the sales for next year are commenced in October.

REFORM CLUB AWARD.

NEW YORK, Aug. 28.—The committee of judges selected by the Reform Club to award the prizes offered by the club for the best original essay on given fields of inquiry has awarded the first prize to Edward F. Adams of San Francisco, his subject being "Credit Facilities for Rural Communities."

Poison Oak Poison Ivy

are among the best known of the many dangerous wild plants and shrubs. To touch or handle them quickly produces swelling and inflammation with intense itching and burning of the skin. The eruption soon disappears, the sufferer hopes forever; but almost as soon as the little blisters and pustules appeared the poison had reached the blood, and will break out at regular intervals and each time in a more aggravated form. This poison will loiter in the system for years, and every atom of it must be forced out of the blood before you can expect a perfect, permanent cure.

SSS Nature's Antidote FOR Nature's Poisons, is the only cure for Poison Oak, Poison Ivy, and all noxious plants. It is composed exclusively of roots and herbs. Now is the time to get the poison out of your system, as delay makes your condition worse. Don't experiment longer with salves, washes and soaps—they never cure.

Mr. S. M. Marshall, bookkeeper of the Atlanta (Ga.) Gas Light Co., was poisoned with Poison Oak. He took Sulphur, Arsenic and various other drugs, and applied externally numerous lotions and salves with no benefit. At times the swelling and inflammation was so severe he was almost blind. For eight years the poison would break out every season. His condition was much improved after taking one bottle of S. S. S., and a few bottles cleared his blood of the poison, and all evidences of the disease disappeared.

People are often poisoned without knowing when or how. Explain your case fully to our physicians, and they will cheerfully give such information and advice as you require, without charge, and we will send at the same time an interesting book on Blood and Skin Diseases.

Open on end or side.

5c Tube Paste 2½c.

Good library paste. Fair sized tubes.

The Busy Corner--Fourth and Broadway

Silent Sufferers

West Lebanon, Ind., March 28, 1900.

I have suffered for years with female trouble and have had five of the best doctors in the country, but found no relief until I tried your Wine of Cardui, which has done wonders for me. I will gladly recommend it to any lady. I owe my gratitude to your good medicine. EMMA JOHNSON.

It is astonishing how many apparently healthy women there are who suffer in secret. Even their nearest friends do not know how little life means to them. If you are a silent sufferer Miss Johnson's testimonial should be full of encouragement for you. Her case ran along for years, before she took Wine of Cardui. But she soon secured relief from those terrible dragging pains which were saddening her life. Miss Davis waited ten years before taking

WINE OF CARDUI

which made her "feel like a new woman". Female suffering is playing havoc with women, making them faded and old before their time. It will do that for you if you don't stop the trouble. Why do you suffer another day? Your pain is unnecessary. Delay invites dangerous complications which soon become incurable. Ask your druggist for a $1.00 bottle of Wine of Cardui and secure complete relief by taking it in the privacy of your own home.

Robbinsen, Ind. Ter., Nov. 23, 1900.

I have been in bad health for about ten years and consulted with doctors but they did me no good. After using two bottles of Wine of Cardui and two packages of Thedford's Black-Draught I feel like a new woman. LAURA DAVIS.

For advice and literature, address, giving symptoms, "The Ladies' Advisory Department," The Chattanooga Medicine Company, Chattanooga, Tenn.

Yesterday's Report and Forecast.

U. S. WEATHER BUREAU, Los Angeles, Aug. 28.—[Reported by George E. Franklin, Local Forecast Official.] At 5 o'clock a.m. the barometer registered 29.90; at 5 p.m., 29.94. Thermometer for the corresponding hours showed 69 deg. and 89 deg. Relative humidity, 5 a.m., 74 per cent.; 5 p.m., 21 per cent. Wind, 5 a.m., southwest, velocity light; 5 p.m., west, velocity 11 miles. Maximum temperature, 91 deg.; minimum, 63 deg. Barometer reduced to sea level.

Weather Conditions.—Cloudy weather prevails on the Pacific Coast this morning south of the fortieth parallel. North of that it is generally clear, and also in the interior. Rain has fallen in Kansas, South Dakota and Montana, and was falling at Grand Junction, Colo., at the hour of observation this morning. Nearly stationary temperature is reported from most of the Pacific Slope stations, though it is cooler along the British border.

Forecasts.—Local forecast for Los Angeles and vicinity: Cloudy tonight; fair Thursday.

SAN FRANCISCO, Aug. 28.—Weather conditions and general forecast. San Francisco data: Maximum temperature, 66 deg.; minimum, 51 deg.; mean, 58 deg.

Generally cloudy weather prevails over Arizona, and foggy along the coast of Northern California. Elsewhere west of the Rocky Mountains fair weather prevails. The pressure has risen rapidly over the southern portion of the Pacific Slope and fallen over the extreme northern. An area of high pressure is central over the California coast, while it is lowest in Southern Arizona. The temperature has fallen in the Sacramento Valley, and risen over Oregon and Washington. In other districts, the changes have been slight. Forecast:

For Northern California: Fair Thursday, except foggy along the coast; fresh southwest winds.

Southern California: Fair Thursday, except cloudy along the coast in the morning; light west wind.

San Francisco and vicinity: Generally cloudy and foggy Thursday; fresh southwest wind.

Sacramento and vicinity: Fair Thursday; fresh southwest winds.

FOR SALE—
City Lots and Lands.

FOR SALE—

$2300

I am authorized to offer, for the next 30 days, what I consider one of the biggest bargains in real estate that has been placed on this market for months past.

IT IS A SPLENDID CORNER ON FIGUEROA ST., NEXT TO CITY LIMITS.

The price is not much more than that of an ordinary dwelling with a 50-foot lot.

There are 15½ acres in the piece, all finest garden land, under cultivation; will yield enormous returns on the investment, and undoubtedly will sell for double the price now asked within five years.

You cannot make a mistake in purchasing this splendid 15½ acres.

G. M. GIFFEN,
Exclusive Agent,
322 Byrne Bldg., Third and Broadway.

Los Angeles Business College 212 W. Third St. Tel. Black 2051.

TALKLET 9. It's a matter of demand and supply. Every individual is a perpetual demand, and, in turn, a perpetual supply. But it is no use for young people to demand good and lucrative and responsible positions unless they are qualified for such positions. The demand will not come to them individually unless they are qualified to fill such demand. We have more "demand" at this office for competent bookkeepers, stenographers, telegraph operators, and office help than we can fill. That is why we urge young people to come to our school and prepare for these positions. After a pupil enters this institution there is a constant influence brought to bear on him to do his very best to develop his latent powers, and thus be able to attract to himself the demand which shall result in success and happiness. Full term, day and evening, opens Sept. 2. Call or write for detailed information.

E. R. SHRADER, Pres. E. K. ISAACS, J. N. INSKEEP, Secy. Vice Pres.

MURDERER JACKSON WAS MURDERER HUNT.

Latest Crime of the Bloodiest Desperado That Ever Hailed from the City of the Angels.

DEAD men tell no tales; but if George Gillis could have told a jury his side of the story, it is more than likely that Henry Hunt, who has just been sentenced to State prison for forty years for his third murder, would have passed over the dark river nearly a score of years ago.

Hunt's record is not fully known, but he is believed to have killed at least half a dozen men. Two of his bloody crimes were committed in Los Angeles county; and it has just been ascertained that the man who has gone to San Quentin from Placer county for his third term under the name of Henry Jackson, is the same Henry Hunt who once came within an ace of being strung up by a mob in this city.

THE EL MONTE TRAGEDY.

Away back in the beginning of the eighties George Gillis was a police officer in the city of Los Angeles. Many will read this who knew and loved him. Our police force in those days was not large; neither was the city, for that matter. Los Angeleños nearly all knew each other. Gillis was a generous, whole-souled American, and had friends. For some reason, perhaps the lack of funds in the city treasury, George had been temporarily relieved from duty on the force for a few days, when word came to the Sheriff's office that an Arizona outlaw had invaded El Monte, some twelve miles eastward from Los Angeles, and had inaugurated a reign of terror.

In those uneventful days some liquor was sold at El Monte, and some cards were played, and the denizens of that

district occasionally got excited over their games, and disputes had been sometimes settled through the agency of lead and steel. But a stranger—an Arizona bully—had appeared in town, and was proceeding to paint it a real crimson. So "Billy" Rowland (as we all familiarly called him) was appealed to, and he detailed George Gillis to go to El Monte and as the Sheriff's deputy to maintain the dignity of the law and preserve the public peace. For this purpose George was given a star.

Henry Hunt (for that was the name the outlaw gave) was found at the saloon at El Monte, holding high carnival. After sunset Hunt picked a quarrel with a citizen, and started to whip him, when Gillis interfered. What then took place was done so quickly that no one ever could say positively whether Gillis showed his badge of office or told Hunt he was an officer. While he was striving to separate Hunt from his apparent victim, a bullet from Hunt's revolver pierced a vital spot in poor Gillis's body, and George's life blood ebbed almost before anyone could realise it.

At so cold-blooded a murder El Monte citizens were paralyzed. Hunt was arrested instanter, and brought to Los Angeles. This individual was 23 years of age, 6 feet 2, square-featured, with high, broad forehead, prominent nose, deep-set gray eyes, long, narrow ears, full-breasted, somewhat strongly built, with florid complexion and gray hair. Withal he was a powerful fellow. He boasted of having dispatched several men in the "Territory" (as we then called Arizona,) and his look of determination added weight to his boasts of bloodshed.

THE MOB ROARED.

At the corner of Spring and Franklin streets, in this city, an old adobe then stood, which did service as a city and county jail, and the jail yard, surrounded by a board fence, extended to New High street. It was a most unpretentious affair, and I cannot now recollect whether Jim Thompson or Frank Carpenter was in charge of the institution. No matter, for they were both stalwarts. Soon after the episode of which I am about to speak had occurred, Louis (Chino) Phillips bought the ground upon which this "jail" stood, and erected thereon the building now known as the People's Store.

Well, into this apology for a jail Mr. Hunt was placed for safekeeping on the afternoon after killing George Gillis.

Railroads and telegraphs were then very few and far between, and telephones we were hardly dreaming of. Our news was carried (when necessary) by mounted messenger, and our prisoners by a "calesa." As the awful news of George's death and murder spread that evening from mouth to mouth on the streets of Los Angeles, the people gathered on Spring street in the vicinity of the adobe jail. The old Courthouse of the county stood then where the Bullard Block is now, and soon a clamoring crowd told the jailer in unmistakable terms that they had use for Hunt. Sheriff Rowland was sent for, and he straightway sought advice from one of the judges of the Superior Court. We had just adopted the new Constitution, and it allowed Los Angeles county two judges of the Superior Court. Hon. Volney E. Howard was one of these, and his chambers were right above the Sheriff's office, in the Courthouse, fronting on Spring street. The judge was then close to 80, an eminent lawyer, and as noble and brave as the best of our Southern gentlemen. It took but a few minutes for the Sheriff to find the judge in his chambers, and to recite how the crowd had assembled at the jail front, and had made a demand with which "Billy" did not care to comply. The Sheriff elaborated upon the weakness of the public building, and the paucity of his own force; told how he had tried to restrain the surging mass of humanity at the jail's mouth, and concluded with an appeal for advice and assistance. And Rowland was not without his laurels for bravery as an officer of the law. He had captured the noted bandit Vasquez, subsequently hanged in Santa Clara county for the assassination at Tres Pinos.

As Rowland told his tale to Judge Howard, the stalwart old gentleman straightened himself, and exclaimed: "Give me a gun and I'll go over to the jail with you!"

Some of us did go over to the corner of Spring and Franklin streets, and among the number was John F. Godfrey, then one of the leading lights of Los Angeles. Col. Godfrey got under the awning that extended over the sidewalk in front of the jail on Spring street, and stepping on a bench which elevated him a trifle above the level of the crowd, he began to expatiate; and Godfrey was

THE WATER BONDS CARRIED.

The people have decided. Yesterday's election resulted in a most decisive public verdict in favor of the purchase of the entire waterworks improvements for the sum of $2,000,000, as tentatively agreed upon between the members of the City Council and the Los Angeles Water Company. The total vote polled was 7551. The votes for the proposed bonds numbered 6284. Those against them numbered 1267. Thus the bonds carried by a vote of nearly five to one, though only a two-thirds majority of the total vote cast was needed to carry them.

The decisiveness of this expression of the popular will is apparent. It leaves no doubt as to the public feeling on the subject, both as regards the question of municipal ownership (decided previously) and that of the wisdom and expediency of the compromise agreement. The issue was fairly made up. The discussion which preceded it was notably full, free, and fair—at least it was so on the part of those who advocated the bonds. On the other side of the question more or less "fool" and vicious statements were made, many "measly" arguments employed, and demagogic appeals to the mob indulged in. These proved futile.

The public understanding of the question, and of the issues involved, was more than usually thorough. There can be no doubt that if every voter in the city had cast a ballot, the result would have been even a larger proportionate vote in favor of the bonds. The opposition probably polled practically its full voting strength.

The decisiveness of this expression of the popular will should end for all time the opposition to the consummation of the compromise. Any attempt on the part of opponents to prevent or delay the issuing of the bonds and the acquisition of the water system by the city will be in conspicuous bad faith, and should be frowned upon by the entire community from the start of such proceedings. Having ascertained, beyond the possibility of doubt, the public wishes in this matter, those who have opposed the issue of the bonds are bound in good faith to acquiesce gracefully in the verdict; they should refrain from interposing the slightest obstacle to the carrying out of that verdict in due course. To pursue any other tactics will be manifestly wrong and opposed to the public interests as well as to the public will.

The city will now, in the very near future, come into possession of its own, unhampered by legal complications. The result, as we all hope, and as most of us firmly believe, will be of great and lasting benefit to every taxpayer and every citizen of the municipality.

It was a good day's work.

LABOR UNIONS AS CHECKS TO PROGRESS.

There is one feature of this labor-union question to which little reference has, so far, been made, although it is a most important one. This is the effect which the labor-union system has upon the individuality of the members of the unions—upon their skill and enterprise as workingmen. There can be no reasonable doubt that the labor-union system, as it exists today in the United States, Great Britain and some other countries, tends to make the individual workingman less self-reliant and less effective. He learns to depend less upon his individual ability and more upon the union. There is less incentive for effort, and consequently less effort is made. The tendency of the union is to put all of its members, capable and clumsy, industrious and idle, moral and dishonest, on the same level of uniformity, a practice, by the way, which has done much to lessen the usefulness of the American public-school system. Not only this, but in some cases a union workingman is discouraged from putting forth his best efforts, and in others he is actually forbidden to do more than a certain amount of work, or to do it quicker than his less competent fellow-workingmen. Is such a system right? Is it reasonable? Is it just to the workingmen themselves? If not, then why do they submit to it?

An eastern letter, published recently in The Times, descriptive of the conditions which prevail at Pittsburgh, the great iron center, gave some interesting facts in relation to this question. It was shown that most of the men at the head of the big works there, who ride down to their offices in their carriages, and live in princely mansions, have risen from the ranks; also that, almost without exception, these men have not been members of trade unions. There is a lesson in this which union men would do well to ponder.

It is a well-known fact that the incipient decadence of Great Britain as a manufacturing nation, which has created so much comment during the past few years, is largely attributable to the growing domination and unreason of the labor unions, which dictate just what work and how much of it a man shall do, regardless of his capacity, or inclinations, or the desires of his employer. On the other hand, investigators who have visited this country from Europe, to ascertain how it is that, while far higher wages are paid in this country, we are able to produce manufactured goods at a much lower price, have almost invariably reported that the difference is due to the greater intelligence and ingenuity of the American artisan. Are we to sacrifice these advantages, and let the trade of the world drift in some other direction, in order that a few shrewd and unscrupulous men may draw good salaries, and achieve notoriety, as presidents of labor organizations?

The United States Investor recently discussed the decline of individuality, with special reference to the growth of corporations and trusts, in place of the old-style firms. This is doubtless true, to a great extent, but it is even more true in the case of the members of labor unions, who have surrendered their privileges as free agents to an extent that would not have been deemed possible a few years ago. Intelligent workingmen would do well to ponder this question, which is of such vast importance, not only to them, but to the nation at large. It is difficult for the unprejudiced observer to see how labor unions, as they are at present conducted, are of advantage, but rather a drawback to all but those who organize and run them, whereas it is easy to understand how organizations of craftsmen of various kinds, like the guilds of old, might be made of the greatest benefit to their members—a blessing instead of a curse.

THOSE TEXAS "RESOLOOSHUNS."

Some time ago the telegraph brought information of the introduction, in the Texas Legislature, of a resolution declaratory of sympathy for the Amalgamated steel strikers, and providing that each member of the Texas Legislature should donate $1 per week (or per day) as a sympathy offering for the strikers' benefit. This resolution does not appear to have met with a very enthusiastic reception among the Texan statesmen. They are evidently long on "sympathy," but when it comes to digging up a dollar a week (or a dollar a day)—well, that is different. The resolution was quietly side tracked, and will probably never be got onto the main line.

But Texas statesmanship is not to be bottled up, crushed, squelched, cabined, cribbed, or confined. It has sympathies and it is as free as the boundless plains of the Lone Star commonwealth. Therefore, being thus free and unhampered, the concentrated and concatenated wisdom of Texas statesmanship expresses itself thus, and to-wit:

"Be it resolved, by the House of Representatives of the Legislature of the State of Texas, that trusts and monopolies are contrary to the spirit and genius of a free people, destructive of individual liberty, and subversive of the principles of a republican form of government; that we recognize in the United States Steel Corporation an organization which embodies all the evils of the trust, monopoly and community-of-interests idea, and one by which, by reason of the manner and amount of its capitalization and plan of operation, may be said to be the very head and front of the offending system; that we are in hearty sympathy with the Amalgamated Association in the contest which they are now waging with the United States Steel Corporation for a just and equitable recognition of their union."

All this is no doubt very sapient, very statesmanlike, and very patriotic—from the standpoint of Texas statesmanship. But it never seems to have occurred to the assembled legislative wisdom of the Lone Star State that the Amalgamated Association, which is so effusively indorsed in the resolution quoted above, is a gigantic trust and monopoly, with aims similar to those of the steel trust, and with methods more reprehensible than those of the corporation which it denounces in good, set terms. If trusts and monopolies are "contrary to the spirit and genius of a free people, destructive of individual liberty, and subversive of the principles of a republican form of government," then is the Amalgamated Association all this; for it is, in the fullest and truest sense, a trust and a monopoly.

Just why the concentrated sympathies and the unreserved approbation of Texas statesmanship should go out to the Amalgamated labor trust, while being so violently withheld from the steel trust, is a mystery which probably no person on the green earth, outside of the Texas Legislature, can unravel.

If the Amalgamated labor trust could have its way—which it cannot—it would corner the labor market more effectively than the steel trust can corner the steel market. It would establish a more grievous monopoly and a more despotic rule than any combination of capital has ever established or can ever establish. It aims at nothing less than the taking from all laboring men who refuse to submit to its dictation the constitution-guaranteed right to "life, liberty, and the pursuit of happiness."

But of course the legislators of Texas could not be expected to see matters in this, the true light. They are too deeply involved and too intensely engaged in the "sympathy" business to perceive the truth, even though it be as conspicuous as their own concatenated asininity. Therefore, they will continue to "resoloot" and sympathize, to their own satisfaction and to the amusement and pity of the rest of mankind.

Gangs of strikers, in numbers from half a dozen up, daily and nightly assault non-union men in San Francisco, beating them into insensibility, and often adding the crime of robbery to that of assault. Our San Francisco letter, published this morning, contains an appalling narrative of acts of violence committed by union strikers within the past few days. It is usually about a dozen strikers against one non-unionist, and, of course, the latter, under such circumstances, stands but little chance in defending himself. Only cowards will attack a man at such a disadvantage. A man must lose his self-respect, as well as his courage (if he ever had any) before he can join a lot of other men in an attack upon one man. The frequency of such riotous assaults and the comparative infrequency of arrests, in San Francisco, are a disgrace even to that city.

The strikes in San Francisco and Oakland have had a serious effect upon the building and loan associations. D. W. Field, one of the State Building and Loan Commissioners, is quoted as saying that "laboring men who are large borrowers in these associations find it impossible to meet their payments, and have so advised their creditors. What the upshot of the existing situation will be I am unable to predict," adds the commissioner. One of the results will be that many workingmen will lose their homes, which are partly paid for. This is one of the most pitiful phases of these senseless and unjustifiable strikes.

The Sultan of Turkey is growing quite bellicose. A dispatch represents him as saying that he will go to war with France rather than yield to unreasonable demands. He is said to be studying plans for defense, and to have "ordered thirty-five guns from Germany." Just what the Sultan regards as "unreasonable demands" is somewhat problematical. The principal demands of France were that money long overdue should be paid. From the Sultan's point of view, this is probably regarded as a demand which is in the last degree unreasonable.

Quite naturally, the members of Prince Chun's party, who are on their way to Germany to make apologies for the murder of Baron Von Ketteler, the German Minister, object to Emperor William's requirement that they shall prostrate themselves and knock their heads nine times on the floor before him. The proceeding will doubtless be a trifle inconvenient, if not actually injurious. But Chinese potentates are in the habit of requiring some such tokens of humiliation from foreigners who approach them; and the German Kaiser is a bigger man than any pig-tailed potentate on earth. Sure!

If the cowardly thugs and plug-uglies who are "doing picket duty" in San Francisco—which "duty" seems to consist chiefly in assaulting and mauling non-union men—were doing their dirty and lawless work in behalf of any other cause than "organized labor," they would speedily be fined and sent to the lock-up, as they ought to be. A day of reckoning will come for the weak-kneed demagogues who are cheating justice of its dues in San Francisco.

The union "totem"—otherwise the badge of dishonor—was violently turned down and decisively discredited by the electors yesterday. The petty pedlers of it are covered with shame and confounded with confusion today—or ought to be.

Considering the great importance of the water-bond question, the vote cast yesterday was unpardonably light. So grave a question should receive a reasonably full vote, at all events. The diminished vote was decisive, at any rate.

AT THE THEATERS.

BURBANK. A special "souvenir" matinée was given by Melbourne MacDowell and company yesterday. The bill was "Gismonda." The performance went off well, though not so smoothly as on the opening night, one or two of the actors getting their lines a little mixed. Mr. MacDowell's Almerio is a grand conception of a poor role. His work in Act III is magnificent. As Gismonda Miss Stone repeated her success. The company forms an adequate support. Souvenir portraits of Mr. MacDowell were given away. The photos, which are most excellent, are the work of Mojonier of this city. The San Francisco order was canceled entirely, owing to the strikes, and Mr. Mojonier was called upon at the last moment to supply the souvenirs. No point of art was lost by having local work substituted.

A Greenock cablegram says the American training ship Buffalo, Commander Charles T. Hutchins, which sailed from New York July 17 on a cruise, has arrived there.

SENEGAMBIAN IN WOODPILE.

Beginning to Show His Woolly Head.

Political Bee Buzzing in Union Bonnets.

Municipal Labor Ticket Being Talked of by Strikers in San Francisco.

[SPECIAL CORRESPONDENCE OF THE TIMES.]

SAN FRANCISCO, Aug. 27.—The nigger is coming out of the wood pile. At least his woolly head is showing above the timber. The labor unions are now running over with discussion of a municipal labor ticket at the coming election. The big bugs of the unions are singing siren songs to their thousands of fellow-members, and the rank and file are becoming filled up with ideas of success and the coming rule of the city. Until now they have only sought to boss business, and to make employers knuckle to their orders, but now the political bee is buzzing loudly.

Of course, the leaders of the unions are to be the ones to lead in the battle of the ballots. The head of the sausage fillers' union would like to be the registrar of voters. Perhaps his claim lies in his ability in stuffing. The head of the scavengers' union wants to be Tax Collector, as he thinks he is able to gather them in. The candidate for Mayor is a fiddler, who believes in having several strings to his bow. At present he fiddles in a theater, bosses a union, and is in politics. If he is elected Mayor, he promises to have only union men employed by the city, and it is understood that musicians will be given the preference, so that if things get dull at the City Hall, an orchestra may furnish music at any minute by merely drawing upon the heads of departments.

All this is very serious, and if the unions win, in their fight here, may come to pass. At present, with one parade just over, all efforts of the unions are being bent toward a monster procession on next Monday. After the parade there will be a big ball in the Mechanics' Pavilion and literary exercises during the afternoon. It is expected that there will be a try-out of the available candidates for the bigger city jobs, and most of the union leaders are sharpening up their voices for that time.

Today employers have the best of it. More men are at work, and going to work, than at any time since the strike began, and the country and adjoining States are sending in hosts of strong and willing laborers. The machinists say that their ranks are unbroken, although their strike is in its fourth month, but the managers of the great iron works here tell your correspondent that they have nearly a full force employed.

The teamsters' and water-front strike is in its sixth week, and the steamship men are moving their vessels in much better fashion than last week. Of course all these firms are paying higher wages than they should have to, or than they paid before the strike, but this is to be expected.

The Alameda Argus reports Walter McArthur, a leader of the Sailors' Union of San Francisco, as saying the union men were "determined to win their fight here, and that they would see San Francisco ruined and the grass growing in the streets before they would lose it."

McArthur, however, must remember that there are other interests than his and his union's here, and that if San Francisco's employers are determined not to let any grass grow even under their feet, and they are bringing this strike slowly to an end by united action and effort.

The Examiner continues to make much noise over the protection being given the business firms, and the teamsters and stevedores who are doing the work on the water front. Some days ago, the Examiner, which has for years had a spite against Police Captain Wittman, accused that officer of brutality toward a striker.

The facts are that Wittman, in dispersing a mob of rowdy union men, struck one on the head with his club. The man was not badly hurt. Failing to arouse public feeling against Wittman, the Examiner has had him arrested on a charge of battery. The case is a farce to all who know the animus directing it, but its real intention, as planned by the unions and the Examiner, is to scare the police from doing their duty. Wittman knows this, and the evening of his arrest spoke to the assembled policemen at headquarters, and told them not to let the Examiner frighten them. He told them to do their duty fearlessly, and that the law and the police department would protect them. The Examiner doesn't like Wittman, because he has for years refused to do that paper's bidding and to help in its blackmail schemes.

Some days ago the Examiner said that Frank Symmes, president of the Employers' Association, said of the grain rotting at the wharves, "Let it rot."

The Examiner made out that Symmes, speaking for the Employers' Association, expressed lack of sympathy with the farmers. Symmes never said this, but the Examiner repeated the lie until convicted of the falsehood. Now the Council of Labor of San Francisco, in an address to the farmers of the State, accuses Symmes of this same statement.

Today the strike district is better protected than ever, but yet the violence of the strikers does not cease. Chief Officer Burrowes of the steamship Gaelic, who was beaten and robbed at night, is convinced that his uncaptured assailants were strikers. The boldness of the strikers is shown by their kidnaping many men. Whenever possible, they fill non-union men with liquor, and, locking them up in some convenient place until night, put them in empty freight cars, after beating them into unconsciousness, and send them off by train as far as possible.

Scores of men have been gotten rid of in this way, and scores of others have been imprisoned by the strikers until they had sworn fealty to the unions. The police judges have stood in with the strikers all through, and have released the few arrested on trifling bonds. Aaron Greenberg and Philip Shafter, seamen on the schooner North Fork, are two men who were kidnaped by strikers. About 9 o'clock in the morning Sergt. Christiansen saw a number of men trying to drag a man from a car at Third and Townsend streets, and after a struggle succeeded in arresting two of the strikers. They had severely beaten the man, whom they attacked on the car, Aaron Greenberg, and were taken to the Police Station only after an interesting struggle.

They were Thomas Rafferty and Alexander McLaughlin, members in good standing of the Sailors' Union. Greenberg told the police that he had been at work with three companions on the schooner North Fork, when a number of strikers came along and hauled them to the teamsters' headquarters on Fourth street. They were taken into a back room, with two doors, and when Greenberg saw them lock one of the doors, he broke through the other into the the street, with some of the strikers after him. He boarded a car, but the strikers caught up with him and were half killing him when the policeman interfered.

After the policemen had taken Rafferty and McLaughlin to prison they went with Greenberg to the teamsters' headquarters. In the inner room were found three sailors, guarded by two union men. The sailors said that they were detained there by force and had been told that they would be murdered if they went to work.

The guards were arrested and Judge Cabannis released all four on $5 bail each. Capt. Wittman was compelled to deposit $20 bail on the Examiner's charge.

Your correspondent has previously excepted Judge Cabannis from the general accusation of the police judges of being political tricksters, but now Cabannis joins with his rotten confreres. He has become tainted with the yellow virus and has Examiner-phobia.

Now to a few specific instances of the brutalities and intimidation by strikers. Capt. Ames of the tug Millen Griffith, owned by the Pacific Mail Steamship Company, was flopped by a gang of men at Second and Bryant streets yesterday morning. He was accused of being a non-union stevedore. The men hurled him against a fence and were bumping his head against a stanchion when he was recognized and allowed to depart, after being severely hurt.

Alfred Schiavri, an Italian who has been working as a non-union stevedore, was set upon at the corner of Davis and Jackson streets by three strikers. He drew his revolver and the men fled. Schiavri was arrested for discharging firearms in the city limits. No strikers were arrested.

Four colored non-union stevedores, who are living on the steamship Ohio, were surrounded by a mob of strikers on the Clay-street wharf. One of them, Henry Boose of No. 1105 Pacific street, was knocked down and badly hurt. E. S. James, one of the four, drew his revolver and fired three shots, but did not hit anybody. Boose was taken to the hospital and James was arrested. No strikers were arrested.

M. Brown, a guard at the detention sheds at the Pacific Mail Company's wharf where Chinese immigrants are held pending investigation as to their right to land, was mistaken by a crowd at Second and Brannan streets for a non-union worker. Brown was threatened with death, and when a striker tried to exectue the threat, Brown drew a revolver and told them who he was. He was allowed to depart uninjured. No arrests were made of strikers.

Willard Holman of the Overland Freight Transfer Company was picked up bleeding and unconscious at Powell and Eddy streets at night. He was unable to say how he had been hurt, but as the Overland Freight Transfer Company is one of the concerns being fought by the unions, one does not have to go far to find the cause for Holman being attacked. He was evidently struck with a sandbag.

John Vorgnstorp, a rancher from Marysville, was attacked by four strikers on Pacific street near Dupont. He was knocked down, but before his assailants could get away they were caught and arrested.

C. M. Dyer, who lives at 111 Minna street, was knocked down and beaten by striking stevedores at 501 Mission street at midnight. One of his eyes was injured and one of his ears frightfully lacerated. Dyer's offense was working on a coal bunker. No strikers were arrested.

H. Kelley, a late arrival from Missouri, was dragged from a Bryant-street car by four men at midnight. He was taken to the Receiving Hospital after the men had finished with him. Kelley has four brothers working as stevedores in Port Costa, and at the time of his assault three of his brothers were attacked by a gang of strikers at Third and Bryant streets. The Kelleys, however, were husky, and they sent Joseph Hayes, a striker, to the hospital.

Four strikers, William Cullen, Ed Moore, John Ryan and Frank Evans, were captured after an early-morning chase by three special policemen. The men held up and robbed Christian Beginstock of Vallejo, who was on his way to his brother's bake shop on Broadway near Powell street. The men choked him almost into insensibility and took $6 from his pockets. They fled at the approach of the policemen and were caught.

Joseph Bennett, who resides at 221 Montgomery avenue, and is a teamster employed by McNab & Smith, was attacked in broad daylight at Kearney and Broadway by four strikers. They left him after breaking one of his legs and frightfully cutting his face and head.

Edward Kebablen, a special policeman, was attacked yesterday as he was leaving a car at Second and Bryant streets. A striker pounded him on the head with a beer bottle, and other union men kicked him in the stomach. He was taken to the hospital. No strikers were arrested.

These are but a few examples of the violence which constitutes the chief argument of the unions here. And yet the Examiner says it is a peaceful strike.

A Straw.

It is of interest to learn that the Los Angeles Times has gained a circulation in San Francisco of 1500 since the strike began. It is not taken, of course, for the timeliness of its news. That is twenty-four hours old before it gets there. It is taken because of its outspokenness on the strike question. Not violent and indiscriminate attacks, but argumentative arraignment of the policies of those who find themselves labor "leaders." This ought to be a straw for those publishers who are ever on the verge of heart disease over their circulation. There is an immense contingent in San Francisco that is eager for some sort of journalistic independence.—[Alameda Argus, Aug. 23, 1901.]

DOUGH THAT FATHER MADE.

Why talk about the cakes and pies
That mother made of yore,
That gladdened both your hungry eyes
And filled you o'er and o'er?
You sing of doughnuts great and small,
That in the jar were laid;
Why is it that you ne'er recall
The dough that father made?

The cake and pies were well enough,
The doughnuts, too, were right;
The biscuits all deserved a puff,
They were so very light.
But still, when plaudits round you sing,
Let credit fair be paid,
And now and then in praises sing,
The dough that father made?
—[Cleveland Plain Dealer.

Waiter (knocking:) Miss Jenkins, don't you feel like a little cold chicken?

Miss Jenkins (from within:) I don't know how a little cold chicken feels, but I'm feeling pretty—ugh, queer.—[Brooklyn Life.

"I guess we'll have to put that ad. in again as a free insertion," remarked the foreman.

"What ad is that?" inquired the editor.

"Why, Sellem's announcement of his 'storeful of furniture, bedding and rugs.' We've made it 'bugs' in today's issue."—[Philadelphia Press.

CHINA

PRINCE CHUN PRETTY WELL.

Keeps Up Hot Cabling to Peking.

His Retinue Indignant at Germans.

Ministers Discuss Edict Prohibiting Importation of Munitions of War.

[BY THE NEW ASSOCIATED PRESS—P.M.]

BERLIN, Aug. 28.—[By Atlantic Cable.] The immediate attendants of Prince Chun are decidedly indignant at their summary handling by the German officials. Herr von Bauch, who is attached to the mission on behalf of the German government, is calmly completing traveling arrangements, in spite of the Chinese assertions that they may not proceed to Berlin. Some of the minor Chinese officials objected to lodging on the fourth floor of the hotel, but Von Rauch promptly intervened and compelled them to accept the quarters to which they had been assigned. Seeing that the lowest in rank of the members of the retinue are prominent nobles, such coercion is not relished.

Prince Chun has dropped his pretense of indisposition, and is keeping up constant telegraphic communication with Peking. One cable message cost him $306. The members of the Chinese mission are not permitted to leave the hotel. This, it is alleged, is due to the personal orders of Emperor William.

It is now generally conceded that the delay of the mission is due to the severe exactions of Emperor William in connection with the expiation ceremonial.

BRITISH CALL FOR TROOPS.

[BY THE NEW ASSOCIATED PRESS—A.M.]

LONDON, Aug. 28.—A special dispatch from Shanghai says the British authorities at Peking have telegraphed for more British troops.

MINISTERS ACCEPT EDICT.

[BY THE NEW ASSOCIATED PRESS—A.M.]

PEKING, Aug. 28.—Later in the day it was announced the ministers had decided to accept the edict but to omit the first paragraph in publishing it as part of the appendix to the protocol.

It is expected that the British Minister, Dr. Ernest Satow, proposed to return the edict to the Chinese peace commissioners as unsatisfactory, but the proposal failed. Several of the diplomats, including Mr. Rockhill, opposed this feature of the protocol. Among their reasons was that it was impossible of enforcement, and that it was illogical, while insisting that the Chinese government maintain order, to deprive it of the means of so doing. Whereas a month ago the Chinese commissioners were importuning the ministers to conclude the negotiations, it is now the ministers who are daily visiting Li Hung Chang on a similar errand. Several of the ministers expect to be transferred to more pleasant posts at the conclusion of their labors, and all are wearied with the confinement in Peking during the tropical months.

EVENTS IN SOCIETY.

Farewell Luncheon.

Miss Frances Coulter gave a charming luncheon yesterday afternoon at the home of her parents on North Grand avenue, as a farewell courtesy to Miss Henrietta Janss, who will leave soon for Chicago, where she will join her parents. Dr. and Mrs. Janss left several weeks ago for Chicago to make that city their future home. The dining-room was handsomely decorated. In the center of the table was an immense bouquet of white asters, tied with broad pink satin ribbons. At either end were jars of maidenhair ferns, and pink satin ribbon was arranged in bow-knot effect throughout the dining-room. Those present were: Misses Bertha Pollard, May McCrae, Elsie Laux, Elsie Kimble, Ines Moore, Reba Cole, Eva Keating, Lelia Simonds, Stella Sanford, Mary Patterson, Belle Coulter, Grace Gregory and Julietta Phelps. The place cards were sketches suggesting the particular fad of each young lady.

Wagner-Schurmer.

Miss Margaret Wagner, daughter of Mrs. A. S. Wagner of No. 837 Georgia street, and Oscar A. Schurmer were married Tuesday evening at the bride's home. Rev. G. Hough officiated, and the service was witnessed by a number of friends and relatives. The bride wore a handsome gown of delicate green silk, trimmed with point lace. She carried a bouquet of white carnations and maidenhair ferns. Miss Jennie Wagner, sister of the bride, assisted as maid of honor. Her gown was of blue silk, with an overdress of white organdie. Robert Wagner was best man and Stanley Guyot was ringbearer. The drawing-room, in which the ceremony took place, was beautifully decorated with white satin ribbons and ferns; pink carnations and greenery were used in the dining-room. The bride and groom are popular and well known in Los Angeles. After October 2, Mr. and Mrs. Schurmer will be at home at No. 1201 East Fourteenth street. Many gifts were received by the bride.

Fraternal Entertainment.

Pacific Hive, Ladies of the Maccabees, gave a delightful entertainment and dance in their new hall, No. 175 North Spring street. The attendance was large and an interesting programme was rendered.

NOTES AND PERSONALS.

Miss Aida Radamaker of San Francisco, who has been visiting Miss Alice Arnold of No. 1111 South Hope street, left on the boat yesterday for Stanford to resume her studies as a member of the junior class.

Miss Henrietta B. Freeman, who has been spending the summer with her mother and sister at No. 513 West Ninth street, left Monday evening for New York.

William Alford has returned from a week's vacation at Coronado Beach. He reports fishing good. Mrs. Alford and children will stay another week.

W. H. Barr, one of the most popular railroad men of San Bernardino, is in town on a sick leave. Mr. Barr, who is better known among railroaders as "Bill, the Switchman," owing to poetry he wrote under that signature, says business is better at San Bernardino than ever before at this time of the year.

RIPPLES OF MIRTH.

His Crops.

"Joe, what are you raising on your place?"

"Fox terriers and Welsh rabbits."—[Chicago Post.

Very Small Type.

Mrs. Hoyle: I can read my husband like a book.

Mrs. Doyle: You must have good eyes to read such a small type.—Boston Set.

Defined.

She: I see Shamrock II is to have a new jury mainmast. What is a jury mainmast?

He: I suppose it is the one that comes in the trial races.—[Chicago Times-Herald.

When it Would Come Off.

Wright: Starpley's manager has promised to give a presentation of a comedy of mine, but I don't know when it's to come off.

Criteek: Probably the night you put on.—[Philadelphia Press.

Not So Expensive.

Mrs. Naybor: The Woodsons have moved into the country. They say it took too much money to keep appearances here.

Mrs. Jellus: Huh! I don't see why it should take so much money to give up their appearances.—[Philadelphia Press.

Willis's Explanation.

"Isn't it awful how thin Mr. Willis is now," remarked Mrs. Gabb to her husband, "and he used to be so fleshy."

"Perhaps," chimed in little Willis, remembering his trouble with his tires, "perhaps his wife forgets to pump him up regular, like you do your duster."—[Philadelphia Press.

Not a Flatterer.

"The payple Oi lived with last," said the new cook, "wor very fond of ma'am."

"Well, are we not plain looking?" asked the lady.

"Troth, ye are so, ma'am, but in a different way. The others were proud of their way o' livin', not in their looks, ma'am."—[Philadelphia Press.

Needed Nowadays.

"What sort of a man is the best recruit to our ranks?" asked Sergeant Borghum.

"He's one of the most fluent liars I ever met with."

"H'm. I don't believe we want him. What we are looking for nowadays is the man who can lie naturally to himself."—[Washington Star.

Her View of the Sex.

"I suppose," said the observer who was visiting the Mexican ranch, "your wife is sure that she has the best husband that ever lived."

"Yes," answered Meekins, with something like a sigh, "but at the present time I don't believe she thinks so. She is saying much for me."—[Washington Star.

CURRENT COMMENT.

Might Do for a Change.

Our doctors in Cuba went to study remedies for yellow fever, as well as to experiment with infection.—[New York Mail and Express.

Playing to the Galleries.

Whenever an Austrian statesman feels called upon to speak, the first thing he says, in substance, is the menace of American trade.—[Pittsburgh Dispatch.

Joke on the Rest.

What a joke it would be on the rest of the country if the "great American desert" should become a garden spot, and the country through which the system that is rapidly extending.—[St. Louis Globe-Democrat.

Great Reduction of Expenses.

The Pullman car porters have sent the statement that a reduction of railway travel has increased the publication of the stock tables, small tips are now given.—[Cleveland Plain Dealer.

A Difficult Feat.

Americans are said to be fond of the British meat market. It will be hard for them over-ride it, and sing "Oh, the Roast Beef of England" to the tune of "The Star Spangled Banner."—[Chicago Times-Herald.

Popular With His Rivals.

It is a pleasure to assure Sir Thomas Lipton that he will at least win second prize. He is the most popular representative of the sport of kings that ever came to these shores. Even his racers prove fast enough to have the cup without a struggle.—[Detroit Free Press.

Good Suggestion.

New York, as usual, is full of plans for the national monument, and once more the immediate Statue of Liberty on Bedloe's Island is the subject of discussion. The only way that such a statue can be given the stature it is believed, is to turn it over to the War Department.—[Philadelphia Press.

An Object Lesson.

Colombia has a paper currency, the equivalent of our greenbacks. Her political troubles there may be appreciated it wonderfully within a few days. It is now worth 4 cents on the dollar. Such an illustration of the inherent evil of cheap money could not be without its lessons to statesmen in the United States.—[Detroit Free Press.

OUR HIGH STANDARD NEVER VARIES..

We've all kinds of cases, all styles of instruments, many variations and variations in price. One thing never varies—the quality and high standard of every instrument we sell. The person who knows no piano knowledge, buying here, gets as fine an instrument as the most competent judge could buy.

Southern California Music Co., 216-218 West Third St. Bradbury Building.

OUR HIGH STANDARD NEVER . . VARIES . .

MINES AND MINING ON THE PACIFIC COAST.

NEW MINING DISTRICT IN SAN DIEGO COUNTY.

New Fields in Oaxaca, Mexico—Locations in Arizona—Pioche Consolidated Will Resume Work—In New Mexico—Sale of a Mica Mine.

Julian is the name of a new mining district in San Diego county. It is on the Colorado River, about thirty-five miles above Picacho. In this district is a group of eight claims belonging to Hodges Bros., recently bonded by Senator George H. Barker of Pasadena. The price mentioned in the bond is $75,000. Mr. Barker has also bonded another group of six claims in the same district, for $6000. In speaking of these transactions, the Herald of Yuma, Ariz., says:

"Senator Barker is pushing development work vigorously, the operations being in charge of George A. Trumbull and William B. Hodges. They have four shafts down over a hundred feet and all are showing up fine, the ore body improving with depth. They have also been also tunneling into the mountain, and a few days ago Mr. Hodges informs us, a wonderfully rich ledge was encountered about thirty-feet in the mountain. No careful investigation or assay has been made, but the lighted candle the ledge shows a sparkling ledge, apparently twenty-inches wide, and the values will undoubtedly run up into the thousands."

IN MEXICO.

The Mexican Herald of the City of Mexico quotes Julius Leffman of St. Louis, Mo., as saying respecting mining operations in the new fields in the State of Oaxaca: "The San Mateo has lately cut a vein of ore at the water level, which is twenty-two feet wide, and fine wire silver comes in patches. The mill run on this ore will average in assay $500 per ton. A Denver company has just completed its mill and is turning out gold bars every week. Among the promising districts of Oaxaca is the Consejo, which has a forty-foot vein of ore, mostly a milling proposition." He also says: "Oaxaca is no camp for a miner to go to for work, as the work is all being done by Mexican miners, and the owners superintend their own work. There has not been much deep work done, for that reason I would not advise any man to go there seeking employment."

M. Graybill, representative in Los Angeles of the Sonora Development Company, which owns a number of mining claims in the Moctezuma district, Sonora, received last week a copy of a telegram from James E. Lawrence, the company's mining engineer in Moctezuma, in which a strike of rich silver ore in the Westenholm claim is announced. Mr. Lawrence, in his telegram, states that the ore averages 305 ounces in silver, and that some of it yielded as high as 609 ounces to the ton per ton.

The Chihuahua Enterprise reports the sale of the Nopal mine, State of Chihuahua, to D. M. Evans for $500,000 Mexican currency.

The Bisbee, Ariz., Review says: "News comes from Nacosari of the sale of the El Globo property for the sum of $40,000 on three months' time. The property was owned by Diaz and the purchaser is an English syndicate. This property is located about six miles east of Nacosari, in the Huachuca Mountains."

IN ARIZONA.

The Safford Guardian states that Dr. Graham, Henry Thompson and Mr. Brooks have opened up what seems to be a large mine. At a depth of five feet the ledge shows three feet wide. The assays run from $11 to $25 gold, with additional value in silver and lead. It is located in the Mayflower mining district about sixteen miles northeast of Duncan.

"The General Wealth of Kingman, says: "The most important mining news of the week in the way of ore discoveries is the rich strike on the Gem mine, owned by Ayers. This is the property on which Mr. L. Ayers cleaned up over $100,000 net in seven months. The ore is rich in gold. The mine is being worked under bond by Henry S. Mackay and others. The Copper Era of Clifton reports the starting up of the Arizona Copper Company's new concentrating plant at Morenci. The Era says it is a success, the plant, works like a charm, and with the addition of material assistance in increasing the company's output.

The sale of the Profusion group of claims near Wickenburg to the Copper and Gold Mining and Milling Company of Cleveland, O., is reported. There are five claims in the group; the price is not stated.

Mr. Meredith of Aurora, Ill., who is handling the property of the Gold Copper Consolidated Mining and Milling Company, of which he is vice-president, writes from Prescott to the Los Angeles Mining Review that they are working on the Rockefeller claim and will have a steam hoist up in a few days. "We are," he says, "working but few men, but will work about forty as soon as the hoist is up. The ore is free milling, running about $20 in gold per ton. We are hauling about two miles to our own stamp mill. Our manager, A. J. Pickrell, has built a very fine road from camp to mill. Our shaft is now down 200 feet. The ore is getting better as we go down; are drifting on the vein every hundred feet. We have about five hundred acres, with good ore veins on it."

A report from Globe states that work has been begun for the acid plant to be erected at the mines of the Black Warrior Copper Company. The lessee of the Brookshire, in the Globe district, the Jerome Reporter says, "As development work proceeds further the showing is. A shaft has been sunk 200 feet, and it is in ore most of the way. A tunnel 1000 feet will be run to strike the ore at a depth of 400 feet. There are already three hundred tons of copper ore on the dump, of which 100 tons is high ore."

The Wilcox Range News of August 10 tells of the return to the Dos Cabezas mine in Cochise county, of President Roberts from Los Angeles. Some new machinery for the mine has been ordered and as soon as it arrives work will be at once resumed."

NEVADA.

From Pioche comes news that the Pioche Consolidated Mining Company owns practically all the property of any consequence at Pioche, is about to resume active work. With the approach of the railroad and the discovery of its penetrating Pioche, it is hardly any doubt that these properties will once more be heavy producers. The Raymond and Ely, in White Pine camp, have produced many millions.

A report from Carson states that considerable work is going on in the Delamar mines, and it is the intention of the company to thoroughly explore the territory. It was originally the intention to start the mill, but owing to the strike in San Francisco it was impossible to obtain the necessary coal and dies, and it is now too late to start the mill owing to the lowness of water there.

NEW MEXICO.

The Taos district the Iron Mountain Gold Mining Company has been formed with a capitalization of $750,000 to operate property in Colfax county. The offices of the company are at Kansas City and headquarters at Elizabethtown.

A report from Santa Fé states: "A copper property, owned by John A. Jones, situated in the Malachite mining district, fourteen miles from this city, has been sold to A. R. Gibson of New York. The stated price is $26,500."

The representative of a Cleveland (O.) company has located a field of lithographic stone near White Oaks that is said to be of an unusually fine quality.

The Silver City Enterprise states that the Copper Queen Mining Company will start up its 100-ton concentrating plant in the Santa Rita district early next month. The company is working fifty-two men.

CONSOLIDATED MERCUR.

It is stated in Salt Lake City that the report of the Consolidated Mercur Company which is going out to the stockholders is very encouraging. The figures show that nearly $1,500,000 were produced in eleven months preceding last July. The company has paid three dividends amounting to $360,000 so far this year. The engineer estimates that there are now blocked out in the mine a net amount of $2,324,000.

COLORADO MINES.

Gold, of Cripple Creek, says: "The Gold Coin Company has made a sensational development by striking a streak of sulphur at a depth of 1175 feet from the surface. The company does not know what to make of the phenomenon, but is saving the sulphur, nevertheless. There is a gouge of three inches in width and the percentage runs from 2 to 5 per cent. It is alongside a 15-inch pay-ore body, which runs from $20 to $40 to the ton in gold."

It is reported from Cripple Creek that at a depth of 1350 feet a good strike of sylvanite ore showing free gold has been made in the American Eagle. Assays of the ore show extremely high values.

IN SOUTH DAKOTA.

The sale of the famous New York mica mine to B. H. Sullivan of Chicago for $50,000 is reported. It was owned by C. A. Dow of Sioux City, and is considered to be one of the best mica mines ever discovered.

MINING NOTES.

Creede's (Colorado) shipments for July reached 8777 tons and for nine days in August 2081 tons.

It is stated that the owners of the Brooklyn copper mine at Contact, Elko county, Nev., have refused an offer of $500,000 for the property.

The report of the State Geologist of New Jersey for 1900 gives the total quantity of zinc ore, including franklinite, mined in the State during the year, at 194,881 tons; an increase of 40,434 tons as compared with 1899.

The consolidation of the Athabasca Gold Mines, Limited, and the Venus Gold Mining Company, both of Ymir, B. C., under the name of the Athabasca Consolidated Company, is announced.

SAN FRANCISCO MINING STOCKS.

[BY THE NEW ASSOCIATED PRESS—P.M.]

ECUMENICAL CONFERENCE.

LONDON, Aug. 28.—The secretary of the Methodist Ecumenical conference reports that American and Canadian delegates are arriving slowly since they made an early start, and are scattered over the continent before settling down to work at the City Road Wesleyan Chapel. The list of these western delegates is still incomplete, and some changes in the programme of discussion will be required. Bishop Hurst will probably take Bishop Goodsell's place in the opening debate on "The influence of Methodism on the promotion of international peace," and a substitute will be found for Chief Justice Lore of Delaware, in the discussion of the evils of gambling. Dr. Thomas Allen, Dr. M. Stephenson and the Rev. Charles H. Kelley will be prominent figures of the British Wesleyan churches at the conference.

AT NEW YORK HOTELS.

NEW YORK, Aug. 28.—(Exclusive Dispatch.) W. J. Lawler and wife are at the Hoffman. E. L. Allen at the Imperial, E. Potter, W. L. Stewart and G. E. Brown at the Herald Square, W. McBean and wife of Riverside, are at the St. Denis, I. E. Hancock at the Continental.

"Free water—and your money back if you want it."

That's the way the London does business. Satisfaction or money refunded.

Be sure and visit the big ice-water tank we've put in the store for the convenience and comfort of customers; and incidentally take a look at these $5.00 trousers at $3.65; and if not suited then, at 2000 pairs new Fall Trousers at various prices.

Required two-thirds to carry 2534
Excess over necessary number 3750

VICTORY rests with the champions of the water bonds. The $2,000,000 issue was carried at the polls yesterday. Above is the result of the election by precincts.

After nearly three years of litigation and legal strife the city is in a position to consummate the municipal ownership of the water plant. By the decisive vote of 6284 to 1267, the citizens of Los Angeles yesterday decreed in favor of the immediate acquirement of the distributing system. The verdict lacked but a few votes of being 5 to 1 for the bonds.

Little excitement was occasioned, as the result was expected. But it was not thought that the bonds would carry by so great a majority. By all the vote is accepted as conclusive proof that the citizens are tired of expensive litigation, and prefer to pay $2,000,000 rather than to defer municipal ownership for a longer period.

Everything passed off quietly, and there was little or no excitement attending the election. The vote was not as heavy as had been anticipated, and did not approach that cast in a general election. All the candidates for Mayor at the last city election received in the aggregate 18,051.

At the bond election two years ago, at which the issue of $2,000,000 water bonds was submitted to the people, the total vote cast was 8162, of which 7189 were for, and 973 against the bonds.

Following is yesterday's vote by wards:

WARD.	Total.	For.	Against.	Required vote.	Excess votes.
First	449	449	139	300	149
Second	776	627	149	375	252
Third	529	691	138	376	315
Fourth	1,258	1,012	246	492	520
Fifth	858	721	137	573	451
Sixth	1,149	1,020	129	253	767
Seventh	902	804	128	256	669
Eighth	498	394	104	210	184
Ninth	534	494	40	134	360
Totals	7,551	6,284	1,267	3,534	3,750

MINOR MENTION.

The "antis" didn't carry a single precinct.

Waldron was last seen headed for the mountains.

Newberry hasn't a word to say.

Walker is still figuring.

"Judge" Page has gone up "Salt Crick" to try and talk the headwaters back into the earth.

The rest of the Hewitt-Mesmer-Miller-Burke coterie went home early and went to bed.

The men who bet against the bonds are looking for a "handout."

Over in "Judge" Page's own precinct the bonds carried 199 votes for to 76 against, leaving a margin of 47 votes. And "Judge" Page had the more or less efficient help of Joseph Mesmer all day yesterday.

The Sixth was the banner ward, the bonds carrying in that ballwick nearly 9 to 1. In the Ninth it was 8 to 1 and in the Seventh Ward about 7 to 1.

There was quite a crowd of men in the City Clerk's office when the returns were received last night. But with few exceptions all were friends of the bond issue. Early in the afternoon it became evident that the bonds would carry and Attorney Charles McFarland was the only one prominent in the opposition ranks whose desire to see how the vote stood overcame the fear of being asked "How did it happen?"

The vote, while lighter than at the previous bond election, was about 30 per cent. of the registered vote of the city and about 41 per cent. of the vote cast for Mayor in the last city election.

VERY ORDERLY.

"It was as quiet as on Sunday," said Chief Elton at 5 o'clock last night when the polls closed. "There was no disturbance worth mentioning and no arrests. As far as I am aware the saloons and restaurants generally obeyed the law and sold no liquor during voting hours."

The testimony of the Chief only bears out the statements made by other parties during the day. In many respects yesterday's election was the most orderly one that has ever been held in the city. So quiet was the balloting and so silent and secret the vote that both sides were sure of victory until noon, at which time many of the "antis" acknowledged defeat and retreated from the ballot field.

WORKERS.

Among the men who worked against the bonds were ex-Fire Chief Ed Smith, Johnny Wray, S. A. Waldron, Dog Catcher O'Laverty, Winnie Kilmer, Pete McNally and Big Bill Hogan.

SOME MONEY WAGERED.

Ellis Cohn, who conducts a cigar store on Spring street, stated last night that over $5000 changed hands on the election at his place of business. During the morning hours the odds were even, but in the afternoon as high as 2 to 1 was offered that the bonds would carry without any takers. The fact that a two-thirds vote was required to carry the bonds inspired confidence in the anti-bondites that they would carry the day. This confidence led some sports to place money against the bonds. Now they rue the day they placed their faith in the sayings of the Waldron-Newberry-Page-Mesmer-Hewitt band of "antis" and their satellites, Johnny Wray, Ed Smith, Winnie Kilmer, Pete McNally, and others of that ilk.

HOPE REALIZED.

Many citizens will breathe a sigh of relief when they read this morning that the bonds have carried. To those who firmly believe in the principles of municipal ownership, the result will give the greatest pleasure. For many hope long deferred will have its realization.

Ever since the city, in July, 1885, entered into a contract with Beaudry, Griffin and Lazard, the city has been committed to a policy of municipal ownership. By the terms of that contract the waterworks were to pass into the city at the expiration of thirty years, at which time a valuation was to be placed upon the plant by three arbitrators.

In 1896 George H. Mendell, Charles T. Healy and James C. Kays were appointed as arbitrators. Mendell and Kays, in a report made May 12, 1899, valued the main plant of the Los Angeles City Water Company at $1,183,-591.42. Charles Healy, the arbitrator chosen by the water company, dissented from the award and his action was made the basis of litigation that has continued until the present time.

MUCH LITIGATION ENDED.

In prosecuting the various cases which have been brought either directly or indirectly, by the water company against the city, nearly $100,000 has been spent from the city treasury. Until a basis of compromise was arranged between the city and the water company last month, the litigation appeared to be interminable.

But the voters of the city, by casting their ballots so decidedly in favor of issuing the bonds, have effectually put a stop to the litigation in which the company was involved, and now the company and its legal talent stand pledged to assist the city in every way in putting upon the market a legal and valid bond issue.

In all the pending cases judgment will be entered in favor of the city, and other legal means will be taken to effectually secure the city in the ownership of the water plant. All these things the water company has agreed to do in the memorandum of agreement signed July 29.

The $2,000,000 issue will be forty-year serial bonds bearing 3½ per cent. interest. They will bear date of October 1, and City Attorney Matthews said last night they should be ready to be sold by that time. It is thought that the plate used two years ago can again be used with slight alterations, so as to save this item of expense.

MAYOR IS GLAD.

"I am delighted that the bond issue has carried," said Mayor Snyder last night. "For a long time I have been convinced that the best interests of the city would be best subserved by a compromise agreement if a reasonable price for the water plant could be agreed upon. The voting of the bonds means the end of the vexatious and expensive litigation and the attainment of municipal ownership, for which the city has been fighting so long.

"In my opinion not the least of the reasons that contributed to the success of the bonds at the polls was the character of the opposition and the methods pursued to defeat the issue. Many people told me yesterday that they were undecided how to vote until they read the circulars sent out by the Waldron-Mesmer-Newberry-Hewitt committees of "antis." When they read the scurrilous dodgers attacking the motives of the city officials they immediately went and voted for the bonds.

"The voters of the city have indorsed the policy of the city officials in favoring the immediate municipal control of the water plant by the payment of $2,000,000, and that in itself is very gratifying in view of some statements that have been made.

"The returns settle beyond a doubt that a majority of the citizens of Los Angeles are in favor of controlling their own waterworks. People have become tired of the litigation which has prevented needed extensions to the water plant.

"The city officials are pledged by the action of the Council to a civil service administration of the water plant, and I shall do all in my power to see that it is put upon the best possible basis and under efficient management until such time as a civil service commission can be elected by the people."

POWERS PLEASED.

President Powers of the Council was equally pleased with the result of the election.

"That more than two-thirds of the voters who went to the polls yesterday indorsed the policy of the Council in putting a stop to the litigation by compromise is pleasing, to say the least," said Mr. Powers. The Council, after a searching investigation, came to the conclusion that the purchase of the plant for $2,000,000 would be the best possible solution of the dilemma from a business standpoint, and it is evident that a large majority of the citizens of this city think the same way about the matter."

It is not thought that any serious opposition will arise to the issuance of the bonds in accordance with the plans of the Council indorsed at the polls yesterday. The opponents would have to put up a heavy indemnity bond to go into court and test the legality of the issue, and with such lawyers as John S. Chapman, Esq., Lee & Scott and City Attorney Matthews, guarding the legality of the proceedings, it is not likely that any loopholes will be left open for successful attack.

At an interest rate of 3½ per cent. it is believed the bonds will bring a fairly good premium, which, in turn, can be devoted to the immediate extension and improvement of the plant.

On every side last night were heard expressions of great satisfaction that the bond issue has carried.

CANVASSING THE VOTE.

Today the Council will meet to canvass the vote. This will not take long and all the formalities can easily be completed before September unless unexpected developments take place.

This is important because the memorandum of agreement provides that when the Council shall have determined by formal canvass that the bonds have carried, the city shall immediately begin to receive the revenue, minus the expense of operation and 7 per cent. interest on the $2,000,000 until such time as the bonds are sold and the money paid over.

Had the election been deferred until next month the city would have lost the September revenue of $38,000. This is why the election was set so soon after the compromise was reached, a fact which lost many voters the opportunity to express themselves at the polls yesterday.

The law provides, that if a voter shall have moved from one municipal election precinct into another, and has not transferred at least twenty-five days before the election he cannot vote. There was a vigorous "kick" made yesterday by many voters who did not understand this provision of the State law.

As sewer and lighting-bond elections are at least probable in the near future, such voters will have received a valuable lesson. If those who were debarred yesterday wish to vote at coming elections they will change their registration at the County Clerk's office without delay.

FOR WATER COMPANY.

J. M. ELLIOTT'S COMMENTS.

When asked last night what he thought of the result of the election, J. M. Elliott, chairman of the City Water Company's Compromise Committee, said that he expected a larger vote, but did not think there would be such a majority for the bonds. "There is really little to say now except that the water question is settled," he said.

"The city will come into possession of the plant," he added, "as soon as the money is paid over to the company. This payment carries with it the final determination of the suits now pending in the courts, the company allowing the city to take judgment.

"The taxes amount to $30,000 per year, and the company will pay its pro rata of this sum up to next Monday, September 1, the city to be charged with the taxes after that date.

"Beginning next Monday the city will receive the net profits of the water system. The receipts are now about $39,000 per month. The monthly expenses, including taxes, are about $14,-500, and adding the interest of $11,666, gives a total of say $26,000. The difference is $13,000 per month or $156,000 per year profit to the city.

"If the city does not charge itself with the taxes the amount will be increased to $156,000 per year. Should the principal be paid off at the rate of $50,-000 per year, even beginning next year, the city would still have a yearly balance of $126,000 for extensions and improvements, or the water rates can be reduced 50 per cent. and a balance will remain of $63,000. In any event, the prospect cannot be viewed with alarm by those who voted yesterday against a bond issue."

THAT TOTEM CARD.

NOBODY WILL OWN IT.

The powerful combination of talent which fought the bond issue exhausted its ingenuity when, it produced the famous totem card, which was supposed to be "a goin' to do great doin's."

It was supposed to be an ace, but it was lower than a jack; it was a two-spot, and couldn't take a trick.

This card was circulated at every polling place, and bore the following device:

> Otis and The Times have declared that they will carry the water bonds despite all labor or other opposition. Workingmen, can they do it?
>
> The City Council has attempted to disfranchise the labor vote by closing the polls at 5 o'clock. Be sure and vote, and disappoint those who would be your masters.

In the lower right-hand corner was printed the union label.

It was a base attempt to hoodwink members of unions and to play upon their prejudices—but it was a losing card. Unionists were indignant at the misuse of the totem, and others laughed at the dirty yellow little pasteboard, with "humbug" stamped all over it.

It is strange that nobody has been willing to acknowledge the authorship of this gem of controversial literature. Yes, it is strange; for it is a matter of record that a man once said he was proud to acknowledge that he had the itch.

SOME INCIDENTS AT THE POLLING PLACES.

LEADERS OF THE OPPOSITION TO THE BONDS REPUDIATED.

Hard Fall-down of Page and Mesmer on the East Side—Councilmen McLain and Walker Severely Rebuked by Their Constituents.

In Precinct No. 1 there was much grumbling about the location of the polling place, No. 500 North Avenue 26. Voters from Garvanza and Highland Park had to travel a long way on the electric cars, and then trudge a long distance through hot sand to reach the polls. Only 146 citizens took the trouble to vote, but 115 of these were favorable to the bonds, notwithstanding the fact that Sherman Page paid a personal visit to the remote locality to see that the bonds were voted down. Only thirty-one of the voters in the precinct were men of the Page kidney, however, that number being a little less than one-fourth of the whole number of votes cast at this point.

A MUTILATED PAGE.

In Precinct No. 2, Page's own stamping ground, his hopes fared little better. The polling place was located at the corner of Avenue 22 and Downey avenue. Page was there during the greater part of the day in person, to electioneer against the bond proposition. To reporters who called in the afternoon to inquire how the battle was progressing, he gave the confident assurance that the bonds would be defeated, his estimate being that the First Ward, at least, would give a safe majority against the proposition. But the official returns seem to indicate that the sage, Mr. Page, greatly overestimated the influence that he and his side partner, Joseph Mesmer, exerted in the campaign. The vote of the precinct was 199 for to 76 against the bonds, the affirmative side having the requisite two-thirds of the whole number of votes cast, and some to spare. A funny thing about the Page-Mesmer anti-bond alliance is that they were formerly at sword's point on nearly all propositions. Obstructive politics, however, makes strange bedfellows.

MESMER DISCOMFITTED.

In Precinct 3 the Mesmer influence was expected to overwhelm the bond proposition. Mesmer is one of the most prominent residents of that locality, and he spared no efforts to carry his own precinct. The result—155 for to 72 against the bonds—shows how little influence he really has among his immediate neighbors, when enlisted in an unworthy cause. The polling place was situated at East Main and Clover streets, near the Los Angeles Brewery, but even the close proximity of the booze dispensary could not revive the drooping spirits of the Mesmerites when it became apparent that their efforts to defeat the water bonds were in vain.

M'LAIN TURNED DOWN.

In the Second Ward, Councilman McLain's bailiwick, the result was no less encouraging to the "antis." McLain, who for reasons perhaps best understood by himself, arrayed himself against the bonds, pranced up and down the ward he represents in the Council, in a vain attempt to persuade his constituents to do his bidding. But they were wiser than Mr. McLain, and administered to him a stinging rebuke by casting 627 votes for the bonds to 149 against. That is about the proportion of the vote the Second Warders will cast against McLain if he ever has the temerity to bob up for office again. The vote of yesterday shows that the influence of McLain in his home ward has dwindled down almost to the point of nothing. A bas McLain!

But if McLain was repudiated by most of his constituents he had the satisfaction at least of having the support of his late opponent, Joe Mansfield, who haunted the New High-street polling place and talked against the bonds till he was red in the face; but, then, Joseph is always of a ruddy countenance.

BURNS WAS NEUTRAL.

One of the veteran politicians of the Second Ward, John Burns, was a member of the election board in Precinct 5. Burns was a supporter of the bonds, but did not take an active part in the campaign. "This is the first time in fifteen years," said the aged veteran, "that I have not been in the fight when an election was on. I had sense enough to keep out this time, but they pressed me into service on the election board just the same."

J. A. Shepard and "Charley" Hart voted in Precinct 6 for the bonds, and exerted some wholesome influence in carrying the precinct for the bonds by the handsome majority of 229 to 57, a little better than 4 to 1, and the precinct is part of Councilman McLain's ward at that.

THIRD WARD HOODOO.

Councilman Frank Walker was the chief hoodoo of the anti-bond push in the Third Ward. He held forth on the steps of the City Hall nearly all day, fuming and arguing and sweating. Angry constituents remonstrated with him for aligning himself with the opposition to the bonds on such fallacious grounds as set forth in the various long-winded pronunciamentos which he fulminated during the campaign, but Walker was stiff-necked and would not budge an inch from his ill-chosen position.

The City Hall, the polling place for Precinct 13, was the storm center of "antis" in the Third Ward. Walker was going to carry consternation into the ranks of the majority of the Council, by getting a majority against the bonds right at the seat of the municipal government. S. A. Waldron and other more or less able lieutenants were on hand to aid Walker in storming the polls and rolling up a majority against the bonds, but their combined efforts resulted in netting only 55 votes as against 319 for the bonds, a verdict of nearly 6 to 1 against the "antis." The total vote in the three precincts of the Third Ward was 696 for, to 138 against the bonds, the proportion being a little more than 5 to 1 in favor of the proposition.

GRAFTERS' DISGUSTED.

Tom Donohue and other well-known political grafters, who are usually very active around the City Hall precinct on election occasions, were on hand yesterday, but they simply stood around and looked wise and disgusted. Evidently Col. Mazuma had not showed up to tell them how to vote or to influence them to bring other pliable voters to the polls. When asked why it was that the gang was so inert, one well-known member of the Third Ward push said:

"You see, it's just this way. The water company and nobody else ain't passing around any dough. So what's the use of the boys to get out and hustle for votes. The fellows that's used to getting a dollar or two, or a few good cigars or something of that kind on election day, ain't going to knock off from their regular work to vote for or ag'in' bonds, when there's no office or anything of that kind at stake, or if they don't get anything for their vote. I never saw an election where there was so little in it as in this, and you can look for an almighty light vote."

FOR AND AGAINST.

Charley Fusselehr, the ex-assistant chief of the fire department, left his bed in the hospital to which he has been confined for some months, to get in a vote for the bonds. Ex-Assistant Fire Chief Ed Smith, on the other hand, was out working against the bonds, and he predicted their defeat, but Smith was simply talking through his hat.

"ZEE" GOT THERE.

The Imperial Fourth Ward distinguished itself as usual by giving an overwhelming majority on the right side, the vote being 1012 for, to 246 against the bonds. There were few incidents of note at the polls in this ward, except in Precinct No. 11. When F. J. Zeehandelaar, secretary of the Merchants' and Manufacturers' Association, presented himself at the polling place, corner of Eleventh and Bentous streets, to vote, at noon, he was very promptly turned down. Zeehandelaar, as is well known, was an ardent advocate of the bond issue, and he was exceedingly wroth when informed that he could not vote, because his name was not on the registration list provided for the election officers by the City Clerk. Zeehandelaar produced a certificate from the County Clerk attesting that he was duly registered and transferred from one election precinct to another, but for some reason his name was not on the list. Zeehandelaar insisted upon voting, however, and after the election board consulted legal counsel, he was permitted to cast his ballot, which was for the bonds.

JOKE ON MILLER.

The Fifth Ward also went overwhelmingly for the bonds, the figures for the three precincts of the ward, combined, being 713 for, to 133 against. There were no incidents of note, except in Precinct No. 16, in the University district. There was much amusement at the polling place there, at the expense of E. A. Miller, one of the most bitter opponents of the water compromise.

Miller has been fighting the bond proposition ever since its inception, and he was one of the first on the ground yesterday morning in his home precinct, to rustle for votes against the bonds. Miller felt it his duty to argue his fellow-citizens into his way of thinking, and he had such great confidence in his argumentative powers that he was ready to lock horns with any advocate of the bond proposition. You can't stop Miller when he once gets his jaw in action.

The joke on Miller lies in the fact that W. J. Bryant, a supporter of the water bonds, with malice aforethought, engaged Miller in an argument at the earliest opportunity yesterday morning, and kept him engaged until 'way long in the afternoon. Miller's palaver was a sheer waste of ammunition on Bryant, for the latter had already voted for the bonds, and he was simply "chewing the rag" with Miller in order to prevent him from hustling up votes for the opposition. The result was only thirty-one votes cast in the precinct against the bonds to 184 for them. However, had Miller been given a chance to exercise his eloquence on all the voters of the precinct, it is doubtful if the result had been different, as the people of the southwest are pretty sensible on all subjects affecting the city's welfare.

NEWBERRY'S NERVE.

The opposition was not very strong in the Seventh Ward, for the antis saw their finish early in the game. Some of the anonymous-circular push came around, but did not stay long, for there was practically nothing doing except votes for the bonds.

Things were very quiet in Precinct No. 22, which contained general election precincts Nos. 53-3-4-5. This was the home precinct of John R. Newberry, and he furnished about the only incident of the day.

He did not go down to vote at No. 464 East Third street until about 3 o'clock, but when he did go he completely paralyzed the electoin officers and the few men around the booth by riding in one of the "vote-for-bond" carriages, notwithstanding the fact that he was one of the most radical opponents of the bonds. The ships in port immediately saluted the commodore with several broadsides in the shape of hard jollies over his arrival, and it is said he was informed by some one that his vote against the bonds would be the only one cast in the precinct. The jokes all belonged to the other fellows, but Mr. Newberry bore up under them as well as he could and even tried to parry the M. & M. Association straw vote by calling it the work of Secretary Zeehandelaar.

Even though he had fearfully and wonderfully surprised the visitors at the polling place by going there in a "bond carriage" to vote against the bonds, he finished the crowd by asking that he be taken up town by the bond men. They would not stand for this at first, but finally it was agreed to give him a ride up town. Charlie Alexander said he would do the errand, but declared he would not take Newberry up on the main streets. The two men got into Alexander's buggy and Alexander drove Newberry up to San Pedro street near Second, where the grocer was dumped in front of his own stable.

Alexander told him to go in and lie down on the hay and quiet his nerves.

TROUBLE IN "DE ATE."

Up in "de Ate" ward the usual little election excitement came off according to programme, but it did not result in any black eyes or broken lids. "De Ate" turned the "aunties" down good and hard, for of the 499 votes cast in the ward 394 favored the bond issue.

Some of "de aunties" were around trying to do something, but what was the use, Kilmer, Joe Mesmer, Hewett, ex-Dog Catcher John O'Lafferty and A. L. Apffel the jeweler on Broadway, were a few of the busy satellites.

Hewett, who was chairman of that "ferninst-the-bonds" committee, got up at 4 o'clock in the morning and sneaked around through the dark streets of "de Ate" tacking up little red paper notices which offered "$350 reward" for any "repeating" or the offering of money for votes. Mesmer and Apffel drove around to a number of precincts sizing up the situation, but they saw nothing to look at. Apffel tried to do a little work in precinct No. 26, where the polling place was at Vignes and Turner streets, but it was up-hill work. O'Lafferty, ex-dog catcher, attempted to do his work at precinct No. 25 at Jackson and Wilmington streets, but he was so coarse that he was put out of the business.

According to his own story he opened the polls himself shortly after 5 o'clock in the morning and held office there until the regular election officers came and put him out.

Ballot Clerk H. Henderson says that he unlocked the door of the polling place shortly before 6 o'clock, almost all of the election officers being present. As soon as the door was opened O'Lafferty butted into the room and at once began to jaw about some of the election officers being late, and got into an argument with Inspector Charles Gurson, relative to being sworn in as an election judge. Not knowing that he did not have a right to the office, Gurson was about to swear him in when the legally-appointed judge, F. Clavere, arrived and O'Lafferty, ex-dog catcher, was put out. Thus many "fernins" votes were lost to the McFarland-Walker-Klimer crowd.

O'Lafferty hung around the precinct the greater part of the day trying to do some damage, but failed. He declared the returns would be contested and thrown out; that there had always been trouble in that precinct, and there always would be. It is the one, by the way, that was so long in dispute in the Hanley-Patterson supervisorial contest, and which finally elected Hanley. The ex-dog catcher's bold attempt to steal a seat on the board certainly shows that there was "something doing," but that he failed to deliver the goods.

AMONG THOSE PRESENT.

There were few interesting incidents either in the Sixth or Ninth wards, the contest being very one-sided in both, and won almost by default.

One of the most indefatigable workers for the bonds was ex-Councilman T. L. Hutchison ("El Hutch," of fragrant memory.) "Hutch" was "among those present" here and there and everywhere, sizing up the situation and encouraging his friends, retainers and even his political enemies to vote for the bonds.

There was really very little electioneering done by the friends of the bonds. There were few carriages in service to bring voters to the polls, and but for the frantic efforts of the anti-bond committee to make a showing, there would have been almost a dead calm around the voting places.

PASSENGER AGENTS COMING.

Chamber of Commerce Takes Action Looking to Their Entertainment—To Boom Summer Resort.

At a meeting of the board of directors of the Chamber of Commerce yesterday, Director Rule reported that the convention of passenger agents would be held in this city in November. The party will be accompanied by from fifty to seventy-five ladies, and one thing decided upon was that the ladies should have a tallyho ride about the city. Messrs. Rule, Norton and Kerckhoff were appointed a committee to confer with the local committee of railroad men, and represent the Chamber of Commerce in the entertainment of the guests.

It was decided by the board to issue new literature, setting forth the advantages of Los Angeles as a summer resort, for circulation in the East.

Resolutions adopted by the Chamber of Commerce of San Francisco, commending the transcontinental railroads for the granting of low rates to home-seekers, and condemning the action of ticket brokers for diverting these tickets from their intended purpose, were read and referred to the Committee on Transportation.

Walter J. Bailey was elected a member of the Chamber of Commerce

After Marriage

They are going to be together just as much as before; going to ride the same little pleasure jaunts, etc., enjoying everything together. Isn't that so many a young couple promises each other? And yet, how very many of them will begin to say with a sigh: "No, I don't think I care to go. You go alone, dear." Young women don't reckon on the great physical changes which follow marriage. How can they when they are allowed to grow up in entire ignorance of vital physiological facts? They feel languid, weak and nervous. Sometimes there is headache and backache. The pains no more leap in answer to the thought of a spin on the wheel. Women who have used Dr. Pierce's Favorite Prescription, know how promptly the languor, headache, backache, nervousness and weakness are cured by this medicine. Many husbands write in gratitude to Dr. Pierce for the health which gives them back the wife of their bondship, as it gives her back to him.

"All praise is due to you for preparing a prescription," writes Mrs. [illegible], of Hillsboro, Casey Co., Ky. "I suffered with female irregularity, failing to feel every three weeks. After using one of Dr. Pierce's Favorite Prescription's pamphlets, and has not suffered an hour's pain since. Your 'Favorite Prescription' is a boon to delicate women."

There is no alcohol in "Favorite Prescription," and it is entirely free from opium, cocaine and all other narcotics.

BE A MAN AMONG M

Are you the man you ought to be? Are you growing as you look? Or have you been robbing at last vital power, wasting your substance, your memory, dull and sluggish, weak back of a great [illegible] Breaking down of your power?

HAVE YOU DOCTORED WITHOUT RESULT? Is your stomach refractory and your memory poor? Are you trying many nervous remedies? Then come to us. We have a positive and certain cure for you in

Dr. McLaughlin's Electric

You put it on when you go to bed and practically under the influence of it you [illegible] power. You awake full of vigor with a healthy desire to tackle the day's work. Each day you gain new [illegible] and soon begin to feel yourself a new man. Both symptoms and cause of your trouble [illegible] and strength takes the place of weakness. In a [illegible] you will be happy to be rid of your old health and vigor.

A WONDERFUL CURE.

DR. M. A. McLAUGHLIN—Dear Sir: I have used my pupils from varicocele and [illegible] Electric. I received with [illegible] and [illegible] a great deal of money without any benefit. As a last resort I tried your electric belt and in six weeks the vital weakness was entirely cured and the varicose veins reduced to their natural condition. I am happy to say I have gained more than any other remedy I have ever used. Your 'Favorite Prescription' is a boon to delicate women."

There is no alcohol in "Favorite Prescription," and it is entirely free from opium, cocaine and all other narcotics.

AMERY MILK. The price of ery brand canned milk is now in small lots.

UCOSE ADVANCE. The price of se has been advanced step by step corn began to go up, until it is 40 cents higher than at the be- ing of these advances.

PICE MARKETS. W. H. Bennett the Spice Mill says:

spices, the market is quiet, as always is when there is very lit- speculation. In the matter of pep- there is a little rise; with the all stocks on the way to Europe, small stocks here, and no more, ming than we will need, the market should be considerably higher; but it seems that sentiment is stronger than statistics.

Cassias are slightly stronger.

Cloves to import would cost today % to 7¾ cents, but as parties here are selling short, it would be possible to buy a contract at considerably less, and small lots at that price.

Cochin gingers are scarce and the high prices fully warranted by the edition.

Nutmegs are lower than they ever e, and while at present there seems be little prospect of any advance, that very fact would make it worth while of a speculator to keep his on them.

GENERAL BUSINESS TOPICS.

TO MAKE GOOD COCOA. (L.) Start h a pure cocoa of undoubted qual- and excellence of manufacture, and ch bears the name of a respecta- firm. This point is important, for e are many cocoas on the market ch have been doctored, either by addition of dilsalt, starch, malt, hops, etc. The treatment of kola alkali is to render it more mis- with water; and, therefore, a co- which seems to dissolve very freely ater should be regarded with sus- on. If the cocoa thickens very in the cup, even though a small ntity is used, it probably points to addition of starch, which lowers nutritive value of the beverage. addition of other constituents is essary and has no good effect, on the contrary, may be posi- harmful.

With a little warm water or milk, ghly reduce the powder to a fine, batter, carefully crushing down lumps.

Pour on boiling water as quickly possible, stirring rapidly. It is nec- sary that the water should be really ing; if just below boiling point a tter mixture is not obtainable. If ilk be employed, it should also be a boiling point.

Cocoa prepared in this way forms, with water or milk, a perfect mixture, and leaves no sediment in the cup. It s a good plan to stir the contents the cup now and again between the rvals of drinking.

As cocoa is to be prepared in large antities for catering, the best plan is bring the water to the boil, and n gradually add the powder to the ing water, constantly stirring.—rers' Gazette (London.)

TRUS-FRUIT SHIPMENTS. There shipped from Southern California nesday four carloads of oranges. otal shipments for the season, ber 1, 1900, to date, are 23,592 s, of which 2660 were lemons.

NEW YORK MARKETS.

SHARES AND MONEY.

RE NEW ASSOCIATED PRESS—P.M.)

YORK, Aug. 28.—The stock market ued irregularities again today. The of transactions fell below half a shares, and the mixture of net at the close is wholly without sig- ance, except as a reflection of the Inde- dwelling in the speculative minds. ention was paid to any news of the ed fact, there were no occurrence any important bearing on the values of securities. The bear traders made a feeble tentative raid, shortly after the opening, but the offerings of stocks proved so small that they became intimidated and brought back again, covering short lines which were left over from yesterday. The success of yesterday's raid seems to have been due to an encounter with some particularly weak speculative lines, which represented little more than a froth, easily blown off the surface of speculation. Today showed stocks tenaciously held again, notwithstanding the extreme listlessness of the demand. Signs of renewed weakness in the corn market, after the opening dealings, induced some covering of shorts in stocks from western sources, but these were not put out again when corn rallied later. The approach of a three-day hiatus in the stock market, with possibilities of adverse or unfavorable developments in the interval, was enough to dissuade either the bulls or the bears from committing themselves for that length of time, and to this deterrent influence may be added the recognized possibility of the marking-up of call loans Friday. The reopening of the dispute between France and Turkey had some influence upon foreign markets today, which was emphasized by the discouraging view caused by the prolongation of the Boer war. On the other hand, a settlement of the steel strike is believed in Wall street to be possible at any time. The market closed dull and heavy. There was less doing in railroad bonds than yesterday, but prices were about steady. Total sales, par value, $1,300,000. United States bonds were all unchanged on the last call.

London Financial Market.

NEW YORK, Aug. 28.—The Commercial Advertiser's London financial cablegram says: "The stock market today was very slack, but firm. Consols early in the day were heavily sold, supposedly on account of the French financial outlook, but rallied later. In the best-informed quarters the incident is not seriously regarded. American stocks were very narrow, but good here, until New York selling developed which brought them near parity. After the close there was a sharp rally in the street, the leaders being Atchison, Norfolk and Western, Southern Pacific and Union Pacific, all of which advanced on New York buying orders. Business here was, however, at low ebb. Commission houses sold this morning for an American resident on this side 10,000 shares of Southern Pacific and 5000 shares of other stocks. Trunk line stocks touched par for the first time since 1894."

New York Money.

NEW YORK, Aug. 28.—Money on call steady at 2½@3 per cent. Last loan, 3½ per cent. Prime mercantile paper, 4½@5 per cent. Sterling exchange weak, with actual business in bankers' bills at 4.83½ for demand and at 4.84½ for sixty days. Posted rates, 4.86@4.86½ and 4.87½@4.88. Commercial bills, 4.83¼@4.84. Bar silver, 59½. Mexican dollars, 46¾. Government bonds steady; State bonds strong; railroad bonds, steady.

Treasury Statement.

WASHINGTON, Aug. 28.—Today's statement of the condition of the treasury balances shows: Available cash balance, $176,824,039; gold, $105,530,066.

London Silver.

LONDON, Aug. 28.—London consols, 84 7-16. Silver, 27.

GENERAL EASTERN MARKETS

GRAIN AND PRODUCE.

[BY THE NEW ASSOCIATED PRESS—P.M.]

CHICAGO, Aug. 28.—Wheat ruled weak at the opening, and prices were a shade lower, the bear feature, being the heavy Northwestern receipts. Under the influence of the strength in corn, steady cables and reports of good cash demand, both at Duluth and New York, prices advanced, but later, in sympathy with corn and lack of outside support, the market weakened again. Liquidation was the prevailing feature, with but little new buying demand. December opened ¼ to ⅝c lower at 71¾@72, and after an early advance to 72¾@72¼, prices gradually sagged, the low point being reached at 71¼. The close was ⅝c lower at 71⅜. There was considerable strength exhibited early in corn, brought about by renewed buying, mostly on short account. Local longs and many commission-house bulls were disposed to unload their holdings, influenced by the relatively large receipts, reported improvement in crop condition and slow export demand, and a reaction followed. December closed with a loss of ⅝ at 69¼@69⅝. Oats followed corn early in the day. December closed ⅛c lower at 35¾. Provisions opened steady, with prices a shade lower. The feature to the trading was the liquidation resulting from the steady advance on both near-by and deferred deliveries during the past week. The close was 5c lower for pork and lard, and 7½c lower for ribs. The leading futures closed as follows:

	Closing.
Wheat, No. 2—	
September	69¼@69⅝
December	71⅜
May	75¾@75¼
Corn, No. 2—	
September	63½@64
December	66¼@66⅝
May	68⅝
Oats, No. 2—	
September	32⅜
December	35⅛
May	37¼

Cash quotations were as follows: Flour was barely steady; No. 3 spring wheat, 67¾@69; No. 2 red, 71¾; No. 2 yellow corn, 58¾@65½; No. 2 corn, 64¾@65½; No. 2 white, 67¼@67¾; No. 3 white, 64¾@65; No. 2 rye, 55; fair to choice malting barley, 55@62; No. 1 northwestern, 1.52; prime timothy seed, 5.25; mess pork, per bbl., 14.25@14.35; lard, per 100 lbs., 8.35@8.37½; short ribs, sides (loose) 8.15@8.25; dry salted shoulders (boxed,) 7¼@7⅝; short clear sides (boxed,) 8.25@8.40; whisky, basis of high wines, 1.30; clover, contract grade, 9.75@9.85.

Gross sale, $1350. Car from Hemme: Pears—Bartletts, 2.40@2.60, average 2.52, box; 1.10@1.40, average 1.21, half box. Gross sale, $1310. Ten cars of fruit sold today.

Boston Wool Market.

BOSTON, Aug. 28.—The American Cotton and Wool Reporter will say tomorrow: "The wool market continues firm. The demand, however, has been mostly from the smaller mills, the larger consumers having satisfied their needs for the time being at any rate, and the volume of sales during the past week has been less than that of the previous week. The receipts of wool at Boston this week amounted to 24,347 bales, against 32,216 bales last week and 15,946 bales last year. Shipments of wool for the week ending August 24 aggregate 25,697,679 pounds. This shows a decrease of 624,080 pounds over the shipments of 1,321,767 pounds for the previous week. Since January 1 the total shipments amount to 167,711,667 pounds. The sales of the week in Boston amounted to 2,900,000 pounds domestic and 150,000 pounds foreign, making a total of 4,350,000 pounds against a total of 5,192,800 pounds for the previous week, and a total of 3,298,000 pounds for the corresponding period of last year."

New York Metal Market.

NEW YORK, Aug. 28.—In local metal circles tin ruled rather quiet all day, but about steady, with the asking rate somewhat higher, while buyers refused to bid any more than 26.50 for spot tin. The close was steady at 26.50@26.87½. An advance of 12s 6d was scored in London. Copper in London declined 3s 3d. Here the copper market was featureless and nominally unchanged at 18.50 @17.00 for lake, and 17½@18 for casting. Lead was dull and unchanged at home and abroad, closing here at 4.37½. Spelter ruled inactive, but about steady at 4.37½. Iron continues inanimate and nominal at 16.00 for pig iron warrants.

New York General Markets.

NEW YORK, Aug. 28.—Wheat, spot, easy; options closed weak, ⅛c net decline. September closed 75¾; October closed 75¼; December, 71¾. Hops, easy. State, common to choice, 1900 crop, 11@15c; Pacific Coast, do, 11@13. Hides, steady. Wool, quiet. Coffee, spot Rio dull; No. 7 invoice, 5¾; mild, dull; futures closed unchanged to five points higher; September, 4.75; October, 4.85; November, 4.90; March, 5.15@5.20; June, 5.40@ 5.50.

California Dried Fruits.

NEW YORK, Aug. 28.—The market for evaporated apples ruled comparatively quiet, only a hand-to-mouth business being executed at old prices. State, common to good, 2@7c; prime, 8½@9; fancy, 9¼@10c. California dried fruits ruled quiet and unchanged. Prunes, 3¾@7. Apricots, Royal, 8¼@13; Moorpark, 10@12. Peaches, peeled, 11@13; unpeeled, 4@6½.

New York Cotton Market.

NEW YORK, Aug. 28.—The cotton market opened firm, with prices one point lower to four points higher, and immediately following the call displayed strength on room covering, moderate buying and absence of selling pressure. The market finally was steady, net 4 to 6 points lower.

New York Dairy Market.

NEW YORK, Aug. 28.—Butter—Receipts, 6542 packages; barely steady; State dairy, 14@19; creamery, 16@20; June packed factory, 14½@15½. Eggs—Receipts, 7098 packages; firm; western candled, 17@17½; western, uncandled, 14@17½.

New York Sugar.

NEW YORK, Aug. 28.—Sugar, raw quiet; fair refining, 3¾; centrifugal, 96 test, 4c; molasses sugar, 3 1-32; refined, quiet; crushed, 5.75; powdered, 5.55; granulated, 5.45.

St. Louis Wool Market.

ST. LOUIS, Aug. 28.—Wool, steady; western and Territory, 14@16; fine, 11@13; coarse, 11@14.

Oil Transactions.

OIL CITY, Aug. 28.—Credit balances, 1.25; certificates, no bids.

Liverpool Cotton.

LIVERPOOL, Aug. 28.—Cotton, uplands, 4 14-16d.

EASTERN LIVE-STOCK MARKETS.

DENVER CLOSING FIGURES.

[BY THE NEW ASSOCIATED PRESS—P.M.]

DENVER, Aug. 28.—Cattle—Receipts, 250; weak to lower; beef steers, 3.25@4.75; cows, 2.00@2.90; stockers and feeders, freight paid to river, 3.00@4.00; bulls, stags, etc., 2.00@ 2.40. Hogs—Receipts, 300; steady to stronger; light packers, 5.25@5.60; mixed, 5.00@5.10; heavy, 4.15@5.20. No sheep.

Receipts.

SAN FRANCISCO, Aug. 28.—Flour, quarter sacks, 12,000; wheat, centals, 120; barley, centals, 9790; oats

San Bernardino, Riverside and Santa Barbara Counties.

HELD WITHOUT BAIL ON CHARGE OF MURDER.

LIVELY TIME IN A SAN BERNARDINO COURT ROOM.

Witness Uses Justice's Gavel as Weapon Against Defendant—More Money Needed to Repair Roads—Rancher Seriously Injured.

SAN BERNARDINO, Aug. 28.—[From The Times' Correspondent.] "Gyp" Adams was today held to answer without bond in the Superior Court on a charge of murder, for having caused the death of "Mother" Mills by throwing a lighted lamp at her in a house of prostitution in the tenderloin district. The crime was committed Saturday night. The old woman's clothing caught fire, and she was fatally burned, death ending her suffering the following morning.

Today's hearing was before Justice Thomas, and was replete with incident, while Bessie Turner, another inmate of the Mills house, was on the stand. Bessie's testimony was straight against "Gyp," who, not being represented by a lawyer, proceeded to cross-examine the witness.

"Aren't you a dope fiend?" she asked. Bessie responded that "Gyp" was a liar, and followed up the response by throwing the court's gavel at "Gyp's" head. It missed its mark, whereupon Bessie seized the lamp that caused "Mother" Mills's death, and started for the defendant. An officer took her in hand, and she was fined $10 for contempt of court, which she paid. After several other witnesses had been examined, "Gyp" was sent back to jail.

MORE MONEY NEEDED.

When the Supervisors next meet, on September 10, they will fix the county tax levy for the coming fiscal year. It is probable that it will be a few cents higher than last year, or about $1.40 on the $100, the increase to be made in the road fund, to allow the Supervisors to make some much-needed repairs on the county bridges, and improve the roads. The trustees of the various school districts have sent in the following estimates as to the amount of money that will be required for the schools during the coming year: Redlands district, $4500; Union High School, Redlands, $10,000; Highland, $1000; Cram, $585; Rialto, $750; San Antonio, $600; Mountain, $400; Ontario, $2500; Ontario High School, $8500; Colton High School, $2500.

RANCHER BADLY HURT.

M. Sullivan was brought to the County Hospital today from Glenna Ranch suffering serious injury as the result of a fall from a load of hay. His right arm, elbow and hip were broken, and it is feared he sustained internal injury.

WILL MAKE MORE ICE.

The ice plant on I street, near Third, has been shut down for repairs. It is proposed to enlarge the plant extensively, increasing its daily freezing capacity from eighteen to about fifty tons. The plant, which is owned by the ice combine, has been found entirely inadequate during the past summer to meet the demand, the result being the shipping in of thousands of tons of ice from the North. It is thought that work on the improvements will be commenced next month. During the shut-down, the company's local patrons will be supplied from the Crafton plant.

WATER AT WEST RIALTO.

The people of West Rialto are rejoicing over a new strike of water, which seems to insure an abundant supply to irrigate their orchards. A pumping test made Sunday at a well recently sunk just north of Base Line demonstrates that a steady supply of water, probably fifty inches, can be obtained from that source. The water stands sixty feet in the well. It is proposed to sink other wells, and if it is found that an abundant water supply can be obtained, much new land will be planted to citrus fruits.

WILSON BANKRUPTCY CASE.

B. H. Denis of Los Angeles, trustee of the T. J. Wilson estate, has petitioned Charles L. Allison, Esq., of this city, referee in the bankruptcy proceedings, asking for the privilege to sell the property owned by Wilson. All creditors who do not desire the sale made are ordered by Mr. Allison to make their complaint on or before September 9. If no sufficient cause is shown why the property should not be sold, the sale will take place in Los Angeles on September 12. It is believed that the assets of the estate will about equal the liabilities, which aggregate about $7000.

SHOT IN THE EYE.

Fred Keller, the fifteen-year-old son of Nathan Keller, received a shot in the eye yesterday that may cause the loss of sight of the organ. The boy started with his uncle yesterday afternoon to drive to Los Angeles. Near Rialto, they saw a coyote. The uncle started off in the brush to get a shot at the animal, the boy going in an opposite direction in chase of a rabbit. A little later the uncle, not knowing the whereabouts of the boy, fired. The shot scattered through the brush, one of them striking Keller on the outer angle of the eye and passing around behind the ball. He was brought back home and a physician summoned.

SAN BERNARDINO BREVITIES.

The decision of Judge York yesterday in the mandamus proceedings instituted by ex-Judge Campbell to compel the County Treasurer to cash salary warrants drawn in his favor, will not end the contest. The decision was in Campbell's favor, but Judge B. F. Bledsoe will appeal the case to the Supreme Court.

Several small mountain fires have been started during the past two weeks near the crest between Fredalba Park and Bear Valley, by lightning.

The Supervisors have appointed Dr. J. O. White deputy county health officer at Barstow, with a salary of $14.33 a month.

L. V. Root has been appointed Justice of the Peace at Needles to succeed James Carroll, resigned.

Miss Frances Newmark of Los Angeles is visiting her cousin, Mrs. Joseph Israel.

Mrs. George Cook of Victor, Cal., is visiting her mother, Mrs. J. W. Taylor.

Mrs. Dora Jones of Los Angeles is a guest at the home of Mrs. G. N. Gish.

Officer T. J. Stark left this morning for the mountains on an outing trip.

Mrs. C. E. Payne and son of Los Angeles are at Squirrel Inn.

E. H. Suddarth and son are back from San Diego.

Rev. Paul Kinsey left yesterday for Dallas, Tex.

Walter Byrne left yesterday for San Francisco.

C. A. Lathrop has returned from Catalina.

REDLANDS.

FINE RESIDENCE BURNED.

REDLANDS, Aug. 28.—[From The Times' Resident Correspondent.] A mysterious fire occurred at 9:30 o'clock this morning that completely destroyed the fine residence of James Williams at No. 511 Cajon street. The blaze was first noticed by some carpenters working on a dwelling near by. Part of them went to turn in an alarm, and the others broke in some of the lower windows of the house in order to gain an entrance. The fire had gained so much headway, however, that their efforts had to be confined to saving as much of the contents as possible. The fire department responded promptly, but the building was practically ruined then, as the wind blew the flames rapidly through the house. The loss is not yet known, as little is known as to the value of the contents of the place that were saved. There was only partial insurance.

The Williams family was at the beach, and only Mr. Williams was occasionally staying in the house. There was a small oil stoved used for water heating in the rear, and though Mr. Williams says this was not burning, it is the general opinion that the blaze originated there.

REDLANDS BREVITIES.

Three new dwellings have been completed and turned over to their owners this week, and thirteen more are in course of construction.

The electric company's new work in the Santa Ana Cañon is being delayed on account of difficulty in getting surveyors, of whom there seems to be a great scarcity.

The lumber companies are having great difficulty in getting in sufficient material for house building. One company has had twelve cars this week, and has an much more on the way.

The Epworth League here has appointed C. H. Sargent, C. G. Rohrer and Miss Clara Eaton a Nominating Committee to present names of new officers to be voted upon at the next meeting.

C. H. Seamans has accepted the secretaryship of the Long Beach Y.M.C.A. and will be tendered a reception by the Y.M.C.A. here before his departure. Mr. Seamans has been very popular in Redlands.

ONTARIO.

WILL APPLY FOR FRANCHISE.

ONTARIO, Aug. 28.—[From The Times' Resident Correspondent.] The Edison Electric Light Company of Pomona will present an application to the Town Trustees, at their regular monthly meeting next Tuesday evening, for a franchise to erect poles and lines over the public streets in the town of Ontario. Agents of the company have been at work here for the past three or four weeks, and already have secured orders for about 700 lamps, under a contract for a year. Machinery for the plant was ordered ten days ago, and if enough business can be secured, a sub-plant will probably be established here.

ONTARIO BREVITIES.

Work at the mines of the Bullion Mountain Mining and Milling Company will be resumed about September 1.

The Cucamonga Water Company has let the contract for the removal of 27,000 yards of dirt from the reservoir between North Ontario and Cucamonga, known as the Red Hill reservoir. This reservoir is to be cemented also. The cost of the removal of the dirt and cementing is estimated at $2500.

The pay roll at the Ontario cannery has been increased to 400 and $2000 a week is paid out for help, exclusive of salaries to officers, at the cannery.

SANTA BARBARA.

MANY NEW BUILDINGS.

SANTA BARBARA, Aug. 28.—[From The Times' Resident Correspondent.] Many buildings are being erected in this city, and real estate has taken quite a boom. The principal one is the new High School, for which the excavating has begun, and a number of men and teams are at work on the site. Among the residences, that of Mrs. A. L. Lincoln is almost finished. It is situated on De la Vina street, just above Micheltorena, and is a shingle cottage with all modern improvements. Mrs. H. W. Muzzall is erecting a residence on De la Vina street, near Valerio, and Miss Simpson is having one built on Arrelaga street near Chapala. Mrs. Benjamin Douglas is having two houses erected on Arrelaga street, at the corner of Garden, one of which she will occupy.

MAY VACATE THE OFFICE.

A surprise was sprung when a petition was filed in the Superior Court, asking for the removal of A. M. Ruiz from the office of Public Administrator, on the ground that he had not secured new bondsmen, as ordered by the Board of Supervisors some time ago. The order was given on account of the death of two of the old bondsmen and departure from the State of another.

Mr. Ruiz has been ordered to appear before Judge Day of the Superior Court on August 31 to show why the bond has not been filed, and why the office should not be vacated.

SANTA BARBARA BREVITIES.

Rev. Robert J. Burdette will be here on August 30 and give his lecture entitled "Good Medicine." The proceeds will be used by the Santa Barbara fire department to receive and entertain the members of the Veteran Volunteer Firemen's Association of California, who will spend Admission day in this city.

E. W. Hadley left this afternoon with his family for New York. His oldest son will enter the Massachusetts Institute of Technology, and Miss Hadley will take a course at Swarthmore College, Swarthmore, Pa. They will return to their home here in the spring.

The steamer Santa Rosa sailed for San Francisco tonight with twenty passengers and some freight.

Charles Cavanaugh left tonight to resume his studies at the University of California Dental College.

The Misses Trenwith left for San Francisco tonight, and Mrs. Trenwith will follow them a little later.

A. H. Redington, J. J. Boyce and W. L. Jackson and wife were among the passengers who went north on the Santa Rosa tonight.

HELD TO ANSWER ON A SERIOUS CHARGE.

CORONA BOY CHARGED WITH ASSAULT ON A CHILD.

Taken to Riverside and Placed in Jail—New Fruit Shipping Firm to Build a Large Packing House—Electric Car Service Resumed.

RIVERSIDE, Aug. 28.—[From The Times' Resident Correspondent.] Bert Devaughn, a fourteen-year-old boy, had a preliminary hearing today before Justice Webster of Corona, and was bound over for trial in the Superior Court on a charge of criminally assaulting an eight-year-old daughter of Mrs. Percilla Robinson. The crime is alleged to have been committed last Sunday during the absence from home of the Devaughn family, when the boy enticed the girl into the house. Dist.-Atty. Lyman Evans conducted the prosecution, and after the hearing the boy was brought to Riverside in the custody of the Sheriff.

NEW FRUIT FIRM.

Frank E. Godfrey and A. L. Woodill have formed a partnership under the firm name of Woodill & Godfrey, and will engage in the business of buying, packing and shipping fruit. They have leased a packing-house, fitted up with modern machinery for preparing fruit for shipment, at Thirteenth street and Pachappa avenue. Both members of the new firm have lived in Riverside for years, and have had long practical experience in the fruit business.

RIVERSIDE BREVITIES.

The City Trustees have deferred action in the matter of the proposed adjustment of the rates charged the Riverside and Arlington Railroad for power until September 10, at the request of Manager Miller, on which date Mr. Pemberton, an expert from Santa Barbara, will appear before the board to enlighten them on the subject of proper prices for electricity.

Charles Quast was yesterday awarded the contract for making the proposed improvements on Eighth street, between Walnut and Pepper. His bid was $6465.75.

The work of strengthening Victoria bridge has been completed, so that electric cars may now run over the structure.

Mrs. P. S. Castleman and son have returned from Los Angeles, where they have been the past two months.

Dr. A. S. Parker and family have returned from a month's outing in Bear Valley.

F. D. French and William Tattersall are back from a trip to Bear Valley.

Mrs. J. T. Jarvis and son are at Long Beach for a few weeks' stay.

Fred Briggs has returned from an eastern trip.

Mrs. C. H. Wood has returned from Coronado.

Mr. and Mrs. E. N. Waite are at San Diego.

E. E. Miller has returned from Coronado.

ELSINORE.

ELSINORE, Aug. 27.—[From The Times' Resident Correspondent.] The Elsinore grammar school will be opened September 16, with Homer Wilson as principal, and Mrs. Eisenhart assistant.

Delmar Holmes and Miss Lua Townsand, well known young people from Elsinore, were married at Arlington August 15.

Henry Langstaff and family have returned from a pleasant outing at the coast.

Mrs. Edmund McCoy and son, Gilbert, from Santa Paula, are guests at the home of G. L. McCoy.

Mrs. E. Z. Bundy is spending a week in San Francisco.

James Balfour has returned from a fortnight's visit in Los Angeles.

Mrs. Fred Bennet and child are guests of George Bennet and family.

A. E. Grow has returned from a visit with friends in Los Angeles.

Mr. and Mrs. E. V. Grisham have returned from a month's vacation.

THIS EDITION OF THE TIMES is served to subscribers at all points in San Bernardino, Santa Barbara and Riverside counties.

school, eleven from the higher Normal School, eight from the Tokyo Technical School, two from the Osaka Technical School, four from the Tokyo Fine Art School, two from the Tokyo School of Music, two from the Tokyo Foreign Language School, three from the Sapporo Agricultural College, two from the Girls' High School, two from the No. 1 High School and one from the No. 5 High School."

BASIS OF JAPANESE RELIGION.

There is no religious teaching in any of the Japanese schools, but the moral precepts as formulated in "Bushido" are the foundation of all mental training and development. "Bushido" is a Japanese name for what the Christian nations would term the Infinite Truth. It is simply the crystallization of those moral precepts which are inculcated by all religions. "Bushido" is the soul, productive of and animating all the Japanese religious form and expression. Whatever be the diversity of sect a common meeting ground is found in "Bushido" because it is simply the fundamental vitality, untrammeled by domgs, from which all religions spring. "Bushido" teaches the elements of all true virtue, to be upright in every thought and action, ethically and morally. So profound a philosophy, without any domga to impress or enforce it, was considered in olden times too difficult of comprehension for any but the educated classes, and so the difference between the higher and lower classes grew greater and greater, reaching its culmination at the height of the feudal system. Then the masters and retainers formed one class and the rest of the world the other. Buddhism taught these lower classes fidelity and obedience, while Shintoism was more the symbol of "Bushido." The only morality thought possible or comprehensible to the lower classes was absolute obedience and submission to those above them. As long as they paid their taxes and did as they were told no further ethical observances were required of them. It is this great educational difference between the upper and the lower classes which makes it so hard now in the education of Japan. The people at large have no real moral standard, now that the old conditions have been down away with, and the need is strongly felt of the necessity of some means of teaching the lower classes uprightness of life.

"Bushido" explains the reception of Christian missionaries in Japan. Among the higher classes it is felt that there is no need of change, because "Bushido" contains all that is fundamental and best in Christianity as in all other religions. It seems to the Japanese also that "Bushido" is better, in that it is not so incumbered with creeds and dogmas nor are its followers divided into almost numberless sects. As one Japanese lady said to me, talking about the efforts made by various clergymen to have her join the Christian church: "I don't know why I should join any church, but I am afraid that if I join one sect all my friends in others will imagine that I have done very wrong."

MISSIONARY EFFORTS.

There are some 4000 foreign missionaries in Japan preaching various editions of the Christian religion, and they have a fair amount of success, particularly among the lower classes. The Japanese gentlemen say that Christianity has superior fascination over "Bushido" for the masses, in that it has more mystery connected with it and more of the element of fear. At the time of the restoration there were about 8,000,000 believers in "Bushido," and assuming that there had been no increase it would mean that now about one in every forty of the Japanese people practice "Bushido." Thus if all of these 8,000,000 were to make an effort to spread "Bushido" it would be a comparatively easy task to do it, much more easy than it will be to Christianize Japan. "Bushido" has caused all religions to be welcomed in Japan, because it recognized the fundamental points of virtue of them all as its own precepts.

STUDIES IN MODERN EMPIRE BUILDING.

XI.—EDUCATION IN JAPAN.

[By Alfred Stead, fellow of the Royal Colonial Institute.]

THE Japanese are a much-educated people. They are extremely anxious to learn everything which will help them to maintain with honor the present position of the empire. When Japan was opened to foreigners after the restoration the people determined that education was necessary in order to keep equal with or ahead of the other powers. Thus special attention has always been given to education in all its branches. Twenty-seven years ago the system of schools was started and it was enacted that all children must attend school when they reached the age of 6 years. Soon the European educational systems had completely supplanted the old Japanese forms and grew very rapidly in magnitude. Although it is difficult to force the growth of education the past twenty-seven years have seen great changes, and now 85 per cent. of the children of Japan attend school.

There are thousands of schools and many technical and special colleges and institutions. There is a university in Tokyo and one in Kyoto of more recent foundation. Here every subject may be followed to the highest point and degrees are granted in all subjects. In the university there are departments of law, medicine, engineering, literature, science and agriculture. There are few foreign professors, although in the earlier days there were many. In connection with the engineering college it may be of interest to quote what the Marquis Ito told me about it:

"When I was in London engaged in my work of preparing the Japanese constitution, I was approached on the subject of forming a special engineering college in Japan. It was pointed out that the advantages would be very great for the country and that such a scheme of engineering education had never been carried out in any other country. Accordingly, I established the college and brought many foreign professors to Japan for that purpose. The Japanese engineers who are now running the most important concerns in Japan are trained at the college and can dispense altogether with foreign aid." Originally the engineering college was a distinct organization, but now it is joined together with the other colleges in the university.

THE JAPANESE STUDENT'S DIFFICULTIES.

It is interesting to note that although European and American school systems were adopted in Japan, great natural difficulties still remained to make a course of education in Japan harder than in any other country. I had a most interesting conversation with Count Okuma on this question. Count Okuma is one of the leading educationalists of Japan, besides having filled many of the highest offices in the government. He said:

"One of the great difficulties lying in the path of the Japanese student is that he has to study the literature of his country developed upon Chinese lines and ideas. He has to learn the Japanese and the Chinese characters and also at least one foreign language. Another difficulty peculiar to Japan is the difference of the written and the spoken languages. Formerly they used to be almost identical, but then came the era of Chinese literature in the country and much of the written language was written in Chinese characters, while the spoken language remained as before—Japanese. This state of things still continues. The inconvenience of it may be better understood from the fact that when a professor gives a lecture his students cannot take down his words, but must make a special compilation upon the same subject!

EDUCATIONAL REFORM SOCIETIES.

"The Japanese people are physically not strong—possibly owing to the long period of peace and ease which they have enjoyed—and yet they are called upon to overcome this great difficulty of a different spoken and written language. So much time must be devoted to study on this account that there is small leisure for the necessary physical exercises. If these are to be obtained then the number of years for education must be increased. This difficulty is a great obstacle in the way of educational development. Some twenty years ago this was realized and two organizations were formed for its reform. The first advocated the disuse of the Chinese characters and the use only of the Japanese alphabet (kana.) This society is known as the 'Kana Society.' The second desired the adoption of Latin characters in the place of both the Japanese and the Chinese. One of their most interesting arguments is that such characters would run horizontally instead of vertically, which is much better for the human eye to follow. For many years there has been much controversy between these two societies. Recently a new organization has been formed which advocates the reform of the speaking language, which has deteriorated, and by this reform to reform also the written characters. This latest society does not necessarily clash with either of the two older organizations, but it is difficult to decide which idea is best. So important is the question considered that a government committee has been appointed to investigate the matter."

STRIVING FOR EDUCATIONAL INDEPENDENCE.

There is another matter with reference to education in Japan upon which Count Okuma feels very strongly. He says:

"There is no such thing as independence of study in Japan. If you go to the university you will find law being taught in one room in English, in the next in French and further on in German. In no school or college used there to be whole courses of study conducted in Japanese. This was perhaps necessary during the transition period, but the need for it has passed now. This lack of independence of study is especially marked in the higher branches of education. I founded a college—the Seumon Gakko—where everything is taught in Japanese by Japanese professors. At first it was found very difficult because of the lack of Japanese text-books, so I founded a publishing department where the leading books upon important subjects should be translated. At first this was not remunerative, but now the books are sold very largely throughout Japan, and authors are encouraged to translate works into Japanese. I hope that now the government and the leading publishers will follow up the idea. There is still much of the old conservatism in Japan, and this makes it more difficult to introduce such ideas, but every such effort tends toward the good of Japan."

COMMERCIAL SCHOOLS.

Count Okuma's interest does not stop at the education of boys or at literary education alone. He was one of the foremost promoters of a college for the higher education of women, started in the beginning of 1901, and he has also started a middle commercial school. Of this he says:

"At present the school is only small, there being some one hundred pupils, but there is room for 300, and I hope soon that the full number will be obtained. The students of the third and fourth years in the middle schools are taken into this school without examination and study for three years. Then they are fitted to take any positions in the commercial word. I have advised the government to establish such schools in connection with all the middle schools. All the professors are Japanese except those employed to teach the English and Chinese languages. The English is a compulsory subject, but the Chinese is elective."

SENDING STUDENTS ABROAD.

One very good feature of education in Japan is the system employed of sending students abroad to study the best in every country. For instance, Mr. Sakalani, the Vice-Minister of Finance, told me that he had sent three persons to England this year, two to study financial conditions and one to study the construction of wharves and quays in connection with the government wharves to be constructed at Yokohama. The department of education and that of commerce and agriculture also send students abroad every year, who, returning, apply the lessons learned in foreign countries to the betterment of their own industries.

The government grants for the industrial training of the people amounted to 216,928 yen in the budget of 1901, which sum was divided as follows: Training of industrial, commercial and agricultural men, 46,928 yen ($23,464;) funds for industrial education, 238,750 yen ($119,372;) training of teachers of industrial sciences, $1,250 yen ($15,625.)

Two quotations from the Japan Times will show how important and systematic this sending abroad of students by the government is:

"The Department of Agriculture and Commerce is to dispatch fourteen persons abroad this year as students of business methods in the West, and these are to be selected from more than one hundred applicants in various parts of the empire.

"According to the latest inquiries made by the Department of Education the number of ryugakusei (students dispatched abroad by the government for the prosecution of their studies) at the end of March this year totaled 106, including three from the Education Department, thirty-two from the Imperial University of Tokyo, twenty-two from the Imperial University of Kyoto, nine from the higher commercial

SCHOLARSHIP CONTEST

GOOD-NATURED RIVALRY FOR "TIMES" PRIZE

Now is the Time for the Friends of the Young Contestants to Demonstrate the Interest They Feel by Giving Them Just as Many Votes as They Can.

THE CONTEST FOR SCHOLARSHIPS began August [illegible] will close September 10. The contestant who has the number of votes will be allowed first choice; the one with second largest, second choice, and so on.

Blanks for single votes may be cut out of the paper. Blanks for 40 votes and upward are to be had, free, by applying personally or by letter, to The Times office.

For one month's subscription, paid in advance, [illegible] be allowed; two months in advance, 80 votes; three months in advance, 125 votes; six months in advance, 250 votes; one year in advance, 500 votes.

These blanks also answer for a receipt to the person subscribing until a more formal one can be sent him from The Times office for the money he has paid the contestant, which will be sent as soon as the money is received.

Being already a subscriber doesn't bar anybody from entering this contest. It is PAYING IN ADVANCE that counts.

Contestants in towns outside of Los Angeles should send subscriptions to the local agent of The Times, take his receipt, and voting blank or otherwise, and send to us, when they will receive proper credit in the "Score" printed below.

The contest will remain open until September 10, [illegible] Votes must be turned in at The Times office within [illegible] after they are taken or they will not be counted.

NO TRADING WILL BE ALLOWED.

PASADENA SUICIDE KNEW NOT HIS WEALTH.

R. I. BOOTHE'S OIL STOCK FOUND TO BE VALUABLE.

How an ex-Convict Got Out of Jail—Kindergartens are to Be the Finest Possible—Scheme for Pasadena and Los Angeles Boulevard.

PASADENA, office of The Times, No. 35 South Raymond avenue, Aug. 28.—[From The Times' Resident Correspondent.] The suicide of R. I. Boothe of Catalina avenue ten days ago proves to be one of those strange instances of the uncertainty of the estate of man. Some oil stock which the dead man left has been found to be so valuable as to have placed him in comparatively comfortable circumstances.

Mr. and Mrs. Boothe came here three years ago from Rochester, N. Y. Boothe, who had lost a leg in a railroad accident, got work at whatever he could do, and had a hard struggle to pay rent and living expenses. He worked in a restaurant a while, then drove a bakery wagon. He was industrious, and saved a little money. This he invested in various things. He lost some money, and when he invested in oil stock he presumed that his usual hard luck would pursue him.

One day he went to Los Angeles for a job that had been promised him, and was told that a younger and stronger man had been given the job. Boothe had been despondent for several days, and that was the last straw. Nobody wanted a man with a wooden leg, he said. Then he killed himself. He left a note saying that he could not see his way to earn a living any longer. Everything was against him. There was just enough money to keep the family going another month, and no prospect for any more.

It has been learned that some oil stock which Boothe left and which he had presumed was worthless is worth from $1500 to $2000, a small fortune to a family in the circumstances of the Boothes. Mrs. Boothe is now in Sierra Madre, recovering from the illness which was caused by her husband's rash act. An attorney has been appointed to administer the estate which until the last few days was not known to exist.

NEW KINDERGARTENS.

The new kindergartens which are to be built by the Board of Education in conjunction with the public schools, are going to be very pretty. The board met this afternoon, but did not decide upon just what will be built. No steps will be taken until exactly the right thing has been decided upon. Mrs. I. J. Reynolds of the board has visited Santa Barbara and examined the kindergartens there. They are very good, but not quite good enough for Pasadena. Improvements on them are to be made here. The two kindergartens, one at the Garfield school and another near the Wilson school, will each be about 30x45 feet, and will have one large room in which the children will rest. Then there will be another department in which unruly youngsters may be placed until they are good. The contractors estimate the cost at about $2500.

Miss Bessie E. Jackson of Sioux City, Iowa, was chosen to look after the overflow in the first and second grades in the Lincoln School. Miss Annette Underwood was granted three months' leave of absence, and Miss Alice McChesney was elected to fill the vacancy.

SOME ONE HAS BLUNDERED.

Charles Burns, the eccentric negro who was sentenced to serve thirty days in the County Jail for creating a disturbance while under the influence of whisky and cocaine, walked into the police office yesterday and gave the Chief the laugh. The Chief of Police thought he saw a ghost, for Burns's sentence is not served by sixteen whole days. But the ex-pugilist aroused him that he was no ghost. He rubbed pole because he had not seen the daylight for fourteen days.

Burns got out on a technicality. The law provides that prisoners shall be released on the Monday previous to the expiration of their sentence. As next Monday is a holiday, Burns got a windfall of a clean seven days, the authorities construing a holiday as not counting.

The release of the negro at this time is rather a joke on the Pasadena custodians of the peace. They had shadowed Burns for several weeks previous to his arrest, and have communicated with Kansas City, where the man, who admits being an ex-convict, is supposed to be wanted for past offenses. Thirty days would have given the Kansas City authorities ample time in which to send for him, but as they have not been heard from yet and the man is free, he may put a considerable landscape between himself and further confinement.

PLANS FOR BOULEVARD.

The scheme to build a boulevard between this city and Los Angeles, by way of the Campbell-Johnston ranch, west of town, is about up to the two municipalities, the County Supervisors having set aside a fund for the road between the cities. If plans are carried out, Pasadena will build a bridge across the Arroyo opposite Madeline Drive. When the matter came up in Council a few weeks ago, it was referred to the Committee on Streets and Alleys, which is still working on it. The proposed route is from Avenue 66, Los Angeles, north, past the church of the Angels, thence to Pasadena. The Arroyo is only 210 feet wide at the point which would be crossed. The bridge would cost about $100. The owners of the Campbell-Johnston ranch have offered to donate the eighty-foot street through their property, and also the present bridge across the Arroyo. The advantages of the boulevard would be pretty scenery and absence of railroad crossings.

PASADENA BREVITIES.

Improvements, looking to a prosperous season this winter, continue to be made at Hotel Green. Today a contract was let for the building of a brick laundry 50x18 feet, to cost $500. The laundry has hitherto been in the basement, but it has been found that there is work enough for a new building. All the linen, etc., of the hotel is washed at home.

Mrs. Rhodes, who resides with the family of Judge O. F. Weed on North Raymond avenue, lost a purse containing $25 Sunday night. It was found by a paper carrier, George Sandeman, early Monday morning, and promptly returned to the owner, who rewarded he boy liberally for his honesty.

The camp meeting of the Adventists will be opened on the haymarket on North Fair Oaks avenue, opposite the Christian Church, September 4, and will continue till the 15th.

The new vaults for the First National Bank's savings department are expected to arrive about September 1. Guy Wood will look after this branch of the business.

Mrs. Philip Payne Senour has purchased the W. C. Stuart residence on the corner of Los Robles avenue and Eldorado street for $7000 and will make her home here.

John W. Freshwater of Pittsburgh has purchased the former Methodist Episcopal Church parsonage from M. H. Hamilton for $4500.

J. S. Foster, who formerly conducted a stationery store in this city, was here yesterday.

Miss Maud Daggett has gone to La Jolla as the guest of Rev. and Mrs. MacCormack.

Rev. E. S. McKittrick and family have gone to Lake Tahoe for an outing.

Mrs. George Senter and Miss Helen Senter have returned from the island.

Rev. S. G. Emerson is expected home from the East on Friday.

The Misses Claypole have returned from Long Beach.

Special sale Friday at Bon Accord of ladies' black hose, double sole and high spliced heel, for 25c.
Wadsworth sells paints.

OCEAN PARK MAY LEAVE SANTA MONICA.

PETITION FOR SEPARATION IS BEING CIRCULATED.

People of Southern Resort Say They Receive Little Attention from Board of Trustees—Vaudeville Show to Be Closed Because of Poor Patronage.

SANTA MONICA, Aug. 28.—[From The Times' Resident Correspondent.] At a secret meeting held Monday night at Ocean Park, it was decided that the agitation for town division, which was badly defeated last year, should be renewed. A committee was appointed consisting of George Snyder, W. J. Vawter and Mr. Meigs to draw up a petition setting forth the reasons for the movement, and within a few days it will be circulated among the people for their signatures.

Last year the dividing line was at Frost street, but this time it is extended to Railroad avenue. Immediate action is desired by the prime movers, who believe that they are not getting justice under the present town government. They claim that Ocean Park has received very little consideration from the present Board of Trustees, and that Mr. Dudley, their representative, has virtually no voice in the meetings of the board. They also claim that the proposition was defeated last year because the people had not been sufficiently well informed as to its necessity, but that another election will show a different result.

DIAMOND'S DIFFICULTIES.

The Diamond vaudeville, which opened at the Auditorium July 20, will close on September 1, and, it is said by some, under a financial cloud. There are those who claim that Jack Diamond is still in arrears with respect to salaries. Of these, W. M. Wortman, leader of the Soldiers' Home Orchestra, has the largest unpaid claim, which amounts to $90. Some of the claims have been placed in the hands of an attorney, but there is no property that can be attached.

SANTA MONICA BREVITIES.

The negotiation between H. W. Lewis of Los Angeles and Abbot Kinney, relative to the big plunge which the former proposed to build, are off. Mr. Lewis represents a syndicate which was going to build the finest bath house on the Coast, to cost $100,000. It was to be situated at the foot of Pier avenue and Kinney was to receive $10,000 worth of the stock to be issued, and in return was to grant the company the exclusive bath-house privileges along a mile and a half of the beach. The matter has been under consideration for several weeks and was yesterday decided against the bath-house company.

There will be a middle-play handicap golf tournament September 6 and 7, on the Casino links. A large list of entries is expected and good playing may be looked for, as the links are in fine condition. The play for men will be 36 holes and 18 for ladies.

Capt. Cross, who wants to get a right of way between Los Angeles and Santa Monica for an electric road, is around with a twenty-foot petition in favor of his scheme, bearing several hundred signatures.

The telephone exchange at Ocean Park, which has been talked about so long, is at last a reality. Most of the 'phones have been put in and the people there are delighted over the improvement.

J. Greenwald, Fannie Coulter, Los Angeles; Charles N. Schwab, San Francisco, and W. W. Jenkins of Castaic, registered today at Hotel Arcadia.

Mrs. Sutherland Hutton and her daughter, Dorothy, returned today after several weeks' outing in San Bernardino county.

Spencer Kenealy, who has been spending the past week at Catalina, returned today.

There will be a pio tourney at the Casino track tomorrow.

WHITTIER.

NEW BANK TO BE ORGANIZED.

WHITTIER, Aug. 28.—[From The Times' Resident Correspondent.] A new bank will be doing business in Whittier by October 1. Arrangements have been in progress for some time, and on Saturday a meeting of the stockholders will be held for the purpose of organizing. The name of the new institution cannot be given until the application to the State Bank Commission has been acted upon, but those interested see no reason why the name selected will not be allowed. O. M. Souden and Henry Fleishman of Los Angeles will be two of the directors, and five others will be selected from among the stockholders, who include some of the heaviest property owners in this city and the Los Nietos Valley. Mr. Souden will be the cashier. The bank will begin business with a capital stock of $50,000, half paid in. This afternoon representatives of a Los Angeles house were in the city and took measurements of the room on the northwest corner of Philadelphia street and Greenleaf avenue for furnishings which are contracted to be in place by September 20.

Whittier Lodge, No. 27, Fraternal Brotherhood, held a meeting last evening at which James J. Gee, Deputy Supreme President, was present and addressed the meeting.

As soon as the Mason Block on Philadelphia street is completed the City Council chamber and City Clerk's office will be moved from their present quarters in the bank building to the east room of the new block.

The deeds have been recorded by which the William Penn Colony Company of this city has come into possession of 12,000 acres of land in Inyo county.

STABBING THE GOOSE AT SAN PEDRO.

STEAMER ALCAZAR TIED UP AT ONE OF THE DOCKS.

Men Employed in Southern California Lumber Company's Yard Refuse to Handle Cargo from Vessel Carrying a Non-Union Crew.

SAN PEDRO, Aug. 28.—[From The Times' Correspondent.] The first blow in the effort to compel ship owners to employ union labor only was struck here this morning.

The steamer Alcazar, Capt. J. L. Martin, came into port at 7:30 o'clock from Greenwood with a cargo of lumber and steamed to the Southern California Lumber Company's dock, where she was made fast. The Alcazar carried a non-union crew.

When the work of discharging her was started the men employed on the wharf, with two exceptions, refused to work. All or nearly all of those who quit belong to the Federal Labor Union, which was organized in San Pedro several months ago.

The master of the steamer offered to ship a union crew and to employ a gang of union 'longshoremen, but the men would not accept those terms, and so the work of discharging the vessel was suspended.

The Alcazar's cargo consists of 281,000 feet of lumber for the Southern California Lumber Company, at which company's wharf on the easterly side of the inner harbor she is now tied up, and 150,000 feet of lumber for the L. W. Blinn Lumber Company. The latter concern usually has its lumber discharged on the docks of the San Pedro Lumber Company, which are on the westerly side of the inner harbor.

At the place where the Alcazar is now moored she is outside the San Pedro city limits, but the wharves of the San Pedro Lumber Company are within the boundaries of the municipality.

A representative of the Southern California Lumber Company, when seen by a representative of The Times today, was reticent about the company's plans, but said that the work of discharging the Alcazar was there waiting for the men if they wanted to proceed with it.

The Alcazar is owned by the Southern Pacific Company, and it is generally supposed that the captain will carry out the company's wishes in dealing with his part of the situation.

The time of a steamer like the Alcazar is reckoned as worth $125 per day, and any delay in operating her would run into money at a rather rapid pace.

About forty of the men stopped work this morning. Many of them remained about the dock watching the trend of events and contenting themselves with an occasional cry of "scab."

There were a few threats of violence this morning and there is a good deal of speculation over the question whether the labor unions will offer any forcible resistance to the employment of non-union men in discharging the steamer. The position heretofore assumed by the lumber companies operating the several lumber docks fronting on the inner harbor has been not to recognize the labor unions and to employ men according to their personal fitness for the duties required, regardless of whether they were connected with any labor union.

The refusal of the men employed in the Southern California Lumber Company's yard to handle lumber from a vessel carrying a non-union crew marks what is said to be the first time that the question of unions has come before any of the lumber companies officially, at least for several years.

GLENDALE.

HIGH-SCHOOL SITE CHOSEN.

GLENDALE, Aug. 28.—[From The Times' Resident Correspondent.] Elections were held in Glendale, West Glendale, Tropico, Eagle Rock, Ivanhoe and Providencia school districts to elect a High School trustee in each district. E. D. Goode was elected to represent Glendale; F. R. Pittman, West Glendale; E. W. Richardson, Tropico; P. W. Parker, Eagle Rock; D. W. Dwire, Ivanhoe, and G. A. Moone, Providencia. A meeting was held today at the office of Superintendent Strine to name and locate the High School which the districts represent. The name, unanimously adopted, was Glendale Union High School, and it was located permanently in Glendale district.

The board organized and elected P. W. Parker president and E. D. Goode clerk.

SAN DIMAS.

HORTICULTURAL CLUB MEETS.

SAN DIMAS, Aug. 28.—[From The Times' Resident Correspondent.] The San Dimas Heights Horticultural Club met last night at the home of J. B. Rutherford. In spite of the number of people absent at the beaches and cañons, a large number was present. Special interest was taken in subjects pertaining to the development of San Dimas and the neighboring communities, Charter Oak and Lordsburg. A vocal duet by Misses Louise Crow and Alma Callander, was the opening number on the programme, followed by a violin solo by Miss Jessie Thompson, piano duet by Miss Orcutt and Miss May Douglass of Pomona, and a song by Ruth Rutherford. A paper on "Current Events" by one of the members closed that part of the meeting.

Bryce M. Given, D. C. Teague, Frank Wheeler and W. A. Johnstone were selected by the Executive Committee as the Good Roads Committee of the club. The duty of this committee will be to assist the road authorities in the care and maintenance of roads now built and in the selection and building of new roads where needed, in order that the most intelligent use may be made of the funds of the district.

SAN DIMAS BREVITIES.

Wesley Crane, George and Bowman Scott and several others left for an extended hunting trip in the mountains a few days ago.

Miss Thorne of Los Angeles and Miss May Douglass of Pomona are visiting Miss May Orcutt.

William Bray left for Toronto, Can., last week, to resume his studies.

M. C. Shorey leaves on September 5 for an extended trip to Buffalo and Ontario, Can.

Fumigating outfits are commencing the season's operations. A large part, if not all, of the orchards will be fumigated.

The Methodists are preparing to lay the corner-stone of their new church early next month. The affair has been delayed awaiting the return of Bishop Hamilton, but it has been learned that he will not return from London, Eng., for some time, and other arrangements will be made.

J. W. Walker and wife are spending a few days at one of the beach resorts.

The outlook for oranges seems to be improving. D. C. McQuitty has had to prop his navel trees already. The prospect for the fall clip of lemons is much better than anticipated.

Miss Georgia Bowden left for Missouri last week, after having spent the summer here with Mr. and Mrs. E. M. Wheeler.

LONG BEACH PEOPLE TO DISCUSS FRANCHISES.

MASS MEETING TO BE HELD NEXT SATURDAY NIGHT.

Drake Application Strongly Opposed by Salt Lake Road—Beneficial Results from Advertising the Town—Fishing Better Than for Years.

LONG BEACH, Aug. 28.—[From The Times' Resident Correspondent.] A public mass meeting will be held in the Tabernacle next Saturday night, to discuss the electric railway franchise on Ocean Park avenue. The object of the meeting will be to get an expression of the citizens regarding the route of the franchise asked for by Charles R. Drake, who is representing H. E. Huntington. The Holabird application for a franchise, which is now being advertised, merely asks for a loop on the front from Pacific to Magnolia avenue, while the Drake franchise asks for the entire length of the avenue. T. E. Gibbon, attorney for the Salt Lake route, will be one of the speakers at the meeting. Mr. Drake and M. H. Holabird are also expected to be present, and state their side of the question. Prominent citizens of Long Beach will also address the assembly.

ADVERTISING THE TOWN.

The Board of Trade has been putting forth its best efforts to advertise Long Beach. In the June number of the North American Review the board placed a full-page write-up of the city, which soon brought many inquiries regarding property values, etc. One investment can be traced to this advertisement, that of E. C. Dunford of Dibley, Nova Scotia. He corresponded with President Hatch after he had seen the description of the beach, and a few days ago Mr. Hatch was surprised to see the man step into the bank. The recent activity in real estate is largely due to the advertising the city has had during the past winter.

AMONG THE ANGLERS.

Fishing continues to be good, both from the wharf and the pleasure boats. Mr. and Mrs. Robert E. Masters and Mr. and Mrs. J. B. Losee went to Portuguese Bend early this morning, and returned about noon with twenty-five barracuda and sea bass. Another party, which went in the same direction, had equally good luck. Expert anglers, who have been fishing in the waters in this vicinity for several seasons, say that the fishing this year is better than they have ever known. In the past seasons it would be good for a few days and then the fish would disappear. This year it is different, and the anglers are making the most of their opportunities.

LONG BEACH BREVITIES.

S. W. Higby, Prescott, Ariz.; M. J. Cappel and William M. Scott, Tucson, Ariz., and P. H. Loland, Pomona, are staying at the Seaside Inn.

H. E. Farnum, Palma, Ariz., Mary B. Murray, Los Angeles, and Miss R. P. Kennedy, Pittsburgh, Pa., are at the Riviera Hotel.

J. W. Ellingson, who has been the guest of J. L. Moore for the past two weeks, has returned to his home in Phoenix, Ariz.

Donald Darby mashed the first two fingers on his right hand yesterday by a heavy stone falling on them.

Mrs. C. R. Sykes of North Ontario has taken a cottage here for the remainder of the summer.

Mr. and Mrs. J. Robertson of Ontario are visiting friends in this city.

Mr. and Mrs. J. W. Flavelle of Ontario are staying at Hotel Julian.

Norman Gage has gone to Riverside to visit friends.

POMONA.

SPRINKLING WITH OIL.

POMONA, Aug. 28.—[From The Times' Resident Correspondent.] The first application of crude oil was made on a Pomona thoroughfare this morning, the sprinkling apparatus ordered by the City Trustees having arrived from the factory at Ontario yesterday. Operations were commenced at the San Bernardino county line, on Holt avenue, and the course has been directly west to Caswell street. Thus far the trial is entirely successful. The tank on the Pomona sprinkler has a capacity of fifteen barrels, and it has been estimated that it will require twelve tanks of oil to sprinkle a space eighteen feet wide from the county line to Caswell street, a distance of about a mile and a quarter. The heated oil is obtained for $1.25 per barrel, and the total cost will be about $220.

DEATH OF E. C. THORNTON.

At 1 o'clock this morning, E. C. Thornton died at the Miller house, whither he had been taken on Sunday night when suffering from a severe hemorrhage, after attending service at the Congregational Church. The deceased came here from Providence, R. I., about seven years ago for his health, and bought a small ranch on Towne avenue, where he had made his home with his wife. He was about 35 years old and was a fine amateur photographer, some of his cañon views having appeared in leading periodicals. The funeral will be held from the Congregational Church at 3 p.m. tomorrow.

POMONA BREVITIES.

A party of Foresters composed of W. H. Poston, A. B. Goslin, A. O. Lee, H. N. James and S. C. Slanker, attended a meeting of the lodge at Ontario last night, at which G. W. McElfresh, High Chief Ranger, was present and delivered an address.

Otto G. Freyermuth started for Denver this morning, where he will become a member of the faculty of the Denver Homeopathic College, teaching organic chemistry and toxicology. Mr. Freyermuth will stop in San Francisco to visit L. Fred Dreher, who is studying at Hastings Law School.

The annual meeting of the stockholders of the Claremont Citrus Union will be held at the packing-house in Claremont tomorrow.

RUNAWAY IN KENTUCKY.

FRANKFORT (Ky.) Aug. 28.—In a runaway accident on the Versailles Pike, about two miles from Frankfort, today, Mrs. Edward Porter Thompson, the wife the well-known writer and historian, was injured internally, and her grandchild, Elliott Orr, had his skull crushed and is not expected to live. Edmund Orr, another grandchild, is injured internally and will probably die. Miss Kate Thompson, a daughter of Mrs. Thompson, had her leg broken and sustained internal injuries.

GOLF TOURNAMENT AT SANTA CATALINA.

PLAYERS IN ATTENDANCE FROM MANY OTHER RESORTS.

Contestants to Be Entertained With a Grand Ball Friday Evening—Fishing Record for the Season Twice Broken in a Day by Visitors.

AVALON, Aug. 28.—[From The Times' Resident Correspondent.] The greens and tees of the Catalina golf course were never in better condition than at present. The full course is also in good condition, but where rain has not fallen for many months, the grounds could not be expected to be in better condition than they are. The ladies' open handicap, the opening event of the tournament, began this afternoon and promises to be an interesting event. There were fifteen entries up to noon today, and this number was augmented on the arrival of today's steamer.

The golf hop, which usually is held as the culmination of the tournament on Saturday night, will, on the occasion of the present tournament, be given on Friday evening, the change being made on account of the departure of the band on Saturday, it being desired to have the full orchestra for the occasion.

FISHING RECORD BROKEN.

Six big black sea bass were brought in yesterday, two of them weighing over three hundred pounds, and one, taken by Earl Fitzhugh of San Francisco, is the year's record fish for men, under the Tuna Club rules. Several heavier fish have been taken, but the angler either received assistance or broke his tackle in every case. Mr. Fitzhugh's fish weighed 374 pounds.

Al Holdzkom and Charles Dunscomb of San Bernardino each caught a big fish, Holdscomb's weighing 310 pounds and taking two hours of his time to make the landing. Mr. Dunscomb's catch weighed just 200 pounds. He did a good job, however, in landing his in forty-five minutes.

George F. Winters brought in one which weighed 290 pounds, for which he battled two hours and twenty-five minutes.

Frank C. Winters had two to his credit, weighing 160 and 166 pounds.

At 3 o'clock today Frank C. Winters gave the record another boost upward by bringing in a fish weighing 388 pounds. He was but thirty-one minutes in bringing the huge fish to gaff, which marks the young man as an expert in the handling of the rod. He also brought in one weighing 136 pounds.

SANTA CATALINA BREVITIES.

Three launches went up to Moonstone Beach with small parties this morning. The first party consisted of N. T. Greene and family, Miss Matilda Frank Greene, Mabel and Loreta Decker, Mr. and Mrs. Irving J. Mitchell, Los Angeles. A second party was composed of E. J. Saunders and wife, Whittier; Mrs. C. H. Royston, Caroline and Irving Royston, Los Angeles; Miss Katie Thompson, Duarte, and A. W. Herr, Echo Mountain; Mrs. C. M. Irving and daughter, Miss Ida Irving. In the third party were: Miss Willie Auld, Miss Adele Lourth, Mr. and Mrs. John Zobelein, Misses Alice and Bessie Marsh, Fred L. Dwyer, Miss Roxy Jones and Miss Ida Iverson.

The following Los Angeles people registered at Camp Swanfeldt yesterday: G. F. Pfaffenberger, Charles F. Adams, Clarence W. Curtis, Amos C. Wilson, Robert Clifford, Mrs. C. H. Royston, Clarence Dickinson, Misses Mae and Ellen Dickinson, Misses Myra and Gersa Weber, P. F. Zerber, Mrs. E. F. Liscomb, Nellie W. Liscomb, Mrs. Mason and daughter Gladys, Mrs. H. A. Bonrue, Mrs. L. A. Mays, F. L. Fowler, wife and daughter; Mrs. Dr. H. B. B. Montgomery, C. C. Crum, A. T. Fox and family, J. F. Chambers, C. Clement, H. S. Clement.

The Ramona went around the island this morning with the following passengers: Miss Ethel Burgess, Mr. and Mrs. Ben White and son, Lon, Albert Cohn and wife and daughters, Lillian and Bella; Mrs. Mary Maynard, Mr. and Mrs. A. D. Herold, Miss Maggie Snell, S. G. Chambers, Mrs. M. Wickman, Mrs. E. Cosgrove, and daughter, Miss Minnie Snell, S. F. Bryant, Henry F. Kenyon, wife and son, Miss Florence Snell, Mr. and Mrs. M. A. Miller and son, Mrs. W. C. Downey, Misses Grace and Lela Downey.

The following Los Angeles people registered at the Grand View today: Z. T. George, wife and daughter; Edward G. Kurtis, Cora Eshman, W. W. Vallandigham, Mrs. Delia W. Chase, C. W. Chase, wife and two children; D. Freel, wife and daughter; Mrs. R. W. Turner, Miss Muriel Stewart, Miss Gladys Williams, Louise A. Williams, H. E. Hutchinson and J. E. Hutchinson, Mrs. Adam Darling, Mrs. M. C. Barrett, Cecil A. Borden.

The yachts Ramona, Capt. Morrow of San Francisco, and La Paloma, Capt. Hancock Banning, returned last evening from San Diego. The Ramona left for the north shortly after noon today, in charge of the skipper, the party going up by rail.

William Frederickson, T. D. Connelly and wife, G. J. Denis, J. J. Mellus, J. A. Jevne and wife, Miss Schwarz and Phil H. Lyon were among the golf players registering at the Metropole today.

Mrs. M. Hood, Mrs. M. C. Farich, A. B. Green, wife and daughter, George Burch, and Mrs. M. McLaughlin, all of Los Angeles, registered at the Glenmore yesterday.

A. H. Tufts and James Harvey of Pomona, Misses Cleo and Myrtle Glenn of Bakersfield, and Dr. A. C. Pratt of San Bernardino are at Camp Swanfeldt.

Mr. and Mrs. R. Payton-Carter, theatrical people from New York, are at Hotel Metropole. Mrs. Payton-Carter's stage name is Ruth Holt.

R. F. Maclaren and wife of San José, and Mrs. John E. Marble of Los Angeles are guests at the Metropole.

Mrs. L. A. Null, Miss J. Iverson, Miss Auld and Miss Jones are a party from Long Beach at the Glenmore.

S. C. Graham of the oil firm of Graham & Loftus, with his wife and son, is here for an outing.

E. L. Vail and H. T. Coe and wife of Tucson are at the Metropole.

Miss May Poltrey of Trinidad, Colo., is a guest at the Grand View.

Mr. and Mrs. E. B. Myers of Los Angeles are at the Avalon Inn for a week or two.

Plenty of furnished tents at Camp Swanfeldt, Avalon—popular resort.

COVINA.

NEW ORDINANCE PASSED.

COVINA (Cal.) Aug. 28.—[From The Times' Resident Correspondent.] The Board of City Trustees will hold its meeting hereafter in the rear of the Covina Postoffice, on the second and fourth Tuesdays of each month. The bonds of the city officers have been fixed as follows: Clerk, $2000; marshal, $2000; treasurer, $10,000, and recorder, $1000. Their salaries will be: Clerk, $15 per month; marshal, $7.50, with fees; city attorney, $25; city recorder, such fees as are now allowed a justice of the peace of Los Angeles county. A seal for the city of Covina consisting of a design showing an orange spray containing fruit and leaves has been adopted. Justice C. F. Parker being the only applicant for City Recorder, he was unanimously elected.

The case against "Bud" Lewis, charged with the embezzlement of a horse from a Chinaman named Sam Lee, proprietor of the laundry on East Badillo street, came up for preliminary hearing in Justice Parker's court at 1:30 this afternoon and was continued until Saturday.

The property owners on the north side of West College street are adding much to the appearance of the thoroughfare by laying a stone gutter in front of their property.

—Diseases of Men—

A physician must be judged by what he has accomplished. A doctor who cures others is likely to cure you. A doctor who fails with others is likely to fail with you.

No stronger argument could be set forth from this institution than its twenty years of constant growth. It has become the largest special institution on the Coast, because it has cured more men than any other.

It is the safe, sure means of gaining health. It does not make use of dangerous and uncertain remedies, but treats diseases with remedies whose curative qualities have gained the prestige among all leading physicians. These remedies are administered with the skill and effectiveness which results from years of constant practice.

Twenty thousand patients have been cured by this institution. Consultation and examination free. Fees moderate.

THE TIMES-MIRROR COMPANY.

NEWS AND BUSINESS.

Clipped His Finger.

J. C. Wiel, who operates a corking machine at the Maier & Zobelein brewery, lost the tip of the middle finger on his left hand yesterday noon.

Childish Old Soldier.

Edward Phillips, an inmate of the Soldiers' Home, was found acting queerly on Broadway yesterday forenoon, and was taken to the Receiving Hospital. He is suffering from numerous pains, and his mind is wandering.

Hog Did It.

Harry C. Simpson of No. 1935 Bailey street, was severely injured while at work in the Cudahy packing-house yesterday afternoon. A wild hog, which he was attempting to shackle, knocked him over and he fell against a knife in the hands of a fellow employé. He sustained a deep cut on the left side of his back, just below the ribs. The wound bled profusely for a time.

Steamers for San Francisco.

The Pacific Coast Steamship Company's steamer, Santa Rosa, left yesterday for San Francisco on time and with a full list of passengers. Steamer Corona of this line left San Francisco yesterday morning for Redondo, and will sail north from that port Friday evening, calling at way ports, except Monterey and Santa Cruz, and arriving at San Francisco Sunday morning.

Prisoner Taken East.

Chief of Police J. J. Donahue of Omaha, Neb., started for his home yesterday with Frederick Fawker as a prisoner. Fawker is a young man who was arrested here a few days ago, on information received from Omaha. He was formerly employed as collector for the World-Herald of that city, and is wanted there on a charge of embezzling several hundred dollars. Fawker was very reticent here, and refused to discuss details of the charge against him.

Normal School.

Monday, September 2, will be registration day for new students at the Normal School. The term will open Tuesday. Work has just been begun on the $20,000 addition to the school building, which is intended for the accommodation of the manual-training department and the practice school. The practice school is made up of regular classes of children, where the senior-year students acquire their first knowledge of practical teaching. It is the Normal clinic. The addition will probably not be finished before January 1.

To Care for Mohrig.

Chief of Police Elton yesterday received word from Edwin Mohrig, stepson of C. F. Mohrig of this city, to the effect that he will arrive here from San Francisco today to take charge of his step-father's affairs. Mohrig is the aged jeweler who was taken in charge by the Chief a few days ago, because several persons were endeavoring to fleece him of his property, valued at more than $15,000. The old man is childish, and would have proved easy prey for the would-be fleecers. He realized his condition and applied to the police for protection. Interested persons endeavored to secure his release from the City Jail on habeas corpus proceedings, but the effort was defeated in the Superior Court.

Ambitious.

Inasmuch as sergeant-major is about the highest rank an enlisted man can attain in the army, this man's calm request made a sensation. He had been surveying the pictures of the uniforms in front of the recruiting office on Main street. Evidently the triple chevrons with the triple arch had made a hit with him. "I should like to enlist as a 'sergeant-major of cavalry," he told the corporal. The big old noncommissioned officer who has been working for years of a fine army record for such a job, turned on him with a look that withers and annihilates. Then he said slowly: "Well, we would enlist you as a sergeant-major only for one thing. Gen. Miles and Gens. Corbin and Chaffee and the rest of them started in as privates, and we don't like to hurt their feelings."

The Scholarship Contest.

Carrie Sugg still heads the list, though Lena Whittington is only 55 votes behind her. Jewell Fuller Lang and Atha Barker continue third and fourth, respectively. Egbert Edwards moves up ahead of Joaquin Valle (who is out of town) and takes fifth place. Bessie Beatty moves up from tenth to seventh place, and Myrtle Kennedy from twelfth to tenth. Fay M. Avise moves up one step, from sixteenth to fifteenth, and Blanche Bisbee goes up four, from seventeenth to thirteenth. She received the largest number of votes yesterday of any contestant—3019. Other large votes were as follows: Bessie Beatty, 2779; Lena A. Whittington, 1650; Myrtle Kennedy, 1400; Clarence Tritt, 1208; Jewell Fuller Lang, 1039; Egbert Edwards, 1005; Frank Canfield, 912; Cecily Praeger, 739; Atha Barker, 749; Fay M. Avise, 741; Ed H. Bixby, 671; Inez McFarland, 655; Belle Campbell, 640. The latter went forward three points.

BREVITIES.

Send donations of cast-off clothing, furniture or food supplies to the Good Samaritan department of the Bethlehem Institutional Church, Vignes and Ducommun street, or telephone John 38, and wagon will call. Office hours during summer months 11 to 12 daily.

Patrons of The Times visiting Idyllwild and Strawberry Valley on a vacation can make arrangements for The Times to follow them with Dr. L. A. Wright of San Jacinto. The Times will be delivered anywhere in the valley on the day of publication.

Dr. Earl Sweet, room 56, Bryson Blk.

Mme. Phillips of No. 340 S. Broadway has only three more days. Hurry up and yet your hair goods and toilet articles. Your own prices.

Dr. Silas F. Johnson has been compelled, on account of his wife's health, to give up his work in Africa, and will practice in this city. Room 212, Bradbury Block.

For time of arrival and departure of Santa Fé trains see "Time Card" in today's Times.

Dr. Shaffner, Frost Blk. 145 S. B'dw'y.

There are undelivered telegrams at the Western Union telegraph office for Henry White, Elisabeth Putnam, George R. Gersdorf, Mrs. Gertrude A. Fisher, W. W. Hardison and Mrs. T. H. Miller.

NO LAWSUIT FOR THE SCHOOL BOARD.

BIDS FOR TWENTIETH-STREET SCHOOL TO BE READVERTISED.

Two Meetings of Los Angeles Board of Education Held Last Evening—New Chariot Bought and More Stoves Ordered.

The Board of Education held two meetings last night and consumed three hours.

The first was an adjourned special meeting, held for the purpose of settling the trouble arising over the Twentieth-street school contract. The City Attorney gave the opinion that there were but two ways to deal with the suit brought against the board by Dawson & Eldridge; one was to fight and the other was to reject all bids and readvertise. The City Attorney's representative, Mr. Hewitt, advised the board to cut the matter short by adopting the latter course. Giffen openly disagreed with the attorney's opinion, but it was finally voted that the board reconsider its action in awarding the contract. The matter of readvertising then came up, and as it could not be acted upon in special meeting, the first meeting was adjourned and the regular meeting called.

The secretary was then instructed to readvertise for the construction of the Twentieth-street school according to the former plans and specifications. The board was careful this time to change its advertisement so as to call for one bid to cover all the work. Routine business was then transacted, and everything from the course of study to the watering of orange trees was discussed.

About the most important piece of business seemed to be the supply foreman's plea for a new wagon. He set forth that the chariot now in use is an old rattletrap that would soon collapse, and is a disgrace to the high purpose which it serves. He asked that some rubbish on hand, including the said vehicle, be sold and a new wagon bought with the proceeds. The rubbish was ordered sold and a new wagon was ordered bought. Twenty-seven new stoves for various buildings were next ordered. The board cannot really afford so many stoves, for hard cash is at a low ebb, but stoves must be had whether they can be paid for now or not.

A great deal of time was wasted over a discussion as to whether some orange trees on the new Twentieth-street property should be watered, uprooted, or left to die a slow, torturing death. It was decided to uproot some and water the rest.

The report of the Finance Committee, asking for $3908.66 for general expenses, was adopted.

Architect Brown put in a bill for $750 for his plans for the new buildings, but as his pay must be figured on the cost of the structure and all contracts have been called off, he will have to wait.

On recommendation of the Teachers' Committee, the resignation of Miss Helen Vinyard was accepted. Leave of absence was granted to Elizabeth Sullivan and Annie Shields till June 30, 1902; to Alice Culverwell, Maggie O'Donoughue and Blanche Thatcher to the end of the first term; and to Clara A. Dixon till November 1, 1901.

Superintendent Foshay came over from Catalina to attend the meeting.

MARRIAGE LICENSES.

The following marriage licenses were issued yesterday from the office of the County Clerk:

Frank S. Purdy, aged 32, a native of of Illinois, and Lucy A. Luy, aged 21, a native of Iowa; both residents of Los Angeles.

Fred A. Barnes, aged 31, a native of Iowa and a resident of San Francisco, and Viola Ione Jaynes, aged 27, a native of Illinois and a resident of Los Angeles.

The lightest weight and strongest trunk in the market. Manufactured and for sale by J. C. CUNNINGHAM, only. No. 225 S. Main St. Tel. Main 518. Repairing a specialty.

A PESTIFEROUS GERM.

Burrows up the Scalp Into Dandruff and Saps the Hair's Vitality.

People who complain of falling hair as a rule do not know that it is the result of dandruff, which is caused by a pestiferous parasite burrowing up the scalp as it digs down to the sheath in which the hair is fed in the scalp. Before long the hair root is shriveled up and the hair drops out. If the work of the germ is not destroyed hair keeps thinning till baldness comes. The only way to cure dandruff is to kill the germ, and until now there has been no hair prepation that would do it; but today dandruff is easily eradicated by Newbro's Herpicide, which makes hair glossy and soft as silk.

Schlitz

Next to purity, the yeast used in brewing is of the utmost importance in beer. Perfect beer requires a perfect yeast, and rarely does a brewer find it.

The Schlitz brewery introduced chemically pure yeast in America. It has made Schlitz beer the most palatable, healthful beer that is brewed.

The original mother cells form a priceless asset. All the yeast used in Schlitz beer forever will be developed from them. As a result Schlitz beer will never vary, and there'll never be another beer like Schlitz.

THE BEER THAT MADE MILWAUKEE FAMOUS

Phone James 1181 Sherwood & Sherwood, 238 N. Main St. Los Angeles.
